HEALED AT STE. ANNE.

Vermont Man Said to Have Been Cured
at Shrine.

Quebec, July 31—A little, weazened,
decrepit, old beggar made his
way up through the immense crowd
which daily surge around the shrine
of Ste. Anne de Beaupre, in a little
wooden box mounted on two rollers
propelled by two short sticks. The
crowd gave way before the man and
his friends, who were intent on hav-
ing the crippled man touched with the
sacred relics.

In the chapel of Ste. Anne de
Beaupre repose what all true Catho-
lics believe to be parts of the body
of Ste. Anne. Upon being touched
with these relics they believe that
a cure may be effected.

The beggar's weazened face was
made radiant by his strong faith in
the curative properties of the relics.
He pleaded to be taken to the priest
at once.

The old man had not set his foot
to the ground for thirty years. His
shrivelled legs were curled underneath
his body. He lives entirely in his
cane. He had not walked since an
injury to his spine sustained when
two years old.

It was then about 9 o'clock, after a
few hours' wait he was borne up to
the priest who stood calm and digni-
fied before him. The beggar mumbled
a few prayers and said his re-
quary. Then the receptacle containing
the sacred relics were placed near
his shrivelled lips. He kissed the re-
lics and the priest applied them to his
shrivelled limbs.

The story told by his friends is
that he stood up, transferred and
limped out of the chapel, dragging af-
ter him the now useless cane, that
his cure, while not entirely complete,
was marvellous.

He has been a character around
St. Albans, Vt., for a number of
years.

Drink Millions of Germs.
Omaha, Neb., July 31—The last of
the series of typhoid tests have been
applied to Sergt. Fuller and Private
Schmidt and Goodman of Fort Omaha,
and they have been pronounced im-
mune.

In June they were vaccinated with
typhoid serum and developed the dis-
ease in a mild form. Later they were
vaccinated, but the serum did not
take. Ten days ago they underwent
the supreme test, that of drinking
freely of a gallon of stagnant water
into which one million fever germs
had been placed. The men were placed
in the hospital and closely watch-
ed. They should have developed
symptoms within five or six days. As
none has appeared, they are now de-
clared immune.

Orville With Wilbur and Army Lieu-

Flight Over Measured Course Be-
fore Big Gathering of Officers
and President Taft—Forty-Two
Miles an Hour—New Record.

Washington, July 31—Orville
Wright yesterday evening attained
the zenith of hard-earned success.
In a terrific cross-country flight
in the aeroplane built by himself and
his older brother, Wilbur, and ac-
companied by Lieut. Benj. D. Fongler,
an officer of the army signal corps,
he not only surpassed the speed re-
quirements of his contract with the
U. S. Government, but accomplished
the most difficult and daring feat
ever planned for a heavier than air
flying machine.

Incidentally, he broke all speed re-
cords over a measured course.
Wright's speed was more than 42
miles an hour. He made the ten mile
flight in 14 minutes and 42 seconds,
including more than twenty seconds
lost in starting and landing.

RESTORING ORDER

Prospects For Peace in Barce-
lona Are Much Better.

FRANCE BECOMES ANXIOUS

She Is Afraid That Success of Moors
Against Spanish Troops May In-
flame the Entire Mohammedan
Population of Northern Africa—
Slaughter In Barcelona Is
Very Large, Say Reports.

Madrid, July 31—The Govern-
ment's report from Catalonia indicat-
ing that the situation continues to
improve.

Both King Alfonso and Premier
Maura seem satisfied that the worst
is over, that the rebellion in Barce-
lona has been quelled, and that order
will be restored in the remainder
of the province.

Nevertheless, to be on the safe
side, large bodies of troops of all arms
continue to be hurried to the scene.
No figures, not even estimates, of
the loss of property and life in Cata-
lona is vouchsafed by the authorities,
but private despatches leaking out
through the frontier indicate that
there has been a greater slaughter at
Barcelona. Reports continue to filter
in of the destruction of property,
especially churches, monasteries and
convents, against which the fury of
the mob was vented.

The only other regions creating
particular anxiety are the Biscayan
provinces. There is some apprehen-
sion that the followers of Don Jaime,
the pretender, may attempt to raise
the white flag of the Carlists.

