The City Churches.

DUNDAS CENTER ANNIVERSARY. Wesleyan Theological College, Montreal, preached both morning and evening. There were large congrega-tions on both occasions. The reverend gentleman, who is a former pastor of the above church, preached a forcible and eloquent sermon. A special musical service was also rendered by the choir. In the afternoon Dr. Antliffe addressed the scholars of the Sabbath school. He was kept busy after the services shaking hands with his former congregation and friends.

SEVENTH AT CHURCH. The Seventh Battalion paraded to church for the second time yesterday morning, attending divine service at the First Methodist Church. The parade was an imposing one. The spacious edifice was crowded. The pastor, Rev. Dr. Smith, delivered an able and appropriate discourse. The musical part of the service was very enjoyable. Nations as well as individuals were called upon to perform specific work for the furtherance of the kingdom of God. The Anglo-Saxon people were destined to play an important part the working out of God's providential plan. Nations were not to live unto themselves, but must look for their highest destiny through contact other peoples. The enormous with scale upon which our national defenses were carried might tend, in the long run, vastly more to peace than to war. The Sermon on the Mount was likely to become the unifying pow-

er of the race. Whether we want it or not God, in his providence, is thrusting greatness upon us. The conviction grows stronger as the years roll by that there was a power somewhere that works for

righteousness and peace." INAUGURAL SERMON.

Rev. C. C. Owen, the new rector of the Memorial Church, preached his inaugural sermon yesterday. "The Church and Its Mission" was his subject. The family was the true symbol save souls should be its aim. There was danger of the church becoming a mere social club His prayer for this congregation was that its members might show the world outside that they lived to save the would, for whom Christ died. The sermon was intensely evangelistic. Both morning and evening services were largely attended. The impression made by the rector was very favorable.

NOTES. Rev. Donald Grant, B.A., of Montreai, occupied the pulpit of the Talbot Street Baptist Church at both services yesterday.
At the First Methodist Church ser-

vice last evening 65 new members were received, all being adults. Hood's Sarsaparilla never disap-

Their Business Booming. Probably no one thing has caused such a general revival of trade at W. T. Strong & Co.'s drug store as their giving away to their many customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable remedy, from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases are quickly cured. You can test it before buying by getting a trial bottle free. Large size, 50 cents and \$1. Every

bottle warranted. A woman who refuses to divulge a secret is called a mean, stingy thing, by other women.

Time for Arbitration.

The time has arrived when steps of some sort should be taken to end the street railway strike. For three days the cars have been

running and the people walking. It must now be apparent to the company that public opinion is against them. They may hope to tire out the public by prolonging the present state of affairs, but we believe that such a course will further embitter the feeling against them, to say nothing of the heavy financial loss they will incur, and are incurring every day. If the strikers provide an ample bus service, as they say they will do, the street cars may as well remain in the barn.

No one likes to acknowledge defeat, and the company may decide to suffer a good deal before they take the initiative toward a settlement. For that reason, we make the suggestion that some independent and responsible citizens should endeavor to bring the company and the men together, either directly or through arbitrators. The public are the third party to this dispute, and they will sanction any reasonable attempt at reconciliation on fair and honorable terms. The difficulty last fall was temporarily adjusted in the same manner. This time a more satisfactory and durable compact between Anniversary services were held in the company and their employes is the Dundas Center Methodist Church desirable, and ought surely to be yesterday, when Rev. Dr. Antliffe, of capable of being effected if the principle of arbitration is admitted.

FUNERAL OF MRS. SPARLING.

The funeral took place at Toronto on Saturday of Mrs. Sparling, wife of George B. Sparling, M.A., of Upper Canada College. The deceased lady, whose maiden name was Elliott, was of Irish birth, but migrated to this country at an early age with her parents, who located in London, Ont. They resided on King street, near the Primitive Methodist Church. Nearly thirty years ago she married Mr. Sparling, then principal of the Yarmouth Grammar School, Nova Scotia, and formerly a teacher in Middlesex county. During a residence of 28 years in Toronto, Mrs. Sparling endeared herself to numerous friends through her bright and happy and uncomplaining manner. An attack of la grippe, sustained during the last month, resulted in complications in her case, which were succeeded by heart failure. The service at the house was conducted by the Rev. Dr. Parker, assisted by the Rev. I. H. Locke, and although the funeral was private, the number of friends present was very large, including the staff in full of Upper Canada College.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. R. brothers from Lon-sale by W. T. Strong & Co.

East London.

