NEW BRITISH CRUISER,

The Invincible Launched on the Tyne-Great Secrecy Observed in Building.

Newcastle, April 13.-The British 27ored cruiser Invincible was launched o-day from the Elswick shipyards. She is one of the trio of largest cruisers in the world, of which the first, the ln domitable, was launched March 16th. The greatest secrecy was observed in the building in order to prevent any details regarding the new warship leaking out. Her dimensions are the same as those of the Indomitable. She is of 17,250 tons, is 530 feet long, exceeding the older armored cruisers by 50 feet, has turbine engines and is expected to attain the high speed of 2 knots an hour. The armament of thes three cruisers includes eight 12-inc guns, almost equalling the main bat tery of the Dreadnought.

on the heel and ankle made it almost impossible for him to walk. I used various ointments, but the sores persisted. One day Zam-Buk was recommended, and we got a supply. It seemed to take the soreness out of the place to which it was applied right away, and the woulds began to heal. In about a week's time the sores, which about a week's time the sores, which had defied other treatment, were completely healed, and there is now not a trace of sore on his body! I believe Zam-Buk to be the best balm ever pro-

SNOW STORM IN NORTH. Blizzard Lasted Three Days-Busine Suspended at Mining Centres.

News comes from White Horse of a terrible snow storm which visited the whole of the Yukon territory last week. The storm lasted for three days and three nights, a raging wind accompanying the snow. The weather was rightfully cold, and all business was DELEGATION WAITED suspended in all the mining centres. At White Horse, the temperature dropped from 10 degrees below zero to 30 and 40 degrees the first two days of the blizzard, and the third day the mercury registered 60 degrees below.

The stage trail below there and Dawson was blown full of snow and the stages operating on the route were practically put out of business. From Stewart Crossing to Dawson, the snow was belly deep on the horses and in places the drifts were so high that the horses could only pull the sleighs a length or two before stopping to rest. Only passengers and mail can
