Dr. E M. Mills Says Twentieth Century Offering Will Reach That Sum.

Raised in Three Years-More Than \$19,000,000 Now Subscribed-Final Announcement on

New Year's Eve.

(N. Y. Herald, Dec. 22.) Three years ago the Methodist Epis copal Church set out to raise \$20,000,000 for a "twentieth century thank offering fund." The Rev. Dr E. M. Mills, corresponding secretary for the fund and its executive head, said yesterday :-

"The total amount in the fund i now more than \$19,000,000. At midnight of December 31, 1902, in Trinity Methodist Episcopal Church, Springfield, Mass., the church from which the call for the movement was first issued, I am assured of the pleasure of announcing that the last dollar of the fund has been raised."

The last public statement issued by Dr. Mills was to the effect that \$18,500,000 had been raised. When asked yesterday how much "more than \$19,000,000" the fund now contains and on what he bases his assurance that the entire fund will be raised by New Year's eve, Dr. Mills declined to answer, but said something about not wanting to "take the edge off a delightful surprise."

"All I can say," 'said he, "is that in the language of the theologians, have a lively hope."

A STORY IN FIGURES.

The figures with which Dr. Mills" report deals tell an interesting story. There has been raised for educational purposes, \$7,850,758. Of this amount, Dr. Mills says, \$600,000 has come within forty-five days. More than eightysix Methodist Episcopal universities, colleges, theological seminaries, schools and academies are beneficiaries, Syracuse University leads with gifts aggregating \$1,176,800, and next to it comes Ohio Wesleyan University, with a new endowment of \$1,092,806.

Dr. Mills makes public today for the first time the apportionment of the major part of the \$500,000 recently contributed. It will raise the endow ment of these schools as follows: Cornell College, Iowa, from \$281,000 \$350.000

University of Southern California from \$190,000 to \$250,000. Boston University, from \$130,000 \$200,000

Morningside College, Sioux City Iowa, from \$62,000 to \$136,000. Baker University, from \$60,000 to \$110,000.

to \$100,000. College, from \$51,000 to Dickson

Illinois Wesleyan University, from \$40,000 to \$50,000 Williamette University, from \$16,100 to \$31,000.

Bishop Thoburn's Indian School "These figures mean," says Dr. Mills "that the Methodist Episcopal Church has gathered in three years more for

its schools than it gathered for th same purposes during the first hundred years of its history.

PAYMENT OF CHURCH DEBTS. The second great purpose to which the thank offering fund is devoted is the payment of debts on church pro-

"For his purpose," said Dr. Mills, "we have in three years given the sum of \$8,000,000. In the state of Wyoming not a cent of debt hangs over a Meth odist Episcopal church or parsonage In the United States sixteen presiding elders' districts show the same record "One other cause remains, however, to whose generous endowment the fund on and Methodist preachers all over the country are bending every effort in these closing days of the

thank offering movement. "This is the establishment of a permanent fund for worn out Methodist preachers. We are aiming to secur for this cause by New Year's eve the sum of \$1,500,000. Of that amount we have already obtained \$606,000. A week from today every Methodist Episcopal church in the United States will take up a collection for it."

The memorable watch night meeting to be held in the Springfield church, Year's eve, Dr. Mills promis will be full of incidents.

METHODSIM STANDS STILL.

Methodists of Manhattan and Brock lyn are chagrined over figures presented in the Methodist Year Book, just published. Local leaders have had in hand throughout the year a money raising scheme, and have obtained in Manhattan \$900,000, in Brooklyn \$300,-000, a total of \$1,200,000, aside from ordinary offerings, and have lost, in the two boroughs named and the Bronx,

In the conferences which include the cities of New York, Philadelphia, Chicago and Boston, Methodist membership growth last year was 312. When the \$20,000,000 fund was procted there was started a gospel cam-

paign that was to bring in 2,000,000 members. The millions of money have been raised, the limit of time being u at the end of this month, but there has been practically no growth in

# AT CLOSE RANGE.

ENGLISH VERSUS AMERICAN MA-CHINERY IN CHINA.

