The boy scouts of St. John's church went up river on Saturday for a week-end camping trip. They will return this afternoon.

Though little four-year-old Geraldine Steele, daughter of Mr. and Mrs. John Steele, 84 Harrison street, fell from a third story window to the street yesterday morning, it was believed last night

that she had escaped without serious injury. Dr. D. P. Mahoney, who attended, visited the tot frequently during the day. No bones were broken and the physician felt that any internal injuries would have asserted themselves before evening.

James Toney, aged thirty-five, and Lena Roberts, aged seventeen, both of Kentville, N.S., were arrested here yesterday at the request of the Nova Scotia police. It is said that the man is married.

In an address on courtship in the Coburg street Christian church last evening, Rev. S. B. Culp advised early marriages, saying that bachelorhood is a disgrace and spinsterhood a calamity.

GOOD YEAR Service Station

Saving Worry and Money Through Service

There are many motorists buying Goodyear Tires to-day who base their preference on the assured comfort, appearance, or security these tires lend.

They are the epicures among tire buyers. Their standards are exacting. In Goodyear merits their demands are amply answered.

There is another class of Goodyear users. This class is overwhelmingly in the majority.

Men in this class bring their business instinct into tire purchasing. They measure tire virtues by a far more exacting standard—the capacity for delivering long, loyal, economical service.

It is because these men obtain their due in Goodyear Tires, that they regularly prefer them as their equipment.

For the construction of these tires is a summary of all our tire-building knowledge—the full embodiment of our laborious experience.

In the course of that long experience Goodyear engineers developed the tire-making machine, the No-Hook bead, the All-Weather-tread, the Braided Piano-Wire base, and other quality-giving Goodyear features.

These tires have out-grown experiment. Their goodness is in-built, exact, definite. Their qualities ensure that long, loyal, economical service that the bulk of business-minded motorists demand.

Yes—every Goodyear Tire that reaches the hands of a customer has had the benefit of Goodyear improvements. Its quality is further made sure by a rigid system of inspection. This inspection touches every process of tire-making from the gathering of the raw rubber to the delivery of the finished tires to the shipping room.

In Canada more than 1000 business men, realizing the reliable and economical service yielded by Goodyear Tires, have so organized themselves that they can support and extend this service.

They work beneath the emblem shown above. Their set aim is to make your tire bills smaller, to build their business on your friendship, to win your friendship by deserving it.

Their service embraces many tasks. It is yielded courteously and willingly. It involves doing many things that would take the pleasure out of your motoring if you had them to do yourself. It is a service that saves you worry and money.

You should take advantage of the Goodyear Service Station Dealer's work. It helps you realize what you and every other motorist desires—tire service that is long, reliable and economical.

Go to the Goodyear Service Station Dealer near you. Ask him to describe his work. He will be glad to tell you the many tasks he performs. He will be pleased to demonstrate to you that his service is money-saving, efficient, courteous, complete—that his service is service such as you have been seeking.
