

## REPORT.

THE Executive Committee of the Associated Alumni of King's College, Windsor, in presenting their thirty-first Annual Report, have much pleasure in being able to record the continued prosperity of the University, and the successful establishment of the Collegiate School, under the management of the Rev. C. E. Willetts, M. A.

The past year has seen the completion and opening of the new Academy—built under the supervision of a committee selected from the Board of Governors and the Association—in a manner worthy of the renown of the best days of our *Alma Mater*, and which for comfort in arrangement is not surpassed by any similar building in the Maritime Provinces; and this, your Committee are confident, must have a beneficial effect in increasing the number of pupils, and eventually the number of students in attendance at the University. To encourage which is the chief duty of this Association.

Last year we had to call your attention to the munificent liberality of one of our number in undertaking to build the new College Chapel in a more substantial manner than was at first intended. This year we are able to point to it as it stands completed—a most beautiful and durable monument of the worth of its founder, and of him whose memory it was designed to perpetuate; for alas! in the Memorial chapel erected in honour of the late Dr. Hensley, we have to look upon it almost in the light of the dying tribute of the late Edward Binney, who during his life-time was the most active member of the Association, ready by word and deed to advance the prosperity of the University. He died at Halifax on the 23rd February of the present year, evincing up to the last moment of his life the warmest interest in the welfare of the College and the beautiful Chapel in which he had hoped to be able to worship after its completion. Your Committee feeling how great was the loss the College had sustained, caused the following resolution to be immediately transmitted to his widow:—

### RESOLUTION.

"The Executive Committee of the Alumni of King's College, Windsor, at this their earliest meeting, on behalf of their fellows and themselves, desire to express the unfeigned sorrow which they feel at the loss experienced by them in the lamented death of their associate Mr. Edward Binney, who through many years took the deepest and most active interest in the welfare of the University, making it his aim by munificent gifts to promote her material prosperity, and to add to her beauty and honour.
