

A PATIENT'S PLAIN
FROM THE HOSPITALREMOVED FROM JUBILEE
TO SAINT JOSEPH'SBoth Sides of the Story As Told by Those
Concerned—Contradictory
Statements.

(From Monday's Daily.)

John J. Taylor, of Strathroy, Ont., is at present a patient in the St. Joseph's hospital. He was transferred to that institution on Wednesday last from the Royal Jubilee hospital, where he had been from the preceding Friday night. Mr. Taylor is a man of about 30 years of age, an engineer by trade. He was through the South African war with the Strathcona Horse, and he had been declared by the military authorities to be a fit and healthy man. He was then sent to the D. S. O. detention. During the war he had a leg broken, a couple of bullets passed through his body, and one hand badly smashed. After the war he had been declared by the military authorities to be a fit and healthy man. He was then sent to the D. S. O. detention. During the war he had a leg broken, a couple of bullets passed through his body, and one hand badly smashed. After the war he had been declared by the military authorities to be a fit and healthy man. He was then sent to the D. S. O. detention.

"On the following Monday," Mr. Taylor says, "Dr. Jones and the hospital doctor came in and questioned me. After a consultation I was removed from the bed on which I lay and placed on a stanchion. This was at 8 o'clock on Monday evening. Weights were placed on my legs, and I was being turned in the bed. The male nurse, Evans, settled the boots for me and I received a little ease. Again when being moved, they hurt, and I asked Dr. Bassil if he would settle them, but he replied they are all right. On one occasion the doctor came in while the weights were temporarily off my feet, and he said that then on, they must remain there the whole time. I suffered great agony. On Wednesday, between 11 and 12 o'clock, the doctor came in and throwing a bill for \$7.25 on the bed, said I would have to get out. Dr. Jones came in shortly afterwards and I told him what had happened, and he said 'if they will not have you here the best thing is to go to St. Joseph's hospital.' A back was ordered and I was driven to this hospital. I don't know what they intend to do with me here. The weights have not been put on again."

This story was told on Saturday forenoon by Taylor at St. Joseph's hospital to a Times reporter, who promptly communicated by phone with the hospital officials. No explanation was forthcoming until this morning, when James Forman, president of the hospital board, was seen.

Mr. Forman went up to the hospital yesterday to investigate the case, with the result that an altogether different complexion is put on the matter. His statement is that Taylor was duly admitted to the hospital, that the weights were attached to his feet, as is usual in such cases, that Taylor protested when the nurse attempted to adjust them after moving him in his bed, and that he struck Nurse Evans with his clenched fist, causing his nose to bleed. Mr. Forman states that there is a little 14-year-old girl undergoing precisely the same treatment as Taylor, and that she bears it uncomplainingly. It is further stated that Taylor said he would leave the hospital if he weights were to be used, and that it was practically at his own request that he was removed. These particulars appear to be correct, and they are the next to that reported by Taylor.

The matter is being further inquired into.

"In Chambers this morning Mr. Justice Duff heard the following applications. Garretson vs. Bellinger: This was an application for examination; the order was made. Baggeley vs. Bellinger: this was a similar application and the order was likewise made. In the cases H. Dallas Macken, K. C., appeared for the plaintiff, and J. Lawson for the defendant. Wallace vs. Flewin et al., an order was made to represent the plaintiff and A. Martin the defendant.

GRATEFULLY RECEIVED.

Capt. Parry, of H. M. S. Egeria. Acknowledges the Receipt of Shield From Citizens.

His Worship the Mayor was Monday the recipient of a letter from Capt. Parry, of H. M. S. Egeria, conveying the thanks of the ship's company to the citizens of Victoria for the gift of a shield in recognition of the attempt made to rescue the passengers on the ill-fated Valencia. The letter from Capt. Parry is as follows:

H. M. S. Egeria at Esquimaux, B. C., 24th March, 1906.

Dear Sir:—On behalf of the ship's company of H. M. S. Egeria, I have much pleasure in accepting the very handsome shield that has been so generously presented to them by the citizens of Victoria, in recognition of the attempted rescue of the passengers of the ill-fated S. S. Valencia, that was wrecked on the West Coast of Vancouver Island on the 26th January last, by a boat's crew from the Egeria.

