Persons Killed by Storm Northwest Louisiana.

Shreveport, La., May 15 .- Thirty dead and two hundred injured is a conservative estimate of the fatalities caused by the tornado which swept through Northwest Louisiana, Wednesday evening, destroying three small towns and leaving wrecked homes and ruined crops in a path a mile wide and fifty miles long. The dead at Gilliam which had about two hundred inhabitants, number 13, while at Bolinger the known dead list is six. These two towns are about fifteen miles apart, and nothing has been learned of the work of the storm in the country between them. At Elmore, a small town near Gillam, several houses were destroyed, and it is not known how many people perished. Several of the dead were brought to Shreveport on the relief train from Gilliam this morning, and

He had told Moir of the ammunition. It was not unusual for Moir to get witness revolver at nights. He had awakened witness before and asked for the revolver. Witness had thought it unusual at first, but had got used to it. Moir used to get the revolver quite

Morris, in cross-examination stated that he had been in his room studying, when he heard a revolved shot, and, together with Color-Sergt Lloyd, went to Moir's room. Lloyd went in first and witness stood in the doorway for a moment. He was not more than three feet in the room, unti after the shooting. Witness ordered Moir to "put down that gun," and told Lloyd to go and take it away from him. Lloyd stepped forward to do so and Moir said, "Hands up, or I'll shoot," and fired. Moir had turned the gun on witness, who ran to arouse

the guard as quickly as possible. The case was adjourned until Mon day, by which time Court Stenographer Coo will have the notes transcribed and after which Moir will be commit ted for trial. Crown Attorney Mc Killop stated to The Advertiser yes-
