

WELL, HE WILL NOT RUN FOR GOVERNOR

W. Allen White Takes Unique
Method in Announcement

HE WRITES HIMSELF UP

Kansas Newspaper Owner Gives
Himself a Humorous Raking
Over and Knocks His Own
Candidacy Sky High

The European Gazette, owned by
William Allen White, has the following
on the suggestion that Mr. White be-
come Progressive candidate for govern-
ment—

"A number of Progressives at Lakin,
more kind than considerate, yesterday
resolved in favor of this man White of
Emporia for governor. They wanted
him to run as a Progressive candidate.
To which the Gazette says no—a
thousand times no. For we are on to
that man White, and without wishing to
speak disrespectfully of a fellow town-
man, who, so far as we know, may be
at least outwardly decent in the simpler
relations of life—perhaps he pays his
debts when it is convenient, and he may
be kind to his family, though that's not
to his credit, for who wouldn't be?—
and he may have kept out of jail one
way or another for some time without
as we say, desiring to speak disrespect-
fully of this man, we know that he is
not the man either to run for governor
or, if such a grotesque thing could be
imagined, to serve as governor.

His Ideas are Dangerous

"He can't make a speech. He has a
lot of radical convictions which he some-
times comes into the Gazette office and
exploits, and these are dangerous. He has
been lawing politicians for twenty years
until he is a common scold, and he has
set up his so-called ideals so high that
the Angel Gabriel himself couldn't give
the performance that this man White
would have to advertise on the bills.

"So, in the words of the poet, nix on
William Allen. The Gazette's nose is
hard and cold on the proposition to
make him governor. He is a four-flush-
er, a ring-tailed, rip-snorting hell raiser,
and a grand-stander. He makes a big
noise. He yips and howls around a
good deal, but he is everlastingly and
pre-eminently N. G. as gubernatorial
timber—full of knots, warts, wood-peck-
er holes, and rotten spots.

"He would have the enmity of more
men who have walked the plank politi-
cally than any other man in Kansas, and
his candidacy would issue an irrevocable
charter in Kansas for the Progressive
party to be the official minority report,
without a word.

"Men and women would be trampled
to death at seven o'clock election morn-
ing trying to get at the polls to cast the
first vote against him, and at trade off,
freely good citizens, kind fathers, and
indulgent husbands would risk a jail sen-
tence to get in at least ten votes against
him as repeaters. It may be that the
Progressive party needs a goat, but the
demand doesn't require a Billy goat.

Has the Political Pinkney

"Now is the time for all good men to
come to the aid of the party.

"But this man White, a shoulder-
galled, sore-backed, hamstringing, wind-
broken, string-halted, stump-sucking old
stager, who, in addition to being no
good for draught and general purpose
has the political hots, blind-stargers,
heaves, pinkies and episodic. Moreover,
he is loosed and has other defects. Peo-
ple in the state may be fooled by the
doped gait and fancy steps of this man
White. But we know him.

"And if he is a candidate for gov-
ernor or any other office, we propose
to tell the truth about him—how he
robbed the county with a padded print-
ing bill, how he offered to trade off his
support to a congressman for a govern-
ment building, how he has blackmailed
good citizens, and has run a bulwarking
disreputable newspaper in this town for
twenty years, and has grafted off busi-
ness men, and sold fake mining stock,
and advocated anarchy and assassina-
tion.

"These are but a few preliminary
things that occur to us as the moment
passes. But if his fool friends insist on
playing up this self-advertising game
for him any longer, we propose to aban-
don twenty years of guarded innuendo
and prattling subterfuge, and come out
with the real facts. We shall speak plain-
ly hereafter.

"A word to the wise should gather no
moss!"

The members of German street Y. M. A.
met at the home of Mr. and Mrs.
Donaldson Hunt, 29 Mecklenburg street,
last evening when a debate took place
on: Resolved, That the West Presents
More Opportunities to a Young Man
Without Capital Than the East. The
negative side won. The debaters for the
east were Frank Lewis, leader; Gordon
Smith, Lester Smith and Sidney Simms;
and for the west, Rutherford Simms,
leader; Philip Simms, Everett Hunt and
H. J. Machum. The young people had
an enjoyable evening.

