OUR SUPPLIES OF

Maps and Globes

secured the highest awards at the World's Columbian Exposition, Chicago, 1893; Diploma and Bronze Medal at the Toronto Industrial Exhibition; and a Silver Medal, the highest award for Maps and Globes at the Paris Exhibition.

We carry over four hundred different Maps, treating on every subject. The only house in Canada handling the famous Maps of W. & A. K. Johnston, of Edinburgh, Scotland.

Teachers should look to the interests of their Schools by buying our Globes and Maps.

Hinged Globe Case.

This cut shows our Hinged Globe Case, which is furnished with the eight and twelve-inch Globes. It is easily arranged as a cabinet, and protects the Globe from the sun and dust when not in use.

A complete Manual also accompanies each order.

THE TEACHER'S ANATOMICAL AID

This is a valuable collection of engraved plates and manikins, illustrating human anatomy and physiology, and showing the effects of alcoholic drinks and narcotics on the system. There are also plates showing the evil effects of cigarette smoking, painted from original subjects at post-mortem examinations.

Advantages of the Teacher's Anatomical Aid—It is larger than other anatomical works. Its workmanship is in every way superior. The charts and manikins are enclosed and protected in an elegant wood panel cabinet, that is an ornament to any school room. When enclosed everything is thoroughly protected, and with ordinary care it can be used profitably in any school room for at least ten years. It contains ten large plates, 25 x 42 inches in size. Besides these plates, there are complete manikins of the human body, the head, the eye, the ear, the tooth, the lungs and heart, and the larynx. Write for circular and prices on this "Aid."
