TONE IS UNSETTLED IN GRAIN MARKET

July and September Corn Fall Back, But December Option Advances.

Chicago, July 11.-Corn weakened toay for old crop deliveries, but strengthfor the new crop month, Decem-July and September were up too near the basic price of wheat; on the other hand, notice that trade relations with Germany could at once be resumed led to some speculative buying of December corn. The close was unsettled, varying from 2½c net decline to an advance of 2c, with September \$1.92% to \$1.93%, and December \$1.59% to \$1.60. Oats gained ic to 2%c to 24c. The finish in provisions ranged from 30c setback to 12c

visions ranged from 30c setback to 12c advance.

Most of the corn trade was in the December option, and there was evidence that the bulls especially had transferred their activities to that month. In this connection, some friends of higher prices professed to feel apprehension that hot winds in the southwest would cause damage. Other authorities, however, said the moisture supply in that territory had been ample. The day's top figures for December were reached just at the close, when attention was focussed chiefly on the subject of renewed business with Germany.

Oats climbed to the highest prices yet this season. Seaboard buying and unfavorable crop reports were responsible. Absence of demand weakened provisions, notwithstanding new top record prices in the hog market.

SOME HARDWARE LINES ARE DOWN TEN PER CENT.

Copper Goods, Linseed Oil, and Tap Soles and Heels Advance.

"Hardware and Metal," issued today. "Hardware and Metal," issued today, will say:

Numerous changes are again the order of the week's hardware markets and some of the revisions made are most important. One of the outstanding changes is that which has been made on shovels, spades and scoops, the new discounts named providing for a decline of about 10 per cent. in these lines.

In line with the strength shown in the metal market on copper, manufactured lines have responded and copper wash boilers, tea kettles, tea and coffee pots have all undergone revision upward, the advance amounting to a straight 10 per cent.

IN C.N.R. TERRITORY

Linseed oil is again featured in the chapses which have taken place, prices geing up from 20c to 30c per gallon, and in one instance 50c per gallon.

A sharp advance in tap soles and heels has been reported, amounting to a bout 26 per cent. Sole leather is also up in line with these changes.

TRADE IN GROCERIES **ACTIVE IN TORONTO**

western district, indicate a need of rain in the areas contiguous to their stations. There are only nine points out of the 238 reporting where the agents seem to be willing to admit that the grain crop is almost a failure. There are seven points where the growth is said to be retarded on account of drought. By a great majority, therefore, the agents are optimistic that the rains which have fallen will be sufficient for the needs of the growing grain,

PROSPECTORS POUR INTO SHINING TREE

Number of Recent Discoveries Made Outside Well-Known Wasapika Section.

West Shining Tree, July 10.-The great influx of prospectors from other parts of northern Ontario is beginning to give results in this camp. Heretofore interest has been centred largely in the Wasapika section, but when all the properties changed hands prospec-tors naturally turned to other portions of the camp.
The Millions Lakes mines, in which

Toronto financiers are largely interested, has just i ery. A vein 15 feet wide has been traced for 1000 feet and values of \$44 per ton have been obtained on assay. There are altogether 232 acres in the

roperty.
The Atlas gold mines have uncovered what is believed to be a continuation of the vein on the famous. Holding mine. This discovery was made on the 135 acres lying between the Holding and the Asquith gold Atlas. This company has been very successful in all its work in the camp. It may be due to Mr. Hirshman's thoro training as a mining engineer or partly to luck. Certainly the Atlas has made great strides since Mr. Hirshman took control of its exploratory and mining work.

The Asquith gold mines expect to plek up the Atlas-Holding vein on

their property, and careful prospecting to that end is now in progress. Find at Stewart Lake.
At Stewart Lake, which is less than mile east of Cow Moose Lake, and about one mile northeast of the Holding mine, a very important find has just been made on a vein 12 feet wide mposed of quertz and schist. The

The condition of the feed was unchanged.

The demand for rolled oats continues to be limited and the market is quiet. The trade in baled hay today was the month. This will prove a great quiet.

The feature of the egg trade today was the stronger feeling which develoned in the market for selected stock and the lower grades and prices scored an advance of 1c to 2c per dozen, but strictly new laid stock was firm and unchanged.

Oats—Extra No. 1 feed, 93½c.
Flour—Manitoba new standard grade, \$11 to \$11.10.

Over 25 Bushels to the Acre

Winnipeg, July 11.—From 5 to 7½ per cent. damage has been caused to crops by the grasshopper plague in certain districts of southern Manitoba, the department of agriculture announces. Despite this handicap it is declared that the wheat yield will run from 25 to 30 bushels per acre. The plague is well under control.

LEAVES A LOOPHOLE FOR GERMAN PERFIDY

Paris, July 11.-Ratification of the treaty of peace by the German na-tional assembly at Weimar may be held not to be sufficient, according to The Petit Parisien. The new German constitution provides that in cases where territory is ceded, the ratification of treaties by states which lose territory is necessary, in addition to approval by the central government. Consequently, independent action by Bavaria for the Sarre basin and Prussia, for territory restored to Poland, may be required. It may be said, the newspaper says,

that the new constitution had been only partially accepted when the treaty was ratified, but it adds: "It s imperative to avoid giving German collegal experts a pretext for proclaiming the nullity of the treaty."

TONE IS IMPROVED ON MINING MARKET

Leading Gold Stocks Show Firmness and Trethewey Advances Sharply.

