

Questions

service, speed of steamships, or otherwise, for carrying out the proposed new steamship service with the western group?

Hon. Mr. ROBB:

1. The Canadian government has decided to entrust the fulfilment of that part of the agreement, providing for steamship services, to the Canadian National Railways management. The services on both eastern and western routes will be put into operation as nearly as possible within the time stipulated in the trade agreement.

2. On the eastern route the Royal Mail Steam Packet Company are maintaining a monthly service with the steamers "Chaleur" and "Chignecto", calling at all the ports formerly called at by the subsidized service and in addition calling at the island of Nevis, both north and south bound, for which they are receiving the same subsidy as before, namely, \$13,102.56 per round trip. This service will be continued until the end of the fiscal year, the last trip being made from Halifax on March 25, 1927, arriving back at St. John on May 3rd.

After the end of the present fiscal year, the temporary monthly passenger and freight service will be continued by the Canadian National Railways and will be supplemented by monthly freight sailings from Canadian Atlantic ports, thus providing fortnightly services from those ports to all islands and colonies of the eastern group. Freight sailings from St. Lawrence river ports during the season of navigation will be continued as heretofore.

On the western route the Canadian Government Merchant Marine are maintaining their usual service every three weeks, with the steamers "Canadian Fisher" and "Canadian Forester", calling at Bermuda, the Bahamas, Jamaica and British Honduras, and this service will be continued until the new service can be put into operation.