I shall be much obliged if you will kindly convey the thanks of the ship's company to the citizens of Victoria for the gift, as well as for their kind thought in desiring to show their appreciation of the attempted assistance rendered by them.

Yours faithfully,

J. F. PARRY,

Captain, R. N.

His Worship the Mayor of Victoria, City Hall.

RECOMMEND THREE
DAYS' FESTIVITIESEXECUTIVE TO MAKE
A RECOMMENDATIONThursday, Friday and Saturday Will Be
Suggested For Victoria Day Demonstration This Year.

An important meeting of the executive in charge of the Victoria Day celebration was held on Saturday evening. As predicted by the Times some days ago, the programme will include the three days, Thursday, Friday and Saturday. This decision was reached after some consideration, quite a number expressing the opinion that two days was quite sufficient. Those in favor of the recommendation, however, pointed out that Saturday would be a holiday to all intents and purposes even if it were not officially declared one. They argued that it would be far better to arrange for some attractions on that day than to let the opportunity pass without any effort to entertain those visitors who might be inclined to stay over until the end of the week, providing an inducement was offered. Finally an agreement was reached to submit such a recommendation at the next general meeting.

The question of finances was discussed at length. It was explained that in order to carry through the festivities in the proper manner a considerable sum in addition to the \$1,000 grant made by the city council would be needed. This was generally obtained by means of public subscriptions and the same method would have to be adopted this year. In the past the total amount received had averaged \$3,000. But the desire was to make the carnival of 1906 one of the best that has ever been given by Victorians in commemoration of the birthday of the late Queen Victoria the Good, whose reign would always be looked back upon as one of the most glorious in the history of the British Empire. It was practically the only festivity conducted in Victoria on a large scale the year, and an effort would be made to make the programme more extensive and elaborate and, therefore, more fitting the importance of the occasion. At least \$3,500 was necessary to provide for the carrying out of all the plans of amusement contemplated, and it was hoped that those asked for assistance would respond with corresponding generosity.

Someone then mentioned that a report was in circulation to the effect that the saloon proprietors and those engaged in the cigar business had decided to curtail their contributions on the ground that the "unnecessary" and "extraneous" character of the law by Mayor Morley was irretrievably damaging their trade. It was stated that they had agreed to take this course as a plan to be adopted and the necessary funds be unavailable there could be but one result. The celebrations would have to be "cut down" to meet the shortage. Although such a thing would occasion general disappointment, the saloon men and cigar dealers would suffer much more than any others from a business standpoint. For this reason it was hardly believed that they would adopt such an unreasonable mode of procedure.

Of course it is yet too early for any definite decision to be reached respecting the programme, but it is possible to state that the committee is assured. It will be held at the Gorge, as usual, and will probably take place on the afternoon of the 24th. On Saturday it is proposed to hold a field meet, for which interesting competitions are promised.

In the meantime the executive committee intends placing a number of capable men in the field for canvassing purposes at the earliest possible time. They will make a systematic round and report, immediately their work is completed, to those in charge. Then the latter will be able to arrive at some conclusion as to the best possible time for the celebration. Naturally they decline to undertake any expenditure until their financial resources are definitely defined.

These and a number of matters of minor importance were considered, after which the meeting adjourned.

THE ROYAL VISIT
AND PROGRAMMEA STATE DINNER AT
GOVERNMENT HOUSEThe Prince to Enjoy Two Days' Fishing at
Cowichan and a Drive Around
Victoria.

(From Monday's Daily.)

There is considerable anxiety over the arrival of H. R. H. Prince Arthur of Connaught, who is expected to arrive in Victoria on the Empress liner tomorrow or Wednesday—the anxiety is due to the uncertainty of the time at which the big steamer will sail into port. Tuesday is the general expectation, but it very frequently occurs that the Empresses do not arrive until the following day. This morning there was a dense fog prevailing well out to sea, which may somewhat delay the passage, but there is no definite information as to how that will effect the trip. With the royal visitor, who is returning from Japan, where on behalf of King Edward he presented the Mikado with the insignia of the Garter, are Lord Roddendale, Admiral E. Seymour, General Kelly-Kenny, Col. A. Davidson, Capt. Wyndham and Mr. Miles Lampman. The steamer left Yokohama on time, and ought to arrive here some time tomorrow.