Mining stocks showed a distinctly better tone yesterday, and while trading contracted to less than \$5,000 shares. This was not to be wondered at in view of the fact that the market was on the eve of a double holiday. What liquidation was in evidence earlier in the week seems to have practically ceased, and there can be no doubt that the technical situation is highly favorable. The market may, in fact, be considered virtually shock-proof, and stocks have done during a period of labor unsettlement, added to which has been a certain amount of uncertainty as to the effects of northern bush fires. Advices in the latter respect are reassuring, and it is the consensus of opinion among mining men that stocks in general are selling at pretty close to rock bottom prices, and that a favorable turn in the fortunes of the market should not be far off.

Leading gold stocks were almost uniformly firmer yesterday. The prevailing level of Hollinger was \$6.56, showing a three-point advance, with an odd lot transaction at \$6.60. McIntyre advance, a point to \$1.81, and Davidson, under moderate pressure for several days, ralled half a point to \$0\frac{1}{2}\$, with the closing at three-point advance, with an odd lot transaction at \$4.60. McIntyre advance were shown by Schumacher at 25\frac{1}{2}\$, with the closing at the certain demand for Wasapika around the high level price of \$0, 4500 shares being traded in at this price. Teck-flughes held its gain at 22\frac{1}{2}\$, and fractional advances were shown by Schumacher at 25\frac{1}{2}\$ and by West Dome at 12\frac{1}{2}\$. Their was an excellent to their relation to each other. In fact, the vein systems on this rich property lend themselves to rapid and comparatively inexpensive methods of development. The system and nearly all the other weins on the same level, and thus the property of the discovery will be saved and the work of putting ore in sight.

in between \$11.50 and \$11.35. Timiskaming came sharply to the fore with an upturn of 2½ points to 40. While it is stated that the report of the discovery of a shoot of high-grade ore at the 575-foot level is erroneous, the "street" remains unconvinced. McKinleyDarragh firmed up half a point to 63½. La Rose sagged three points to 41, and is now almost back to the level at which it rested prior last Tuesday's meteoric rise. Vacuum Gas at 19 was up %.

In connection with the labor situation at Cobalt, a wire to a local broker yesterday said:

at Cobalt, a wire to a local broker yesterday said:

"The local Miners' Union executive has telegraphed Senator Gideon Robertson. minister of labor, asking what progress may be expected immediately in the questions at present in dispute between the operators and the employes of the silver camp. No answer to the minister's suggestion that a joint conference be held between the managers and the union has yet been received by the latter from the Mine Managers' Association, and the union executive has asked that something definite be received from the federal authorities in time to lay before the union meeting on Sunday. before the union meeting on Sunday. Representatives of five mining companies are meeting with the union in the Porcupine Camp today."

TO BLOCK RE-FINANCING

New York, July 11.—An injunction suit to prevent re-financing of the International Petroleum Co. of Maine, a corporation capitalized at \$6,000,000, which controls 110,000 acres of land in Tampico, as planned by John Hays Hammond, Harris Hammond and Frederic N. Watriss, voting trustees, was filed today in federal court by Thomas E. Wing, a minority stockholder, who claimed to hold 43,552 a contract has been let for a large

WALL STREET LOANS.

New York, July 11.—Wall Street brokers' loans have touched the figure of \$1,500,000,000. This shows consider-able expansion, as about June 1 brokers' borrowings were slightly over \$1,000,000. These accommodations cover call and time obligations together loans on Liberty bond collateral.

BANK OF FRANCE.

DROP IN GASOLINE Chicago, July 11.—Gasoline was quoted today in Chicago at 21 cents by the Standard Oil Company, a reduction of two cents on the former General business conditions and increased production were given as reasons for the drop by an official of the

Charles L. Hirschman, M.E. B.Sc. pika section of the camp, and the remaining 135 acres adjoin the Holding OF PETROL COMPANY Mine. The entire acreage was secured after the exploring operations already mentioned, and before the recent great advance in prices, and also at a time when the company had the choice of nearly all the best properties in this role and districts.

footage of diamond drilling. The drilling plant is now on the way to the property and the government agent, J. F. Whitson, is putting the finishing teuches on the road so as to admit of

the movement of boilers and heavy Because of its large acreage, ous veins, rich ore, ample working capital and efficient and vigorous management, the Atlas is one of the leading properties of West Shining Tree. It goes without saying that the profit on high grade ore is very great. Until the railway reaches the camp, the com-pany must face mining and treatment costs of \$5.00 to \$6.00 per ton, but this makes a very small hole in \$80.00 ore. In fact, the Atlas could have worked at a large profit even during the war had it then been adequately developed and equipped with a modern reduction

PRICE OF SILVER

London, July 11.—Bar silver, 531/4 d per ounce, an advance of 1/4 d. New York, July 11. - Bar silver, 106%c, an advance of 4c.

Settlers of Kedswick, N. B., Sued for Starting Forest Fires

Fredericton, N.B., July 11 .-- Twenty settlers of Kedgswick, the lumbering village on the International Railway in taken as indicative of the Dutch respecting forest fires as a result of surrender of either the former emperor wards of \$150,000 of damage in that district. The papers have been sworn ply was just about what might have out before Magistrate F. F. Matthewbeen expected in the circumstances on, before whom the twenty odd defendants will appear at Campbellton, on lighting fires without a permit, while others are charged with allowing fires any attempt to put them out.

Texas Globe Oil Co.

A company with a small capital and proven oil property. Producing and selling their oil to the Magnolia Petroleum Company at \$2.25 per barrel.

The President of the company, who has been in Toronto for the last few weeks, left Saturday to commence drilling on a deep well on the Burkburnett lease. From every indication a well should be brought in that will give 300 to 800 barrels. A few shares are for sale at \$1.25 and will be advanced to \$1.50 or more at an early date. Send your order and get in before the advance.

We have underwritten the entire block of unsold stock and advise the purchase.

Write for particulars.
