BROWN'S JUNIOR NURSE.

The Junion Nurse. By Charlotte A. Brown, R.N., Instructor in the Boston City Hospital; Graduate of the Boston City Hospital and Boston Lying-in Hospital Training Schools for Nurses; late Superintendent of the Hartford Hospital Training School, Hartford, Conn. 12mo., 208 pages, illustrated. Philadelphia and New York: Lea & Febiger, 1914. Cloth, \$1.50 net.

Brown's Junior Nurse is a volume which should be read and kept for reference by everyone who enters upon the course of training for the nursing profession. It is full of valuable information which is particularly useful to the beginner, and which is sure to be of service not only throughout the entire course in the training school, but afterwards in actual nursing of any kind. The book is characterized by clearness and simplicity. In the presentation of each topic the clinical features are emphasized throughout. The volume opens with chapters on the qualifications of the nurse, and her personal hygiene, on bed-making and the admission of patients. Then follow discussions of all of those subjects, a knowledge of which is necessary for the discharge of the nurse's everyday duties. The sections on bandaging, on emergencies and on infectious and contagious diseases are worthy of special attention. A convenient glossary is placed at the end of the volume. The illustrations are extremely helpful, especially those in the section on bandaging.
