Ayer's Sarsaparilla

haters of The Doctorates, Demerry, Dys-cepta and Indigentor, Havenenas, Rose of St. Angrony's Fise, and indeed the whole class of complaints arising from Industry of

class of compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the load at that sea on of the year. By the time-ly expulsion of them many realting diporters are rapped in the land. Multitudes can by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous series, through which the system will strive to rid itself of correptions, if not asserted to do this through the natural channels of the body by an alterative medicine. Cleanse, out the vitiated blood whenever you find its impurities bursting through the skie in pimples, cruptions, or sores; cleanse it, when you find it is obstructed and slag fish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people crips better health, and live longer for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of his disordered, there can be no lasting health. Somer or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparille has, and deserves much, the reputation, of accompilshing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because much preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparille, or any thing else.

contain but little of the virtue of Sarsaparille, or any thing else.

During late years the public have been missled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most, of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparille, and intend to supply such a remedy as thall rescue the name, from the load of oblequy which rests upon it. And we think we have ground for believing it has virtues which are irresidiale by the ordinary run of the diseases it is intended to crive. In order to securableir complete tradication from the synten, the remedy should be judiciously taken according to directions on the lottle.
