

female society, and I have very frequent nocturnal emissions. The testicles and penis are very small, and there is something like a lot of hard cords attached to the left testicle. I have a slight cough always on me, with shortness of breathing, and I am very thin. I often turn very giddy when rising or stooping hurriedly. Reading the slightest thing of a sentimental character brings tears to my eyes, which I cannot help, although I feel them to be maudlin. My sight is weak. I have no confidence in myself. I blush and look guilty at the slightest thing said to me, whether right or wrong; blushing and becoming pallid by turns. I find my constitution is weakened most terribly. I have got very thin this last month, and have had nocturnal emissions sometimes two or three nights running. Sometimes, on going to stool, a thick gummy matter comes off from the penis, and there is a slight irritation at the root of the penis after passing it. I have slight pains in the back, and sometimes in the testicles.

---

CASE No. 682.

At the age of fourteen or fifteen I was taught the disgraceful habit of self-pollution by a companion, and continued to practice it until twenty, when a friend, who knew something of anatomy, &c., told me the consequences, and caused me to leave it off in disgust. I am, however, troubled with frequent emissions, accompanied with disturbing dreams. I have sometimes put some of my urine in a bottle, when I have noticed, after a few hours, a filmy substance floating about in it, and when it has stood a week, it has become quite thick at the bottom. My testicles are very pendulous, and I sometimes feel a slight escape of semen when in the company of females. My left testicle is smaller than the right, and has more cords or veins about it. The white of my eyes is generally of a muddy or brownish color, and my sight is certainly not so good as it was formerly. I have also been troubled with pimples about my face and shoulders, which are very disagreeable. I am troubled with extreme nervous-
