As I am continually adding to my Stock all new improvements, in Carpenter's and Machinist's Tools, and all other Goods, and for the want of space, I find it quite impossible to enumerate more than a few lines, and articles that I keep on sale. But call for inspection will satisfy the most experienced in the Hardware trade, that my stock is complete. The variety comprises every article the country requires. I have given my strictest attention to the business, and allow nothing to be out of Stock there may be a call for, together with all new improvements. My business having increased so that I can now efford to sell at a small advance on cost, purchasers will find that they can buy to better advantage here than sending abroad for what they require. J.