In the early part of the year an announcement under the above heading went the rounds of the English and olonial newspaper press bearing upon the unjustifiable practice of a section of the English press of constantly belauding, at every opportunity, the American manufacturer, and his methods, to the detriment of the British manufacturer, and an an instance was then given to illustrate the ability of the Britisher in one branch of industry at least to hold his own and to beat his American rivals. The instance was that of a large flour mill contract secured in China by an old firm of English milling engineers in competition with American makers. which case the English firm was better both in price and time for delivery. We now learn that the whole plan was delivered within the time specified, ten weeks; and that the proprietors were so pleased with the results obtained in working the mill that they have placed the contract for another similar mill, also for North China, with the same English firm.

In the meantime the same firm has scored again in the same market over their American rivals, having recently secured a complete flour mill contract for another firm of Chinese millers, in the competition for which the American was beaten on all

In the face of examples such as the above perhaps some of our friends of the English press who have shown such readiness to advertise the excellence of our competitors, and to decry our own manufacturers, will begin to realise that there may be a reverse to their picture.

DEATH OF MRS. MOOREHOUSE. Daughter of Rev. Mr. McKiel Fairville.

(Fredericton Gleaner.) The very sudden death occurred at Keswick, Sunday night of Mrs. Moore louse, wife of Dr. O. E. Moorehouse the well known physician of that place. Mrs. Moorehouse was ill only a few days with child birth and her death will come as a severe blow to her many friends in this province. Mrs. Moorehouse was a daughter Rev. Mr. and Mrs. McKeil, of Fair-

ville, who were present with their daughter when she died and who are naturally deeply prostrated over her untimely death. Mrs. Moorehouse, by her many virtues and kindly acts of hospitality had ndeared herself to all the residents of

Keswick and vicinity and will be deeply missed by a large circle of friends. Deceased was only 36 years of age and beside the sorrowing husband and parents leaves a little oneyear-old girl deprived of a dutiful daughter, loving and devoted wife and mother Dr. Moorehouse has many friends

n this city, and their heartfest sympathy will go out to him in his deep bereavement. Mrs. Moorehouse was an active mem-

fare and aided materially in all its good work.

The funeral will take place on Wed esday afternoon at 2 o'clock. body will be laid to rest in the Church of England cemetery at Keswick, and services will be conducted at the house and grave by Rev. Mr. Street.

# BRIGHT'S DISEASE OF THE KIDNEYS

Symptoms that Warn You of the Approach of this Malady so Dreadfuily Painful and Fatal in Its Results.

# DR. CHASE'S KIDNEY-LIVER PILLS.

Bright's disease is in reality chronic inflammation of the kidneys and is the natural consequence of negleoting ordinary kidney derange

At first you may notice a slight swelling of the feet after the day's work is over, slow but unmistakable failure of health, pallor of face, and loss of flesh, shortness of breath when going upstairs rapidly, and dimness of

Soon the digestive system become deranged, the appetite impaired, and in many there is a tendency to diarrhoea and formation of gas in the intestines. There are frequently recurring headaches, attacks of dizziness, and severe pains in the back and

limbs. The accumulation of watery filuiddropsy-continues in the cavity of the and may at any time cause death from heart failure or dropsy of the lungs. Sometimes uraemia, stu por, convulsions and death occur suddenly before the other symptoms have become prominent, and while the

dropsy is still slight in quantity. As Bright's disease causes a was ing away of the cells and tissues of kidneys themselves, as well as of the whole body, it can only be perfeetly cured if treatment is begun in its early stages, when the first symptoms become noticeable. Because of their remarkably prompt and direct action on the kidneys, Dr. Chase's Kid-ney-Liver Pills have time and again

proven their supercrity es a preventa-live and cure for Bright's disease. While toning and invigorating the kindeys, and making them active in removing uric acid from the blood, Dr. Chase's Kidney-Liver Pills also regulate the action of the liver and bowels, and encourage the digestive organs to properly perform their duties. Their use will quickly stop the dreadful wasting process which companies Bright's disease, and restore the deranged organs to health and activity. ## BAR AND COFFIN. The Extremes Which Clergymen Embrace on Leaving the Pulpit.