Bodies Mutilated.
Melilla, July 31—The Moors have
withdrawn from the outskirts of the
city. It is believed they are concen-
trating for a new effort. They burned
hundreds of their dead whom they
were unable to carry off.

The ground was covered with heaps
of corpses. The bodies had been
stripped of their arms and many of
them mutilated after death.

Moors Forces Augmented.
Ceuta, Morocco, July 31—The na-
tives in the region surrounding this
seaport are preparing to join their
fighting brethren on the heights be-
yond Melilla. A holy war is being
preached from Ceuta to Moulouga,
and the whole country is aflame with
the passions of the Moors.

Warriors are congregated in con-
sidered here to be impracticable.

King Edward Not Acting.
London, July 31—The Associated
Press is officially authorized to state
that there is not a word of truth in
the rumor that King Edward is ask-
ing France and Germany to inter-
vene in Spain, nor in another rumor
to the effect that he has been suggest-
ed that a mixed force of French, British
and German troops should be sent
to Morocco.

Christians vs. Moors.
Paris, July 31—The news of the
terrible deed inflicted on the Moors
by forces by Moors at Melilla and
the confirmation of the extent of the
murder in Spain causes appren-
sion here. The cruelties of the
Moors in the Rif country perhaps will
inflammable in Algeria and the Sudan.

Some of the Paris newspapers there-
fore boldly suggest that in the inter-
est of Europe should come to the
rescue.

The Eclair says it is impossible for
Europe to bow before the insolence
of the triumphant Moors and that
Christian civilization cannot afford to
allow Spain to be beaten.

Horrigan Is Safe.
Port Arthur, July 31—George Horri-
gan is back in the city safe and
sound. He was held in a cage for
several days, but was released at 11
o'clock, after having been in the woods
with hundreds seeking him. He
hunted the tiger Picket from the
city of Port Arthur. The tiger
brought him here at 2 yesterday after-
noon.

Horrigan was in fine condition and
states his captivities forenoon at 11
o'clock. He admits he was lost so far
as the creek he was fishing in was
concerned, but knew the general di-
rection and found his way to the
shores of Lake Superior, where he
spent some days eating berries and
waiting to signal boats.

Found Dead In Chair.
Brantford, July 31—H. H. Thomp-
son, aged 47 years, accountant at the
local branch of the Bank of British
North America, was found dead at his
home on Clarence street yesterday
morning. He returned to the city
Thursday night from Port Dover,
where his wife and family are spend-
ing the summer. Evidently he had a
hemorrhage. Neighbors found the
dead body yesterday morning seated
in his chair.

Struck by Lightning.
Galt, July 31—During the severe
electric storm Thursday night light-
ning struck a Wellington street house
occupied by William Wilford and had
completely wrecked it. The 10 o'clock
car on the G. P. & H. was hit and the
motor burned out. Motorman Hemata
had a narrow escape. At A. Detroit
his farm, Hesper road, a bolt set
fire to a huge stock of wheat, which
was completely burned up.

Defence Delegates Dined.
London, July 31—Government en-
treated the delegates to the Imperial
Defence Conference to dinner at the
Foreign Office last night. Premier
Asquith presiding with Premier Ward
of New Zealand on his right and Sir
Frederick Borden on his left, a dis-
tinguished company were present.
Subsequently there was a reception
for which there were 2,000 invitations.

To Send Grain by West.
Winnipeg, July 31—The establish-
ment of a grain-sucking plant at Van-
couver by the C.P.R. has not yet
been decided upon, but the question
is under discussion in railway circles.

grants to Horticulturists.

Ottawa, July 31—The executive of
the Ottawa Horticultural Society is
communicating with other societies in
the province with a view to ascertain-
ing their sentiment towards the res-
toration of the provincial grants to a
maximum \$800 per annum to any sin-
gle organization. If it is found that
the sentiment of other societies is
against the restricting legislation pre-
sented will be made to the Pro-
vincial Government.

While the Ottawa Society is the
only one in the province that will
lose by the new restriction, it is
thought that the other bodies of hor-
ticultural workers are also opposed
to the measure, which was passed at
the last session of the legislature.

Gas Company Loses Case.

The judicial committee of the Privy

burned in an explosion of natural

taken against the Dominion Natural
Gas Co. and the railway company,
and a jury awarded Collins \$7,000 for
his burns and Mrs. Perkins \$3,000
for the death of her husband.