Capt. Trotter, D. S. O., A. D. C., arrived from Ottawa this morning, and will represent the Governor-General. With him were W. R. Baker, representing Sir Thos. Shaughnessy and the C. P. R., and Joseph Pope, under-secretary of state, who is here as representing the Dominion government. Mr. Pope used to be the valued private secretary to Sir John A. Macdonald, and is the author of that well known work, "The Life of Sir John A. Macdonald." The trip is a similar mission when the Duke and Duchess of York visited Victoria, some few years ago. These gentlemen had a conference with the Lieut.-Governor this morning as to the arrangements for the reception of His Royal Highness, and were given to understand that it would be as informal as consistent with the occasion. The arrangements are that the Prince and party will be met at the outer wharf by a guard of honor made up of detachments from the Royal Garrison Artillery and Royal Engineers, under command of Col. English. This will possibly be the last official act of the garrison in this country, as their places are to be taken by Canadian forces. The complement thus said is a fitting one, and will be received. The Prince will be escorted to the parliament buildings, where, on behalf of the citizens of Victoria, he will be presented with an address by Mayor Morley, and welcomed to the province by Premier McBride. His Royal Highness will then be driven to Government House, where an informal lunch will be partaken of. In the afternoon the Prince will be driven around town and shown the many beauty spots of Victoria. There will be a state dinner in Government House in the evening, for which up to 50 invitations have been issued.

On Thursday morning at 10.30 the Prince and party will leave by special train for Duncan, and thence will proceed to Cowichan for two days' fishing, returning to Victoria about 10 o'clock on Friday night, and proceeding direct to the steamer Princess Victoria, which will take them to Vancouver.

It is the expressed desire of His Royal Highness that the reception be informal during his visit to this country. Although many public bodies throughout Canada would be anxious to express their affection for and loyalty to the throne, the Prince will only receive an address from the mayors of the cities through which he will pass. Accompanying the Prince and party on the fishing excursion will be Wm. Christie, local manager C. P. R. telegraph; Fishery Commissioner Babcock, W. F. Burton, A. S. Baxter and Hon. F. J. Fulton.

Arrangements are being made to give the school children a holiday on the occasion of the royal visit.

HEALTHY LUNGS

Depend Upon Rich, Red Blood—Poor
Blood Means Weak Lungs and Fatal
Consumption.

Every drop of blood in the body must go through the lungs. That is why the lungs are helped, and healed, and strengthened with the great blood-builder, Dr. Williams' Pink Pills. They fill the veins with pure, rich red blood that gives health and vigor to weak lungs. That is the way Dr. Williams' Pink Pills brace the lungs to throw off bronchitis and heavy colds. That is the way Dr. Williams' Pink Pills build up the lungs after an attack of the grippe or pneumonia. That is the way Dr. Williams' Pink Pills have saved hundreds in Canada from consumptive graves. No other medicine does this work so speedily and so well. Mrs. Jane A. Kennedy, Douglastown, Que., says: "My sister, a young and delicate girl, took a severe cold when she was sixteen years old. Nothing we did for her seemed to do any good, and we feared she was going into consumption. Often after a bad night I would get up early to see if she had spit blood during the night. A friend strongly urged me to give her Dr. Williams' Pink Pills, and within a month from the time she had begun their use, she had almost recovered her health. Under the continued use of the Pills she is now well and strong."

Dr. Williams' Pink Pills not only make weak lungs strong, but they cure all troubles arising from a poor or deficient blood supply, such as anaemia, indigestion, rheumatism, neuralgia, general weakness, St. Vitus' dance, headaches and backaches, kidney troubles, palpitation of the heart, and the special secret ailments of young girls and women. Insist upon the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around each box. Sold by medicine dealers everywhere, or by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

SALMON FRY.

Large Number About Ready For Lib-
eration From Dominion Hatchery.

Twenty-nine million sockeye salmon fry will be turned out of the Dominion government hatchery at Harrison lake, it is said, in about a fortnight's time and started toward the sea. The operations at the hatchery lake hatchery last fall and winter were attended with great success, and the season was one of the most profitable in the history of this propagating station. Although the capacity of the hatchery is 30,000,000 eggs, there was hatched last season nearly 31,000,000 eggs.

During the winter months the little fish have grown considerably, and they are now about three inches long and as all are strong swimmers now, the time has about arrived for their liberation. From Harrison lake the young fish will pass out to sea to disperse all nature calls them back to the river four years hence.

