## POPE DEFINES HIS POSITION

Vatican Regrets Italy's Participation in War—Attitude Strictly Neutral.

(Continued From Page 1).

knows all this perfectly. How, then, could he put them in a category with the Belgian and French hostages or with the Jews of Russia?

"With regard to Gen. von Bissing, the German governor of Belgium, neither the Holy Father nor the secretary of state ever received a letter or communication from him directly or indirectly. The Pope could not refer to such a letter and he did not. The letter was born of the fevered imagination of M. Latapie."

Desired Italy's Neutrality  
"But much graver is the confusion of M. Latapie when he speaks of the relations between the Holy See and Italy," continues Cardinal Gasparri.

The following is the real opinion of the pontiff:  
"It is true that he wished Italy to remain outside the conflict upon receiving concessions from Austria, because he desired that Italy should not suffer the horrors of war and he was preoccupied with the delicate position of the church if Italy entered the conflict. War once declared, the church became entirely neutral. It has not in any way tried to prevent Catholics from doing their duty according to their consciences and it has done everything for the spiritual welfare of the soldiers."

The pontiff recognizes that the Italian Government has done everything possible to attenuate any difficulties that might arise between it and the Holy See. The Vatican's correspondence is not being touched. But that does not mean that the situation of the Holy See is normal. It does not intend to create embarrassment for the government."

Deplored Lusitania's Sinking.  
"The Holy Father much deplored the sinking of the Lusitania, but he could not pronounce directly on it because there was before him a question of fact regarding which each side makes different assertions."

Cardinal Gasparri ended the interview by saying:  
"With regard to what concerns me personally I saw M. Latapie only a few minutes. In that time the diplomatic relations between the Holy See and France were not mentioned. M. Latapie would have done better had he maintained the promise he formally gave me not to publish anything without previous authorization. But as the formal promise was not sufficient to preserve the Holy See from such deplorable indiscretions M. Latapie will have the honor of being the last journalist to be received by the Holy Father during the war."

## RUSSIA TO BUILD SHOPS ON CANADIAN BORDER

Several Muscovite Capitalists, With American Car Foundry Officials, Inspect Sites.

NIAGARA FALLS, Ont., June 28.—The Nations Brass Manufacturers Association will hold a two days' meeting at the International Hotel, across the river, beginning tomorrow. The effect of the war on business will be the principal subject discussed. Many brass foundries in the United States are now manufacturing ammunition and war material for the warring nations of Europe. It is rumored today that high officials of the Canadian Government will be present at the meetings.

Several officials of the American Car Foundry Co. were in the city yesterday, in company with a number of Russian capitalists. All refused to say anything in connection with their visit here. It was learned today, however, that plans were under way for the erection of a new plant on the Canadian shore for the manufacture of ammunition materials. The Russians looked over several factory sites.

KINGSTON, June 28.—In a letter received today Capt. George Richardson of the 14th Regiment says that out of 88 men he took from this city he has but 10 left, the others being numbered among the killed, wounded and missing.

Twenty-two officers and over 400 men to the overseas force is the splendid record of the 14
