SHUT IN A VAULT.

Theatrical interest centres deeply in the forthcoming engagement of "Alias Jimmy Valentine," at the Grand, for it comes here for the first time—one of the surest hits in a decade. In this remarkable play, which has been running two years in New York, the leading character is a professional safe-breaker, who has trained his fingers to such a degree of sensitiveness that he can detect the fall of the levers in a safe or vault by his sense of touch, thus being able to open it regardless of his ignorance of the combination. The first act finds this trained criminal in Sing-Sing Prison, where a fortunate train of circumstances wins for him the gubernatorial pardon, and also puts him on the straight road to reform. Thru the kindness of influential friends whom he has been able to benefit, this former bank-looter is given a responsible position in a National Bank. There by honest and efficient service, he soon works his way near the top of the ladder when a child, having accidentally been shut in a new vault, the combination of which has not yet been determined, he is forced to choose between a life and his secret. The play is founded on a short story by the late O. Henry, called "A Retrieved Reformation." It is written in the straightforward manner of all Paul Armstrong's plays, and in the most successful manner that prolific author ever wrote, which, considering that the "Hair to the Hourglass" and "Salomy Ledge" and the "Deep Purple" came from his pen, is a statement to which much weight is to be attached.
