MADRID. April 2.-The ministerial wists, which appeared fraught with the freatest possibilities, seems to have ended as abruptly as it began. It has resolved itself, seemingly to the meneral relief, into a second reconstruction of the Canalejas ministry.

King Alfonso on his arrival from eville this afternoon, immediately reeived Senor Canalejas and requested him to continue in power. The premier sereed, on condition that he be per mitted to make such changes in the cabinet as he deemed necessary. To this the king readily assented.

The premier hopes the work of reconstruction may be completed to-morrow and that the ministry will appear in the cortes without delay. The retiring ministers probably will be Gen. Asnar, minister of war, who was mainly responsible for the crisis by his attitude in demanding that the Ferry debate be suspended immediately by vote of the majority, and Senor Co-bian, minister of finance, who appears But never to have been wholly in agree-ment with the religious policy or the

oremier.

It is understood that one of the first steps of the premier will be to relieve the captain-general of Madrid of his command. The continuation of Senor Canalejas in power is universally re-
