Chicago, June 20.—Official notice that the food administration license of commission merchants does not cover the carrying of cash gain for customers who are not licensed, brought about general selling today in the corn market. Prices declined sharply in consequence. Big receipts here tended also to weaken prices. Opening quotations, which ranged from 1/2 to 11/2 lower, with July at \$1 44% @1 45%, and August at \$1 46% @1 46%, were followed by an additional setback.

Oats, like corn, weakened owing to the food administration notice. Reports of excessive heat in the Southwest falled to check the down-turns. After opening 3/2 to 11/2 lower, with July at 72½ @72% c, the oats market rallied a little, but then sagged further than before.

a.m.—Specialties were the chief features at the strong opening of today's \$fock market, although the whole list reflected the further favorable war news. Tobacco issues, notably United Cigars and Sumatra, rose 1 to 2½ points. Industrials of the war class were less active, but equipments, shippings and olismade irregular gains. Brooklyn Transit was the only heavy stock, losing 2½ points. Rails lagged, except Reading and the secondary coalers. Liberty bonds were steady.

Noon.—Early promise of a general advance was not fulfilled, trading becoming very dull and prices somewhat higher before midday. General Motors reached 4 points, and Royal Dutch Oil dropped another 6 points for a total of 16 since Tuesday. Brooklyn Transit extended its decline to 4 points, and other utilities were under pressure, presumably because of the attitude taken by the war finance corporation.