(New York Herald, 21st inst.) For the first time in many years, the ReRv. Geo. K. MacDonald, reformed clergyman, did not give himself up yesterday on the Sabbath to spiritua neditation and prayer and religious exercise, to the exclusion of all other secular pursuits. Mr. MacDonald appeared at his place of business early yesterday morning. A large number of residents of the neighborhood and those who had come from afar passed into the little storm door through the

This continued until 5 o'clock, when two mysterious looking men, said to have been wardmen from Captain Marten's precinct, came along. Too much notoriety had been attracted to the place, and it was said that no one was allowed after that to even enter the storm door. The lights were lowered, and the cu ever took a deep interest in its wel- the Rev. Mr. MacDonald then returned to his home in Long Island City.

> From pastor of a church to the ousiness of undertaker and funeral director is the change made by the Rev. E. R. Ackerley, the popular pastor of the Methodist Church at Bullville, New York state.

Rev. Mr. Ackerley has broken in health through ministerial work, and realizing that he must abandon pulpit labors has decided to thus change his vocation, feeling that in performing the duties of the position he might comfort and console the bereaved while laying at rest the mortal remains of their dead. In this capacity he hopes to succeed at Glens Falls, N. Y.

MOUNT ALLISON.

MT. ALLISON, Dec. 22.-Another term of college life has passed into eternity. Today Mt. Allison closes a most successful term. As a body the students have applied themselves their work, and even if, when the results of the recent examination are made public, those whose names expected to see near the head of the list have not won as much honor as we anticipated, we must remember that it is not always the student who devotes his whole attention to his had been a catarrh sufferer for years, work during the term who comes out in the head at the final test. And let these whose friends' names will appear in these lists remember, if they are not satisfied with the position those in whom they are interested have obtained, that very often the student who does not devote his entire energies to the study of the prescribed text books but spends his time in good reading often gains from his colleg course more lasting good than his felow student who gives himself up to life of solitude and hard work:

As Mount Allison closes and her students disperse, St. John is sought by many of those who will gather around the family Christmas feast, Those who will spend the vacation their homes in this city are: Miss Lilian Sprague, teacher of shorthand I catch a little cold I take a tablet or and typewriting at the Ladies' College Miss Annie Colter of the junior clas in the university, and Miss Heler Irvine, Edma Bates, Ethel Collins Anna Cassidy and Nina Robertson students at the Mt. Allison Ladier College. The students of the univer sity who will be among us are: H. H Hamilton, '03, W. P. Kirby, '04, R. H. Wheeler, '05, H. Howard, '05, C. Hickn, '06. Besides these F. P. Day, '03. H. E. Bigelow, '03, expect to visit

friends in the city. We are glad that St. John has such a large representation at these excel-lent institutions, but still we hope in the future that Mt. Allison, who so high, may be intrusted with the education of a yet larger number of our young men and young women.-

no Casteria always bears the Sign of Chas. H. Fletcher

WHAT THEY WANT. The Provincial Premiers Demand Increased Subsidies.

Inter-Provincial Conference, but much can be surmised from the present basis of dominion subsidies to provinces, and representation in parliament in accordance with the last census. The present basis in regard to dominion subsidies, to which exceptions have been taken for a number of years past, are as follows: First a specific grant for civil government and legislation was made to each province at Confederation, based on the census of 1861. Ontario was given \$80,000; Quebec, \$70,000; Nova Scotia, \$60,000, and New Brunswick \$50,000. These were the four provinces which originally united. At that time the indemnity received by provincial members was three hundred dellars a year and other expenses of governmen: were in proportion. It was assumed by the Editor New York Fishing Gazette: Fathers of Confederation that the sums named would be sufficient to tion to the development of the Behring meet all expenses of government in the sea, Alaska coast, and British Columprovinces, but Ontario, at the very bia coast fisheries with the almost un first meeting of its legislature, con-

The second basis for the grant was eighty cents a head for the population of the province as it existed in 1881. This made no allowance for an increase in population, which has grown in Ontario from 1,396,091 in 1861 to 2,181,-000 in 1901, an increase of eight hundred thousand. And notwithstanding this growth of population, Ontario is still drawing the dominion grant on the basis of population in the year 1861. It is the same in Quebes, and to a degree the same in Nova Scotia and New Brunswick.

