

The Fear of Humbug

Prevents Many People From Trying a Good Medicine.

Stomach troubles are so common and in most cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humbugged, especially in medicines.

This fear of being humbugged can be carried too far, so far, in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden

Seal, bismuth, hydrastis and nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half digested is poison as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.

They are sold by druggists everywhere at 50 cents per package. Address F. A. Stuart Co., Marshall, Mich., for little book on stomach diseases, sent free.

The Whole Secret

Of the Remarkable Success of a Remedy for Indigestion and Stomach Troubles.

A new remedy which may revolutionize the treatment of stomach troubles has been placed before the public, and bears the endorsement of many leading physicians and scientific men.

This preparation is not a wonderful discovery nor yet a secret patent medicine, neither is it claimed to cure anything except dyspepsia, indigestion and stomach troubles, with which nine-tenths of our nation are more or less affected.

The remedy is in the form of pleasant tasting tablets or lozenges containing vegetable and fruit essences, pure aseptic pepsin (free from animal impurities), Golden Seal and diastase. They are sold by druggists under the name of Stuart's Dyspepsia Tablets.

Many interesting experiments made with these tablets show that they possess remarkable digestive power, one grain of the active principle in one of Stuart's Dyspepsia Tablets being sufficient to thoroughly digest 3,000 grains of lean meat, eggs, oatmeal or similar wholesome food.

Stuart's Tablets do not act upon the bowels like after dinner pills and cheap cathartics, which simply irritate and inflame the intestines, without having any effect whatever in curing indigestion.

If the stomach can be rested and assisted in the work of digestion it will very soon recover its normal vigor, as no organ is so much abused and overworked as the stomach. This is the secret and the whole secret of the remarkable success of Stuart's Dyspepsia Tablets, a remedy practically unknown a few years ago and now the most popular, safest and most widely sold of any treatment for stomach weakness.

This success has been secured entirely upon its merit as a digestive, pure and simple; because there can be no stomach trouble if the food is promptly digested.

Stuart's Dyspepsia Tablets act entirely upon the food eaten, digesting it completely, so that it can be assimilated into blood, nerve and tissue.

Every drop of blood, every bone, nerve and tissue in the body can be renewed in but one way, and that is from wholesome food properly digested. There is no other way, and the idea that a medicine in itself can purify the blood, or supply new tissues and strong nerves is ridiculous, and on a par with the fol-de-rol that dyspepsia is a germ disease or that other fallacy, that a weak stomach which refuses to digest food can be made to do so by irritating and inflaming the bowels by pills and cathartics.

Stuart's Dyspepsia Tablets cure dyspepsia, water brash, sour stomach, catarrh of the stomach, gas and bloating after meals, because they furnish the digestive power, which is the one thing that weak stomachs lack, and unless that lack is supplied it is useless to attempt to assist it by the use of "tonics," "pills" and cathartics, which have absolutely no digestive power and do not claim to have any.

The regular use of one or two of Stuart's Dyspepsia Tablets, after meals, will demonstrate their merit and efficiency better than any other argument.

They are sold by druggists everywhere, and a little booklet on cause and cure of stomach troubles will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.