THE SKIN TROUBLES OF CHILDHOOD

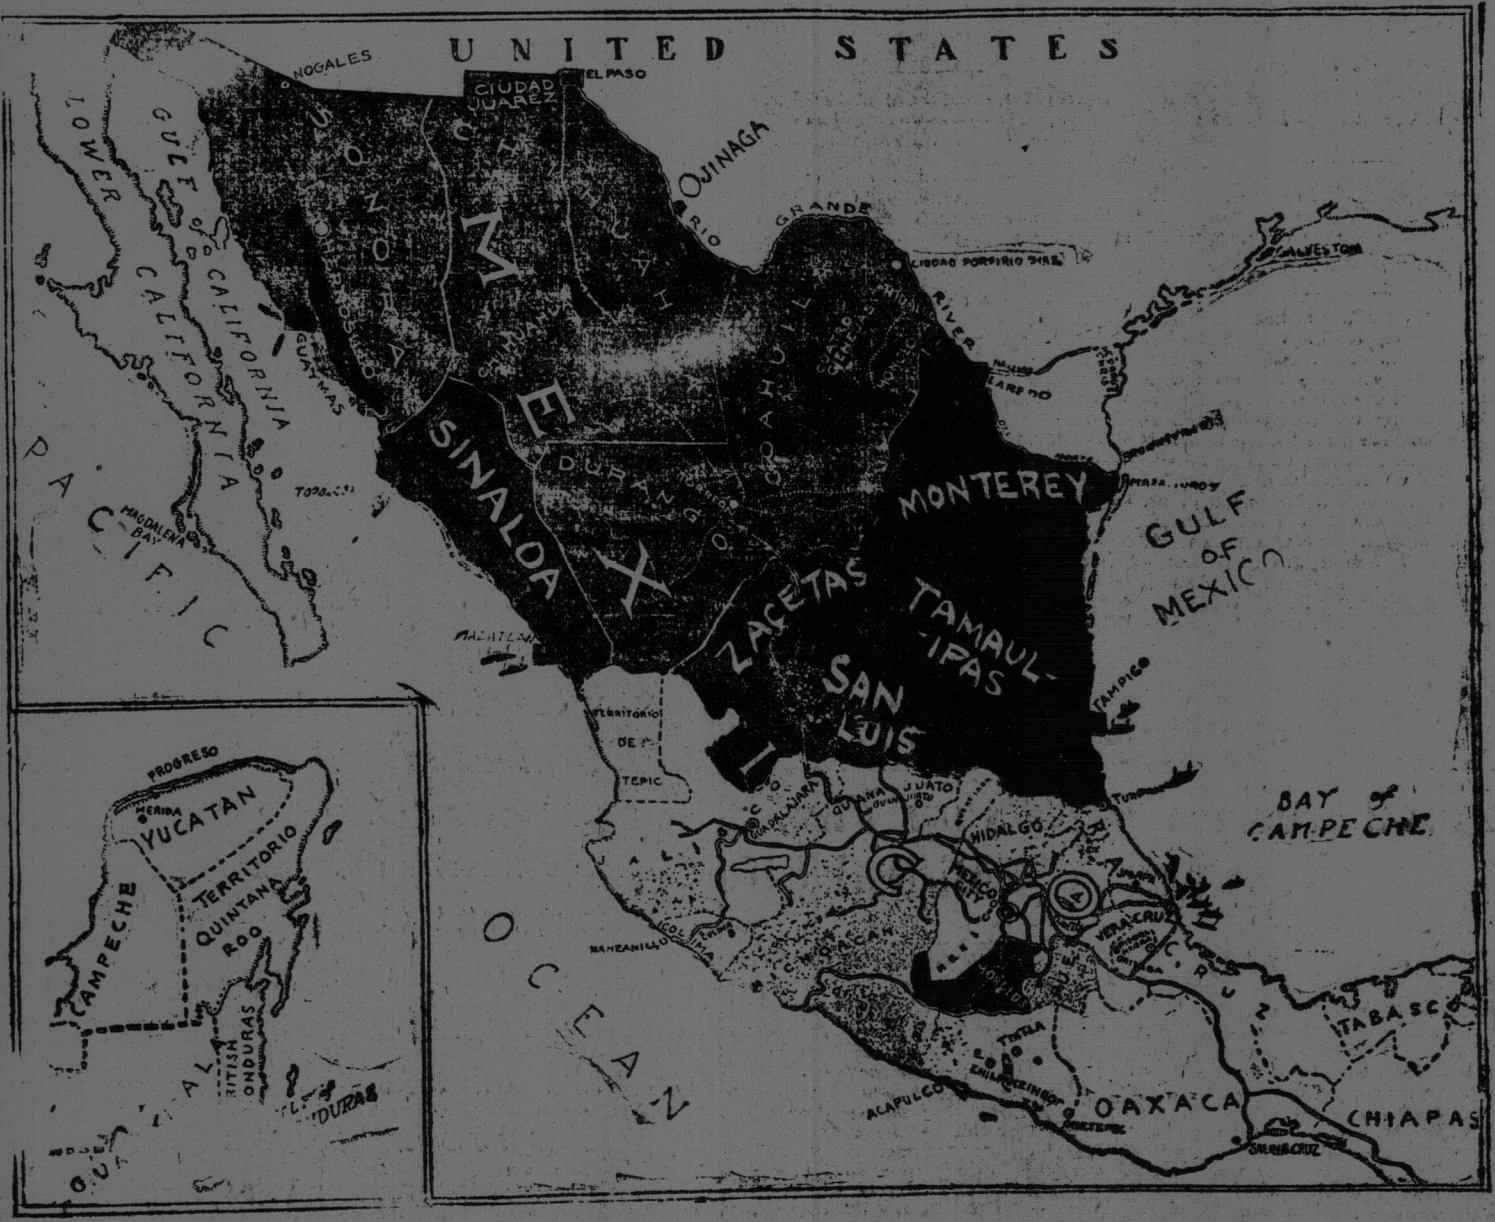

School Records Show Much Time Lost
From Eczema.

Chafing and skin irritation, whether
from changing temperature, rough
winds, strong soap or the action of the
clothing, naturally develop into eczema,
spread over the body and defy ordinary
treatments.

Most doctors do not give much atten-
tion to skin diseases, and, consequently,
it is necessary for parents to select some
treatment which has proven a cure for
such ailments. If records of cure turn
for anything, then you can turn to Dr.
Chase's Ointment with fullest assurance
that in this you will have the means of
controlling itching skin diseases.

By affording prompt relief from the
terrible itching, Dr. Chase's Ointment
puts an end to suffering, and removes
the cause of scratching. As the itches
die away the ointment sets up the
process of healing, and brings about
thorough and lasting cure. As a
treatment for the skin troubles of chil-
dren nothing has ever proven so satis-
factory as Dr. Chase's Ointment.

"SYRUP OF FIGS" FOR CONSTIPATED CHILD

Delicious "Fruit Laxative" Can't
Harm Stomach, Liver and
Bowels

Every mother realizes, after giving her
children "California Syrup of Figs," that
this is their ideal laxative, because they
love its pleasant taste and it thoroughly
cleanses the tender little stomach, liver
and bowels without gripping.

When cross, irritable, feverish or
breast is bad, stomach sour, look at the
tongue, mother! If coated, give a tea-
spoonful of this harmless "Fruit Laxa-
tive," and in a few hours all the foul,
constipated waste, sour bile and undig-
ested food passes out of the bowels, and
you have a well, playful child again.
When its little system is full of cold,
throat sore, has stomach-ache, diarrhoea,
indigestion, colic—remember, a good
"inside cleaning" should always be the
first treatment given.

Millions of mothers keep "California
Syrup of Figs" handy; they know a tea-
spoonful today saves a sick child to-
morrow. Ask your druggist for a 50-
cent bottle of "California Syrup of Figs,"
which has directions for babies, children
of all ages and grown-ups printed on
the bottle. Beware of counterfeiters sold
here, so don't be fooled. Get the genu-
ine, made by "California Fig Syrup Com-
pany."

