

DR. THOMAS'

COME ONE COME ALL

And enjoy the Benefits of Dr. Thomas' Electric Oil.

Its Curative Properties Marvellous.

The search after, and the discovery of, healing agents, and the art of combining these agents when discovered so as to produce a remedy that will cure one or many of the numerous diseases, to which man is subject, is now more than ever, regarded as one of God's precious gifts to man. Around us on every hand, secreted away in Nature's vast store house: in the flowers of the fields, in the seemingly worthless weed at the roadside, and in the minerals deep down in old Mother Earth's bosom, are medicines to be had for the seeking, but few there be possessed of sufficient knowledge and experience to draw them forth from their environment and make them subservient to man's use.

One of the greatest discoveries, during the present century, in the realm of medicine, has been **Dr. Thomas' Electric Oil**, a curative agent whose conquests over disease and death have gained for it a name above all other medicines.

In cases of Rheumatism, Lumbago, Lamé Back, Neuralgia, Diphtheria, Coughs and Colds, Sore Throat, Croup, Piles, Frost-bites, Burns, Asthma, Catarrh, Chilblains, Corns, Toothache, Earache and Headache, Bruises, Wounds, and Sprains of every description, whether on man or beast, **Dr. Thomas' Electric Oil** has produced marvellous results. This medicine can be used with equal success inwardly and outwardly, and it has been so used for many years, so that there remains not a shadow of doubt about its efficacy. It is a great satisfaction for suffering humanity to know that there is a remedy which they can resort to with confidence when disease

attacks them, or an accident happens to them. That **Dr. Thomas' Electric Oil** will do all that is claimed for it, is amply attested by the thousands whom it has cured; but were further testimony required, it can be found in the evidence which medical men have voluntarily borne as to the wonderful cures it has effected among their patients when ordinary medicines, and the usual treatment, have failed to give relief. Medical men, as a rule, are prejudiced against proprietary medicines, but they have been compelled to acknowledge the claims of **Dr. Thomas' Electric Oil**.

This medicine is free from alcohol, which is a strong point in its favor; it is composed of six essential oils, blended in certain fixed proportions, the united action of which is to bring about the remarkable cures of which evidence is furnished in abundance by a grateful public.

If You Have SCIATICA READ THE FOLLOWING:

Mr. WM. HOCKLY, Uxbridge, writes:—I have long desired to tell you of an experience I had with Sciatica which almost laid me low. The best medi-

cal treatment I could get in this vicinity I had, but the disease progressed steadily in spite of all until the pain was unendurable and my friends despaired of my life. In this extremity what seemed accidental, but was certainly providential, I observed a bottle of **Dr. Thomas' Electric Oil** on a shelf, and reckless of consequences, I insisted upon taking of it all the law allowed, and having it rubbed on the seat of the pain. To my grateful surprise the relief was so immediate and effectual, that in three days I was out in the harvest field, completely cured. I send you this from a sense of duty and for the good of other sufferers.
