

King's Messengers' Foreign Mission Band

REPORT OF 1891.

In presenting our Fifth Annual Report, we feel called upon to acknowledge the Lord's goodness; His hand has led us safely through the year, and we trust that in some small measure He has used us as instruments in His glorious work.

Much of our work has been carried on in the lines of previous years. There are 44 names on the roll. We are sorry to record a decrease here, but we are glad to know that the members who left us are working in another part of the Lord's vineyard.

Twelve meetings have been held with an average attendance of 31, being two better than last year. The interest has increased, if we may judge by the number who take part; every member has done something, however little, to add to the success of the meetings.

The monthly letter leaflet is now subscribed for and read by every family represented in our Band. We have therefore discontinued reading the letters in our meetings, saving a brief synopsis just to stimulate further perusal. It is worthy of note that we had fine weather for every meeting except one during the year. Short and plenty to do is the chief characteristic of our sessions.

The sources of our revenue were as follows: In January last a cent a day circle was started, each member giving a cent a day and an earnest prayer for missions. Twelve of our number took part in this.