DIED IN VANCOUVER; WERE FROM MARITIME PROVINCES

Chief of Police Mulhern a Woodstock
Man; C. D. Rand a Native of Can-
ning

(Woodstock Press.)
Vancouver, Jan. 8.—Vancouver's two
most prominent citizens in their respec-
tive walks of life passed away yesterday
and early this morning in the person of
Chief Mulhern of the Vancouver police
department, and C. D. Rand, first presi-
dent of the Vancouver Stock Exchange.
The former was a native of Woodstock,
N. B., and the latter of Canning, N. S.
They were both pioneers of this city.

Chief Mulhern probably had more to
do with the moral construction of Van-
couver than any other official in it and
to him is due the credit of making the
local police department second to none
in the dominion. Born in Woodstock 48
years ago, he worked as a woodsman in
his native province for some years be-
fore coming west. After working on C.
P. R. construction in British Columbia
in the early eighties, he went back to
the woods again, and at length joined
the Vancouver Police Department on
October 13, 1894, as a patrolman. The
force then numbered sixteen men.

As a detective, to which rank he was
shortly afterwards promoted, he intro-
duced the finger print system in Van-
couver and subsequently established an
identification bureau among the best on
the continent. In 1906 as inspector of
detectives the whole management of the
department was entrusted to him and
two years later he was appointed in-
spector of police with further supervi-
sion over the patrolmen. In 1910 he was
appointed deputy chief of police, having
virtual control of the entire police de-
partment and exactly a year ago, he
was the first choice of the police com-
missioners as head of a department
which has now 250 men in it.

In 1899 he entertained Chief Clark
of the St. John department when that
official was president of the Chief Com-
missaries' Association of Canada and last
July he went east to Halifax where his
advice was sought by the heads of the
Winnipeg, Montreal and Toronto depart-
ments as a man who had visited Europe
and studied the methods of world de-
partments in his efforts to increase the
efficiency of the Vancouver constabulary.

Under his administration three sub-
stations have been opened in residential
districts of the city, an independent
electric alarm system installed connect-
ing every half a block in the city with the
central office, half a dozen patrol wagons,
ambulances, and other automobile
equipment acquired to increase the rapid-
ity with which officials might reach
the scene of an accident or a crime and
several women policemen added to the

Pendulum Again Swings To Canada

London Reports Indications That End of Investment
Slump is in Sight

(Times Special Correspondence.)
London, Jan. 12.—A close perusal of all
the complaints as to Canada's financial
conditions and the hundred and one
cures advocated leads to the conclusion
that what Canada is chiefly suffering
from, on this side, is an unhealthy var-
iety of criticism.

Just as twelve months ago financial
writers as a matter of course wrote of
Canadian conditions with optimism, so
up-to-recently it was the custom to con-
sider all things from the opposite point
of view. If some of the statements con-
cerning Canada which have appeared
recently are to be believed, the country
has suffered a severe set back. But,
fortunately, saner counsels prevail. As a
notable Canadian-born authority said
the other day in referring to an article
in a London paper headed "Frenzied
Finance in Canada":

"I do not think that such an article,
notwithstanding its heading attracts
much notice among people who are of
any use to Canada as investors. It is only
when statements are made by men
whose financial sagacity is unquestioned

force. Every man in the force has now
to pass strict physical tests so that there
is not a policeman in Vancouver under
five feet ten inches tall and of a pro-
portionate chest measurement. Over
forty of the officers are native of New
Brunswick and P. E. I. and over fifty
of the maritime provinces.

The deceased chief is survived by a
wife and one son, Edward. He was in
the department longer than any of its
present officials and worthy of the ad-
ministration of it is given as one of the
causes of his death.

BRAVE AT SEA

London, Jan. 18.

Mr. I see it announced that Congress-
man Dale will introduce a bill in Wash-
ington commending the brave deed of
the officers of the "Gregory" they the
Carnegie hero fund will make recognition
of their heroism, and that the offi-
cers have been entertained at a ban-
quet at the New York Press Club and
presented with gold medals.