To the Editor of The Advertiser:

I take the liberty of writing to you in reference to the street railway strike. Now, Sir, I must protest against the way the Free Press has been writing of late. As a Conservative, and a subscriber for over 25 years to that paper, and in consequence of the hash they have served up to its readers, it has given me the typographical dyspepsia, and has caused me to take the strike fever; and now I am going to start to subscribe to your paper tonight, and I wish you may have hunareds more also. Now, Sir, take the mass meeting account in the Free Press. They have wilfully distorted the statements. Let any intelligent person verify it with what was said at the meeting, and he will say it was garbled, and not the facts, and he will say it is a par with all their letters they had before. Sir, there was a letter in the Press on Friday night, signed C. P. Simpson. Well, I thought better of that gentleman, and I am sure he does not know the man he calls anarchistical, for I am certain Mr. Marks has no such nonsense in his head. I am under the impression that he has more brains than C. P. Simpson, although Simpson may be very grammatical. Now, Sir, there is another letter signed M. H. Glover, purporting to have come from Michigan, U. S. A. I am under the impression that it was written in London, or this Englishman does not know what he is talking about. He says he is like a man sitting on the fence. I wonder if he's the nigger in the fence? As to the sneers, it ill becomes the Press to sneer in reference to the men, saying, perhaps they form a part of the con-gregation of Rev. Mr. Wilson's church. Now, Sir, it is to their credit to form part of his church or any other church.

Now, Sir, my reason for taking up this matter is to show what organization has done for workingmen. Some years ago a man was discharged in this city for not working on a rotten and crooked ladder, and thereby risking his life to save a few dollars for boss. Now, I was sent to work on the same thing, and I soon turned it into kindling wood, and thereby had to get another. This employer would treat his men like dogs. I asked him once in this way: "I suppose if you told me to take the horse out of the wagon and put the harness on myseif, and pull it about, instead of the horse, you would expect me to do it?" he said. "Well, then," I said, "you have struck the wrong man this time." They, the employers, when asked for more money, would say the workmen would waste it, although they had earned it. These are facts, and can be verified in this city. I beg to apologize for the length of

this letter, and I trust you will forgive me for taking up your valuable time. I have had 46 years' experience. I started at 14 and served seven years apprenticeship, and paid \$200 premium and received 1 cent per hour as wages and 2 cents per hour for overtime the first year, and a raise every year until my time was out. The time was then twelve hours a day, and finally got to 60 hours per week, and then to 54 hours per week, and organization has accomplished all this, and I think we can all thank God for it, and if the street railway employes are true to themselves they will succeed in their effort to better their condition, and the public will back them. I trust, dear Sir, you will be able to find space for this letter, and oblige, yours, respectfully, R. W. TIMSON, respectfully, East London.

London, May 27, 1899.

Police Court Notes.

There was an exceptionally large number of offenders at the police court this morning, including nine drunks, seven of whom were discharged.

Timothy Sullivan was fined \$5 or 20 days for being drunk, and remanded for sentence on another charge of assaulting a constable. Richard Bardawill and Rosia Niosia were charged as disorderlies, and their cases will be heard in a week.

William Duggan was fined \$5 or 20 days for being drunk. John Vale, the man who is charged by Mrs. Margaret Ranahan with fraud, failed to appear, and a warrant has been issued for his arrest.

nine human beings were lying in the ashes. INCREDIBLE CRIME.

Sing, Sing, N. Y., May 29.—Adrian Braun was electrocuted today for the murder of his wife on March 5, 1898. At the time of the murder, Braun was serving a two-years' term for wifebeating. The woman visited him frequently, and on the day she met her death she carried him some delicacies. Braun, who was employed in the prison as a potato-peeler, went to the visitors' room to see her, with a knife secreted in his clothes. The two con-versed together in the most friendly terms, until the prison detective told them their time was up. Braun pleaded for a few extra minutes, and his request was granted. Suddenly he stabbed the woman in the neck, severing the jugular vein and the main artery, and before the detective could reach him he plunged the knife several times into the woman's body.

WORKING ON BRAINS.

Food Specialist Brings Out a Novelty A food expert at Battle Creek, Mich., connected with the Postum Cereal Co., Limited, has produced a food especially intended for rebuilding the brain. It is a well known fact among physicians that examination of perspiration and urine will tell whether the individual has been actively using the brain or not.

Brainwork exhausts the phosphates

which appear in the excreta above mentioned. Administration of inorganic phosphorus or phosphates does not readily supply the waste, for nature demands that phosphates be made up and blended in food which she furnishes. Advantage has been taken of this knowledge, and a scientific selection of part of the grain has been made, and these have been put through mechanical processes parallel to the processes through which food is passed in its management by the human digestive organs. Therefore the new food is not only ready to serve without cooking, but it has passed through the process where the starches have been changed to grape sugar, and that with the proteids, organic phosphates, etc., are at once ready to be quickly absorbed and turned to use in vitalizing and nourishing the parts of the body like brain, solar plexus, and the delicate nerve centers.

The new food has been given the name of Grape-Nuts, and far from being a "Crank's Food," Invalid's Food," or anything of that sort, it is crisp, sweet novelty, charming to athlete, brain worker, epicure, or in-

valid. Grape-Nuts can be had of grocers.
