Millions Saved

Total abstainers in Canada are paying annually hundreds of thousands, if not millions, of dollars more for their life insurance than they should pay for the benefits they are receiving.

If the methods of business followed by The Equity Life Assurance Company of Canada were practised by all other Companies, total abstainers now insured, would have many millions greater protection than they now have from the premiums they are paying.

The Equity Life is the only Company in Canada that does full justice to total abstainers, either by offering them much lower premiums on without-profits policies than are granted by other concerns, or separately classifies them for profits on the with-profits plan.

The Equity Life is the only Company in Canada that follows methods of business which admit of its doing all its policyholders absolute justice.

Its last annual report should be read by every Canadian who is a total abstainer.

Address for any desired information.
