4/5 of this Dirt was IN the Rug not ON it!

NEARLY all of the dirt in your rugs is deeply embedded. It is dirt that you cannot see. Only powerful suction can remove it. The Torrington has powerful suction, because the motor power is not used to drive the brush.

The big bristle brush revolves freely just like a carpet sweeper. It takes up all the threads, lint and surface litter and gently combs out the nap of the rug.

Big Brush—Powerful suction. This is the secret of perfect cleaning.

DEMAND FIRST BEFORE SERVICE STATION SANCTIONS

Com. Harding's Ruling Protested by Applicant—Garage Question Arises.

A statement was made by Commissioner Harding at a City Hall meeting today that he would not recommend any more permits for service stations unless the applicant could bring evidence strong enough to convince the council that there was a demand by the public for one in the section proposed. He also said that persons who had applied for permits to erect buildings for other purposes were using them for garages and thus creating a fire hazard.

A strong protest against the attitude of Commissioner Harding on the service station matter was voiced by W. E. A. Lawton. The award of the appraisers on the Simmons, Ltd., building was read, but no action was taken. On motion of Commissioner Bullock, it was decided to sell lot No. 21, Mill street, to Mrs. Mary O'Brien for \$800, as the present lessee was willing to surrender his lease. The commissioner remarked that he would like to sell all the lands owned by the city in Lancaster, as the rentals did not net enough to pay the taxes.

Commissioner Frink interjected, "Why not make a plain statement, then, that you want to sell because you are being taxed out of business?" Commissioner Bullock said he would not like to say that, although the taxes were going up all the time. On motion of Commissioner Harding, an agreement with the C. N. R. giving the city the right to carry a fire alarm wire across the bridge at the foot of Dorchester street was ordered executed, provided the city solicitor approved. Garages.

Commissioner Harding said that a recent fire in City road had brought out the fact that a building erected under a permit to build a carriage house, obtained by Mrs. Donovan, had been used for a garage. The chief of the fire department had reported to him that many buildings of this kind were being used as garages and adding greatly to the fire hazard. The commissioner said he had given instructions to investigate this matter and report all cases to himself.

Mayor Potts congratulated the Commissioner of Safety on the safety zones which he had marked out, and suggested that another be added on Market Square for the benefit of citizens waiting for street cars. An application by C. B. Allan for permission to erect a building over the entrance to the Tourist Association office was referred to the Commissioner of Public Works, with power to act.

Service Station
Mayor Potts asked if the Commissioner of Safety had any report on the application for a service station in Douglas avenue and the commissioner replied that he would report at the meeting tomorrow, but for the benefit of Mr. Lawton, who was present, he would say that he would not recommend the granting of any further permits for tanks and pumps until he was satisfied there was a demand from the public for more service stations in the matter of service stations and their location.

Mr. Lawton said he could not understand this attitude. This was a legitimate business, he said, and it was the province of the city council to say how many should go into the business. He would like to have an answer soon to his application and not be kept waiting for three weeks as he had been. The application made for the German street site was a good one and one which would reduce the hazards of driving in Douglas avenue as the cars going west could use one station and those going east the other.

Mayor Potts said the council would deal with the application tomorrow and Mr. Lawton would get a quick answer if he wanted one. The award of the appraisers on the value of the buildings on the lots leased by the Simmons Ltd., settling the value at \$7,119 was read. This was signed by Edward Bates and D. L. McRoberts. The third valuator, F. W. Ward, who represented the company, did not sign the award.

Commissioner Bullock said the property was assessed at \$7,000 this year and he did not think the property was worth this much. Commissioner Wigmore said these lots were leased at low rate because the firms were to manufacture goods here and, he said, they had violated the contract. It looked like good business to him to have a lease of this kind drawn up so that if manufacturing ceased they lost the lease.

Mayor Potts suggested that the lease be renewed and an effort be made to have the covenants of the lease carried out. No action was taken.

FATHER'S DAY IDEA TAKES HERE

Merchants Report a Ready Response in Honor of Head of Family.

Sunday, June 15, was set aside as Father's Day and although not entirely new in its origin it was somewhat new to the citizens of St. John. From all reports of the local retail clothing stores who participated in a selling campaign preceding this day it gained enough prominence to become a yearly feature in this city. The retail merchants held a meeting and decided to impress upon the public the theme of Father's Day and co-operatively secured a full page advertisement in the Evening Times on Thursday of last week. On Saturday all these interested reported having had a very successful day and there was enthusiasm over such a day next year.

LAWYER SUES IN FOLLOW UP OF LIQUOR CASES

G. H. V. Belyea Gets Judgment Against Carleton and Lampert.

Two suits were brought by G. H. V. Belyea, K. C., in the County Court this morning for the collection of his fees in the matter of habeas corpus proceedings. The first case was against David Carleton, in which Mr. Belyea claimed \$85 as his costs in habeas corpus proceedings brought to free the latter from jail at the time he was charged in the police court with unlawfully having liquor on his premises. The plaintiff agreed to rebate part of this claim which brought the amount below \$80 and M. B. Innes, appearing for the defendant, moved for a non-suit on the ground that the case was therefore within the jurisdiction of the City Court, being below \$80. Judge Barry did not allow this, however, and gave judgment for the plaintiff.

The second case was against Max Lampert. The circumstances are similar to those of the first case but the amount claimed was \$100. Mr. Belyea testified that this was the sum agreed upon between the defendant and himself for his legal work in connection with the proceedings. The defendant testified that he understood this amount was to cover the costs for both Mr. Carleton and himself, each to pay \$50. A. B. Gilbert, appearing for the plaintiff, submitted in evidence the order of Mr. Justice Chandler, which showed that proceedings in the Carleton case had been taken some time before those in the Lampert case and he argued that this was conclusive that no agreement was made by the plaintiff respecting his fees to cover both cases. Judge Barry gave judgment for the plaintiff for the full amount. David Carleton did not appear in person but Max Lampert testified in both cases and Mr. Belyea was the only witness for the plaintiff.

CITY LIGHTING.

The entire street lighting in the city will be done by the Civic Power Commission, beginning tonight, the North End section being the last to be taken over by them.

As Hiram Sees It

"I was ready," said Hiram Hornbeam to The Times reporter, "where a feller turns down a job because the pay wasn't big enough—an' let his wife keep him an' the kids on what she could earn—an' that was a lot less than he could 'ave got if he'd gone to work."

"There are such persons," said the reporter.

"Well, sir," said Hiram, "if I done that, the fust bite I tried to eat that my wife earn'd choke me. Aint they no way critters like that kin be made to go to work?"

"An industrial farm for the province has been suggested," said the reporter.

"Well, sir," said Hiram, "to my way o' thinkin' we can't get it too soon. We hev a critter or two out to The Settlement that orto hev a job in front of 'em an' a cat-o-nine tails behind 'em—an' they couldn't help seel'n the job. The feller that wont do what he kin git to do till he kin git somethin' better—if he hev a wife an' kids—orto hev the screws put onto him good an' hard. He's no good—no, sir."
