### NO CHEAP HOUSES IN NEAR FUTURE

Price of Lumber Will Not Be Lower for Some Years.

The outlook for building cheap houses in the near future is not very bright, if A. J. Clark of the Canadian Lumbermen's Association is correct in his estimates. In addressing the Electric Club yesterday Mr. Clark stated that for at least two years to come there would be no reduction in the price of lumber. To even meet the housing conditions of the continent it is now necessary to crowd production to the limit, declared Mr. Clark, and when that is done the cost of producing lumber must increase temporarily at least.

In explaining the great demand for lumber, Mr. Clark stated that one factory in the United States who makes gramophones consume a million feet of lumber annually. Then again much more wood is being used today in the manufacture of paper than formerly.

Production Decreased.  
"The excess profits, tax means," said Mr. Clark, "that production is decreased. No man will increase his capital when over half the investment is for standing timber, which may be reduced at any time. The limitation of our profits to 7 per cent. means inevitably that lumber costs will go up, and I say that the government itself is keeping up the cost of lumber by this cursed tax."

Mr. Clark pointed out the high cost of obtaining lumber from the forests as the average camp is about 40 miles from a railway line, thus making the cost of supplies very great. In most cases the lumber is not marketed for two years after the expense of bringing it out is incurred.

Since the war the cost of a sawmill has increased from 600 to 900 per cent., he stated.

**W. B. BRUMELL'S ESTATE.**  
Probate of the \$99,209 estate of the deceased Walter Blackett Brumell, of the Boyd-Brumell Co., has been granted to W. G. Thurston, K.C., and the Toronto General Trusts Corporation. The widow, Kate Brumell, gets the dwelling on Russell Hill road, property in Oakville, household furniture, and personal effects. She also gets a life interest in the estate, subject to an income of \$400 per annum to deceased's mother. The children inherit equally on the widow's death.

### SEEKS IDENTITY OF PULP CONCERN

Hartley Dewart Makes Company Subject of Inquiry in House.

Identity of the Great Lakes Pulp and Paper Co., with the owners of the Pic River and Black Sturgeon River timber limits that have been so often the subject of inquiry in the legislature is indicated in the motion which H. H. Dewart, leader of the opposition, will make on Tuesday next. On Wednesday Sir Adam Beck had an interview with Premier Drury and other cabinet ministers, as a result of which it was announced that settlement of all matters in dispute between the Great Lakes Pulp and Paper Co. and the government had practically been reached.

**Gives Notice of Motion.**  
Mr. Dewart's motion reads: "That this house disapproves of the agreements entered into between the government of the province of Ontario and J. J. Carrick, dated the 9th day of May, 1917, and the 8th day of May, 1918, relative to the sale of the Pic River and Black Sturgeon River timber limits in the district of Thunder Bay, subsequently assigned and now appearing to be held by the Great Lakes Pulp and Paper Co."

The Hydro-Electric power now being developed, by any of those to whom the limits were sold or assigned or are now held, this house is of opinion that, subject to compensation and repayment of all sums received by the government under the agreements, the title of the Great Lakes Pulp and Paper Co. and all other parties, to the Pic River and Black Sturgeon River limits should forthwith be canceled and the limits immediately advertised for sale on the express condition that development must commence immediately and that Hydro-Electric power be used."

H. H. Dewart will further ask: "What payments have been made and upon what dates by any party, upon the Pic River and Black Sturgeon River timber limits under the agreement, dated the 9th day of May, 1917?"

### "THE END OF ROAD" POWERFUL PICTURE

Shows What Social Service and Popular Appeal Can Do.

The uplift film is sometimes discounted because it is so much more uplift than film. Propaganda sometimes fails to put itself over because it tries to jump too far out of the screen.

"The End of the Road," which will be shown for five days in Massey Hall, beginning next Saturday, is a faultless example of what may be done by combination of social science which is social morality and popular appeal. Only an incurable brute could see it without deep appreciation of its object and its high utility. Only a silly fool, misplaced in man's or woman's holy estate, could fear to speak of it in terms of warm acknowledgment.

thru the grimmer episodes there are touches of comedy as well as a restrained and sustained love interest which the press agents would call gripping. And the final scenes are from the war, and as good as anything that has come that way. The nurse is splendidly done by Claire Adams, a Toronto girl, and Richard Bennett, as the doctor, plays his part with effective restraint.

It is a film to see and a cause to support—the work of the Canadian National Council for Combating Venereal Diseases.

**CONVICTION QUASHED.**  
"Having regard to the unfairness of the whole proceedings, the conviction must be quashed, with costs to be paid by the magistrate," said Justice Maestri yesterday, in disposing of the appeal by Sam Hogan against a conviction for B.O.T.A. registered by Justices of the Peace Hunter and Rutten of Kingston. Immunity from an action for damages was granted the justices.

**\$10,000 VERDICT UPHELD**  
The appellate division, yesterday, dismissed the appeal of the Toronto & York Radial against the judgment by which George M. Fell was awarded damages for \$10,000 for the loss of a leg in a collision while he was a passenger in one of the radial cars which collided with a motor truck last summer.

The husband's estate is valued at \$14,853. His property passes to his niece, Agnes G. Saunders, subject to the payment of three legacies of \$500 each.
