That the placing of U.S. inspectors on the boats of the Niagara Line has siven rise to a certain amount of irritation in some quarters there can be no doubt. The orders under which these officials act are to exact payment of \$2 from all "foreigners" entering U.S. territory at Lewiston. By foreigners is meant all outsiders who cannot boast of Canadian, Mexican or Cuban nationality. The tourist carries his own articles of exemption with him, however, in the form of a certificate made out by the ocean steamship company which brought him over from Europe, and which permits him during the space of one year to cross and recross the sacred borders with impunity.

Bloor-street to Danforth-avenue. The consideration in the way of these extensions was the cost of bridging the river, but this would not be too great, in view of the many advantages that would be derived by the city from the new avenues of access to the suburbs. The bridge at Danforth-avenue had been estimated to cost \$300,000, but this Ald. Foster considered, could be reduced fully one-third by filling in the approaches, and thereby decreasing the span.

Small of Toronto, has arranged for the opening of its various theatres thruout Ontario and Quebec, This being presidential year across the line, managers of traveling companies are anxious to fill in their early time in the Dominion, and especially in that portion which, from returns last season, has shown the most remuneration. The past season having been one of the most successful, from a financial standpoint, that this section of the Dominion has experienced, naturally the leading attractions are desirous of commencing their tour in this district. Mr. Small, who has in the past been giving the best attractions obtainable at popular prices for Toronto theatregoers, has arranged a booking sheet this season which will no doubt add to his popularity thruout Ontario. The best of the traveling companies have been procured for the Canadian circuit, and the outside cities will have an opportunity of witnessing the big productions that will be offered to Toronto audiences. This being presidential year across the

erica. The various houses which Mr.
Small directs and the booking of the various attractions is an immense undertaking. For instance, in Quebec, the Auditorium, a new theatre leased by Mr. Small, has been open since Aug. 25 last, and over 100 attractions have been offered to Quebec theatregoers. This run makes it the longest of any theatre in Canada. In Ottawa, Mr. Small's lease of the Russell Theatre expired this year, but he has renewed it for another term.

This season, commencing with head-quarters at Toronto, the staffs and the opening attractions follow:

Judge Winchester yesterday concluded the enquiry into the employment of alien engineers on the G.T.P. Railway, anager, ito, Haverly's Minstrels open with an examination of Hugh D. Lums-

accepted it if it had been offered him.

Mr. Lumsden outlined a list of public works on which he had been engaged, including a number of sections on the C. P. R., the Crow's Nest Pass and other roads. In all his experience he had never found it necessary to engage United States engineers, and had had very little experience with them.

The salaries paid by the G.T.P., he considered high, and if Mr. Hays had offered him anything in connection with the location or construction of a transcontinental road, he could have secured a release from the C.P.R.

Mr. Lumsden was not cross-examined, W. H. Biggar, the company's counsel, not being present.

Judge Winchester will begin his report as soon as the evidence is printed at Ottawa.

Beer is Good for You When the patient is weak, the doctor says "Drink Beer." When the nerves need food, beer is the usual prescription. So in insomnia; so in nervousness. The doctor knows that malt and hops are nerve foods and tonics. And he knows that most people drink too little fluid to rid the system of waste.

He knows that pure beer is good for you. That is why he says "Schlitz." He knows that Schlitz beer is brewed in absolute cleanliness. It is even cooled in filtered air. And every bottle is sterilized.

Half the cost of our brewing is spent to insure absolute purity. Ask for the brewery bottling.
