MAJORITY OF PATIENTS WOME.

Mrs. Pinkham's Advice Saves Many From this Sad and Costly Expe-

beds are women at him.

Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the abdomen, nervous exhaustion, pain in the small of the back, pelvic catarrh, dizziness, flatulency, displacements or irregularities All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the trouble may make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best. while in many cases the results are fatal.

The following letter should bring hope to suffering women. Mrs. Robert Glenn, of 134 Marie St., Ottawa, Ont., writes: Dear Mrs. Pinkham:

"Lydia E. Pinkham's Vegetable Compound is so well and widely known that it does not need my recommendation, but I am pleased

to add it to the many which you have in its favor. I suffered untold agonies from serious female troubles for nearly three years, and the doctors told me that I must undergo an operation, but as I was unwilling to do this, I tried your Vegetable Compound and I am only too pleased that I did so, for it restored me to perfect health, saving me the pain of an operation and theimmense bills attending the same. Pray accept my hearty thanks and best wishes." Just as surely as Mrs. Glenn was cured of the troubles enumerated in her letter,

who suffer from female troubles, inflammation, kidney troubles, nervous excitability and nervous prostration. Mrs. Finkham invites all women who are ill to write her for free advice. She is a daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge.

The Pure Food Movement

Is very strong in Canada today. In no article of diet is purity so important as in flour, for flour is the basis of more than half your food. It is your duty, therefore, to see to it that the flour you use is pure.

"FIVE ROSES" FLOUR is made by a process which insures absolute purity, in so far as it can be secured by the most scientific milling methods. From the time the wheat enters the mill until the flour reaches the cook, it is untouched by human hands. The grain itself is thoroughly cleansed before grinding, whilst the flour is sifted, time after time, through the finest silk cloth, in order to remove the smallest impurities.

These processes render "FIVE ROSES" an easy and satisfactory flour to use, and insure better results on baking day than can be obtained with any ordinary brands. Ask your grocer for it.