The Fathers of Confederation seen to have lost sight of the fact that the population of the previnces would grow with time, they made a mistake, and the object of the present interprovincial conference is to correct that mistake.

1870 and 1902 it is well to give the following instances: In 1861, the grants to education were \$347,000; in 1901, they were \$780,000 for the province of Ontario, and in 1861, \$146,000 was granted to hospitals and charities, in 1901, \$1,-025,000

Although the dominion grants to provinces have not been changed in orty years, the dominion revenue has to fifty-two million dollars in 1901, and it is contended that inasmuch as the dominion takes four times as much out of the provinces it should give more back. This view was taken in 1887, when the inter-provincial conference was held, that was convened by the late Hon. Mr. Mercier. It was then affirmed that dominion grants to provinces should be on a basis of population, and that the Confederation Act should be changed to meet the situation.

# NOT DUE TO CLIMATE.

Catarrh is at home anywhere and verywhere. While more common in cold, changeable climates, it is by no means confined to them, but is preva-

more obstinate and dangerous. Catarrh of the throat and bronchia and liver are almost as common as

ted him is not known, but it is supposed that Gentles was taken into custody some where near Newport, Hants county,

where near Newport, Hants county.

Mr. Power reached Windsor last evening with his prisoner and placed him in the jail there. This morning Mr. Gentles will be brought to the city on the D. A. R. train. Chief of Police O'Sullivan received a telegram from Mr. Power at Windsor last night which stated that he had been successful in capturing Gentles and that he would leave for home on the first train in the morning. The chief expressed himself as being greatly pleased at the success of his trusted officer, who he said worked strenuously ever since the case had been placed in his hands to the case had been placed in his hands bring the fugitive to justice

fected by no easy means, as his friends as-sisted him in every way possible to evade the law. Mr. Power, however, was equal to the task and in exceedingly quick time has suc-ceeded in running down his man.

Gentles left Dartmouth in the dead of night, and was speedily driven to what was thought by his friends to be a perfectly safe place. On Thursday night he entered a cov-ered buggy drawn by a speedy black howe thought by his friends to be a perfectly safe place. On Thursday night he entered a covered buggy drawn by a speedy black horse, and accompanied by a friend named Lavers, set out on a long journey over a dark road. Before daybreak the next day Gentles was landed at the home of a relative a short distance from Windsor, and there he remained until the detective found him.

He was not seen leaving Dartmouth, and he avoided going near any of the trains, so for a time his whereabouts were somewhat of a mystery. All avenues of escape from the province were cut off, as the wires had been kept is motion and all the trains and steamboats were carefully watched.

The man who drove Gentles away returned to Dartmouth again, but nothing could be learned from him. The detective on Sunday morning decided to start off, and he engaged a team and took the road for Windsor, as he thought if he waited until the train left on Monday morning it would then be too late.

cures and sometimes got relief, but only for a short time, until this winter when I learned of the new catarrh cure, Stuart's Catarrh Tablets, through a newspaper advertisement. Two fifty cent boxes which I bought at my druggist's, cleared my head and throat in fine shape, and to guard against a return of my old trouble I keep a box of the tablets on hand, and whenever

He searched all Sunday evening and yesterday until late in the afternoon when he located the place where Gentles was in hiding, and then his arrest followed Gentles is a young man of some education, but is a poor penman, and it is claimed that it would be impossible for him to copy Mr. Bauld's signatures so truly as the forged endorsements are done, and there must have been an accomplice. endorsements are done, and there must have been an accomplice.