All interested in the Ladies' Musical Club are reminded of the second concert to be given by the club, on Monday afternoon at 3.30 o'clock, when a delightful programme of both vocal and instrumental music (all Schumann's) will be rendered. Members may take tickets by sending the sum of twenty-five cents admission for them.

CALIFORNIA COURT

DISPOSES OF CASE

Edna Wallace Hopper Meets Another De-
feat in Her Action Against
James Dunsinuir.

"Edna Wallace Hopper, step-daughter, Joan Olive Dunsinuir, mother, and W. S. Leake, administrator of the estate of Josephine Dunsinuir, deceased widow of the late Alexander Dunsinuir, have met final defeat in the Superior court in their effort to recover a portion of the estate of the dead millionaire," says the San Francisco Call of Friday. "After three ineffectual attempts to state a cause of action against the Pacific Improvement Company, which, the plaintiffs allege, holds property of the deceased worth \$8,000,000, Judge Coffey yesterday denied their counsel further opportunity and sustained a demurrer to the complaint without leave to amend."

"Edna Wallace Hopper and associate plaintiffs first sought to sue the company, claiming that the company was guilty of the original will of the deceased be removed from the records of British Columbia and filed in the city. Had this ruling been sustained it would have permitted the contest of the instrument, the plaintiffs contending that when it was drawn Alexander Dunsinuir was not of sound mind. The Supreme court, however, reversed this ruling and pointed out that if any remedy existed that would enable the plaintiffs to sue the company, their intentions lay in a different forum, and that an action in equity alone would be provided a cause of action could be stated. As James Dunsinuir has never been declared insane, the jurisdiction of the court it became necessary to join as defendant the Pacific Improvement Company, which, it was alleged, held all of the property of the deceased within the jurisdiction of the court. The action in equity was instituted, but demurrers to the original and the first amended complaints were sustained. Again the complaint was amended, but the court held that the amended complaint was insufficient to constitute a cause of action against the Pacific Improvement Company, and sustained a demurrer to the amended complaint."

"An appeal will be taken to the Supreme court, but Charles S. Wheeler, counsel for James Dunsinuir, is confident that Judge Coffey will be finally sustained."

DROWNED AT ESQUIMAULT.

Eleven-Year-Old Boy Fell Off Log
Playing at the Beach.

(From Monday's Daily.)

On Saturday morning George Springer, the eleven-year-old son of George Springer, the fireman at the drydock, Esquimaux, was drowned while playing about the beach. The accident occurred about nine or ten o'clock in the forenoon, but it was not until about twelve hours later that it was known that he had fallen into the waters off the dockyard.

From the information now obtained it seems that the little fellow was playing on the beach with a younger boy named Jones. The latter is only about six years of age. The older boy while riding a log slipped off and was drowned. The only person who saw this was his six-year-old companion. The latter, it appears, had been warned that he was not to go near the water in playing, and in consequence was afraid to make known the circumstances connected with the drowning.

In the evening the parents of the missing boy became anxious about him and made search and instituted inquiries. Provincial Officer Conway who had seen the boys together in the morning at once upon hearing that George Springer had not been found went to see his companion, Jones. Finally the story was got from him of the search for the missing boy in the water, where the accident had taken place.

It was not until yesterday morning that the body was found by Officer Conway in about seven or eight feet of water.

An inquest into the circumstances connected with the accident is being held this afternoon.

GREEN WILL CALL
IN TRAP LEASESPRIOR TO ISSUING
NEW REGULATIONSProposed Change in the Boundaries—
Salmon Fry For Lakes on Van-
couver Island.

Vancouver, March 26.—Hon. R. F. Green has called in all trap license foreman leases. New regulations will be made, the boundaries to be reckoned from the base line on shore instead of following the sinuosities of the coast line.

When all the licenses are in Mr. Green will call the trappers together and frame new regulations.

The Kestrel is taking aboard two hundred and fifty thousand salmon fry at Bon Accord to-day for deposit in Anderson, Alberni and other lakes on the west coast of Vancouver Island.

SILVER ANNIVERSARY.

Of the Methodist Women's Missionary
Society Celebrated on Thursday
Evening.