This case of a gallant rescue on the
high sea by British officers at injury
risk to their own lives is parallel to that
of the S. S. "Augustine" belonging, as it
booths, to the same company, the
South Steamship Company. The officers

Eat and Get Thin

This is turning an old phrase face
about but modern methods of reducing
fat have made this a revision possible.
If you are overweight and also suffer
from physical exertion and likewise find
it difficult to eat and want to reduce your
excess flesh several pounds, do this: Go
to your druggist for the Marmola
Compound in accordance with the fa-
mous Marmola Prescription, one of
which you must take after each meal
and at bedtime until you begin to lose
your fat at the rate of 12 to 16 ounces
a day. That is all. Just go on eating
what you like, leave exercising to the
athletes, but take your little tablet faith-
fully and without a doubt that faty
flesh will quickly take unto itself wings,
leaving behind it your natural self,
dressed in firm flesh and trim

SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't Stay Gray! It Darkens So
Naturally That Nobody Can
Tell

You can turn gray, faded hair beauti-
fully dark and lustrous almost over-
night if you'll get a 50 cent bottle of
Sage Tea. This is a natural hair reme-
dy" at any drug store. Millions of bot-
tles of this old, famous Sage Tea Recipe
are sold annually, says a well-known
druggist here, because it darkens the
hair so naturally and evenly that no one
can tell it has been applied.

Those whose hair is turning gray, be-
coming faded, dry, scraggly and thin,
have a surprise awaiting them, because
after one or two applications the gray
hair vanishes and your locks become
luxuriantly dark and beautiful—all dan-
dify drops, scalp itching and falling hair
stop.

This is the age of youth. Gray-haired,
unattractive folks aren't wanted around,
so get busy with Weyth's Sage and Sul-
phur tonight and you'll be delighted
with your dark, handsome hair and your
youthful appearance within a few days.

MILLION AND A HALF FOR SANITARY WORK IN MANCHESTER, ENG.

Manchester, like most other cities, was
originally drained by various conduits
into rivers and streams. In 1886 a scheme
for the interception of these sewers and
the conveyance of the sewage to outfall
works at Davyhulme, five miles to the
southwest of the city, was prepared by
John Allison, at that time surveyor of
the city. The area of Manchester then
was 5,604 acres. The city has been ex-
tended from time to time until the pres-
ent area has reached 21,888 acres. The
sewers provided in 1886 have (as al-
ready reported) become totally inade-
quate, and a comprehensive scheme was
prepared by the present City Surveyor
Mr. de Courcy Maudslayi, M. Inst. C. E.,
and was submitted to and approved by
parliament in 1911. This scheme pro-
vides for the drainage of the city and
adjoining districts, and is of sufficient
capacity to meet the estimated require-
ments for 80 years hence.

Many miles of work are in progress,
and the value of contracts let and of the
work which is being carried out by the
corporation staff amounts to more than
£2,000,000. The estimated cost of the whole
scheme is about £1,800,000. The total
area included in the scheme is 39,100
acres, and owing to the special design of
the works they will be capable of serving
a still greater area in the future should
further extensions become necessary.

Lectured on Arctic.
A large and interested audience heard
Rev. W. H. Barracough, pastor of Cen-
tenary church, in his lecture, At the
Edge of the Arctic Circle, last night in
the Sunday school room of Ludlow
street Baptist church, West St. John.
The lecture was conducted under the
auspices of the Sunday school and the
Young People's Society. Rev. W. R.
Robinson presided at the meeting. At
the conclusion of the address, which
created a strong impression, Mr. Bar-
racough was tendered a hearty vote of
thanks, moved by Rev. Dr. Crowell and
seconded by J. F. Ring.

No doubt the medals are still in the
hands of the Board of Trade. This case
of the "Gregory," and others, prove to
us that, no matter what official discour-
agement the captains and officers of the
mercantile marine may have to face,
it will not deter them from doing deeds
of conspicuous bravery at sea of which
we have had so many instances of late.

I merely mention these two cases feel-
ing sure that under the new regime and
with more sympathetic disposition to-
wards our seafarers on the part of the
Board of Trade such a regrettable case
as that of the "Augustine" will not oc-
cur again.

Your faithfully,
T. W. MOORE,
Secretary.