The silver anniversary of the Methodist Women's Missionary Society was celebrated by the auxiliary of the Metropolitan church, in the Sunday school room, on Thursday evening. Mrs. Pendray presided. The room was prettily decorated, and there was a good attendance of church members and others. A splendid programme was provided, including recitations by the children of the Chinese Rescue Home, the youngest member being scarcely five years of age.

Miss Sherlock, of the home, reviewed the growth of the organization, which has made rapid strides since its inauguration, and Mrs. Snyder, also of the Chinese home, traced the progress of the Mission hands, these being composed of juniors. Mrs. Burnett contributed two solos.

A collection of \$23.10 was taken, and five new members added to the list.

A hymn and the benediction by Rev. G. K. B. Adams concluded this interesting and profitable meeting.

TARTAR'S SALOON

PASSENGERS RELEASED

All Discharged Who Submitted to Vac-
cination—Smallpox Patients Now
Number Three.

(From Monday's Daily.)

Forty-seven of the R. M. S. Tartar's saloon passengers and sixteen members of the officers and crew, who have been in quarantine for the past few weeks were yesterday released from confinement at the William Head station. A number of the passengers and crew and 214 of the steerage passengers have been held, and will be given their freedom as they have spent the full 14 days of the period of incubation at the quarantine. In the case of those discharged they have served out the period of detention counted from the day the case of smallpox broke out aboard the ship. All those in the saloon would have been discharged at the same time had they complied as did those now out with all the quarantine regulations, that is if they had submitted to vaccination. A number, however, objected and they were allowed to have their way in this respect so long as they were agreeable to remaining in quarantine for a longer period. Among this number is Capt. Thompson, the pilot, who boarded the steamer soon after she put in an appearance off the Race, not knowing that there was any sickness aboard. Another is a missionary from China, who with his wife and family will have to remain at William Head until all fear of contagion is passed.

Those who came into the city last night arrived on the Princess Victoria. This steamer was sent out to the station for the express purpose. She went out about 5 o'clock last evening, and returned shortly after 8. That the discharged men and women from the quarantine were greatly pleased at being able to continue their journey need hardly be said, neither is it any reflection on the treatment which they were accorded while in quarantine, which was the best. When the Princess Beatrice left the station for the city those aboard noted the interesting spectacle which the station presented with its Asiatics in picturesque garb scattered about on the rocks. These longed to leave also, but they were more open to contagion, and had therefore to remain.

There are now three smallpox patients at quarantine, and all to-day were reported to be convalescent, not one of their number having been taken seriously ill. The third to take smallpox was a Chinese pantryman, he having shown symptoms of the disease some three or four days ago. All these are in part of the station by themselves, so that the other passengers have in no way come in contact with them since they entered the station.

—Walter M. Wood, manager of institutional work in the Young Men's Christian Associations of Chicago, visited the local Y. M. C. A. last evening. He came unexpectedly or arrangements would have been made to secure him for an address or conference on association work. While in Seattle he was invited to address the association of the Y. M. C. A. and gave an address, "The Evolution of the Association as a Community Supplement." Preceding the address he spoke of the possibilities of the association movement and incidentally referred to the fact that it cost \$1,000 a day to run the associations of Chicago. Mr. Wood commented on the number of young men and the activity prevailing in the local rooms last evening. He and Mrs. Wood left for Vancouver this morning on their way east.

A FOOD AND A TONIC

What the leading Medical Journal of the world has
to say about FERROL.After making a thorough test of FERROL in its own
laboratory the London (England) *Lancet* published an
article from which the following is taken:

FERROL

"This is a successful combination of the well-known valuable remedies, Cod Liver Oil, Iron and Phosphorus. The formula is no secret, and our analysis showed the presence and amount of constituents as described. The preparation is a good one and of distinct therapeutic value. The association of an easily assimilable oil, in a fine state of division, with a phosphoric salt of iron which does not disturb the digestive functions and which is easily tolerated, determines its success as a food and tonic in wasting diseases."

What the London *Lancet* recommends as a food and a tonic in all wasting diseases must have very special qualities.

No higher endorsement is possible. The results following the use of FERROL for the past ten years have proved that this endorsement is well deserved.

FERROL is not a patent mystery. The formula is freely published. It is prescribed by the best Physicians. It is endorsed by the most eminent Medical Journals. It is used in the prominent Hospitals, Sanatoriums, etc.
