Twelve true men were found fit and willing to assist in the defense of the Empire yesterday in St. John. Four of the recruits who enlisted were pursuing studies at U. N. B., but the call of the motherland was too strong so they piled away their books and purchased tickets for St. John. Today they are in the ranks of the 9th Siege Battery.

Last night the members of the Siege Battery under the command of Major Wetmore came over from the island and paid a visit to the Imperial Theatre to see the "Battle of the Somme." Apparently the boys were inspired by the picture, for on coming out of the theatre and after forming up in front of the Imperial, the air was rent with enthusiastic cheering.

Twenty-four of the members, in charge of Sergeant Major McQuade, will arrive in the city today. They were expected yesterday, but postponed their return for a day.

155th Battalion.

To the men of the 155th French-Canadian Battalion this week consists of eight days. This may sound absurd to the reader, but the boys of the 155th figure it out this way. Six working days, the Sunday and pay day, which was yesterday. The battalion, offered by the O. C., paraded to the Bank of Montreal, wherein they cashed their checks. Needless to add, the restaurants, refreshment counters and theatres received their share of patronage.

The members of the 155th drilled on the Barrack Square yesterday, after tramping the snow down with their "pedes".

Eight men, upon physical examination were declared unfit and given their discharge.

Lieut.-Colonel D'Aigle and Captain Lozier did not arrive home yesterday. They are expected today.

Major Boucher is confined to his room on account of illness.

A squad of thirty men to be selected from the ranks will be sent to different parts of the province for the purpose of securing men for the battalion. It is hoped that the French-Canadians and natives of New Brunswick will harken to the call of the 155th and not permit the battalion to leave Canada under strength. There are still required about 250 men to bring the 155th up to full strength.

The orderly officer today is Lieut. Blanchard, and Lieut. A. H. Belliveau is next for duty.

Wins Military Medal.

Lieut. Frank E. Groves received word that his brother Alfred, of the 5th Dragoon Guards has been decorated with a military medal. So far no official word has been received in the city as to how he won the medal, but Lieut. Groves heard indirectly that it was for rescuing a comrade in No Man's Land. Besides Alfred Lieut. Groves has two other brothers at the front.

Lieut.-Col. Powell, of the headquarters staff was in Moncton yesterday attending the wedding of his niece. He will return to the city today.

Mrs. Keeffe, 70 Leinster street received word yesterday that her son, Captain George Keeffe of the Fighting 25th has left England for home. He will probably arrive either the last of this week or the first of next.

Quartermaster Scott, of the headquarters staff, received word yesterday

QUICK WORK DONE ON WATER PIPE BREAK

Water and Sewerage Department Men Speedily Stopped Flood in Germain Street.

About five o'clock yesterday afternoon, persons who were near the corner of Germain and South Market streets, were startled when the six-inch water main burst. About two feet was blown out of one of the sections, and this caused tons of water to pour up through the street, one deluge coming up near the curbstone, and the other nearer the centre of the street. The water flowed down Germain street in a regular river, and was in such volume that it overflowed the sidewalk in front of the Government Railway ticket office and the Royal Hotel. Reaching the foot of King street it flooded that section, forming a thick slush, making it very inconvenient for pedestrians.

The men employed in the Water and Sewerage Department, under the direction of Commissioner Wigmore, worked rapidly, for within twenty minutes after the break had been reported the water was turned off, and the men were making arrangements to repair the damage. At eleven o'clock last night they had uncovered the broken pipe, and it is expected that this morning a new section will replace the broken one, and everything will be working in good order again.

WOMEN WILL RUN PARIS TROLLEY CARS

They are Also Replacing Baggage Men at Some of the Railway Stations.

Paris, Nov. 15.—Motor women on the Paris street railways will soon be a reality. Prefect of Police Laurent has issued an order authorizing the employment of women. They will first undergo training, and then be placed on lines in the city where traffic is lightest.

This is only one of a number of steps necessitated by the war for the employment of women labor. Women are now also replacing baggage men at some of the railroad stations.

Women Cannot Vote Yet.

The Hague, via London, Nov. 15.—By unanimous vote parliament passed a resolution providing for the enactment of article 50 of the constitution that henceforth there will be universal manhood suffrage, and no plural votes or compulsory voting.

The sex disability of women is also removed by the resolution. The actual granting of the vote to women, however, is still distant, as it depends on the passing of an electoral bill, which at present is unlikely.

day that his brother-in-law, Fred P. Lawson, who went overseas with the 6th Battalion and afterwards transferred to the 4th, had been admitted to a hospital in Germany, having been shot through both legs. Particulars are expected to follow.

145th in France.

The five subalterns of the old 145th are now in France, having been transferred to one of the most noted fighting battalions of the 2nd Division of the Canadian Expeditionary Force, is the news contained in a letter recently received in Moncton from a soldier in England. A draft of about two hundred men of the 145th has already gone to France, according to the same information.

Lecture to Medical Corps.

Lieut. H. Darratt, of the A. M. C. School of Halifax, lectured to the officers, non-commissioned officers and men of the Field Ambulance yesterday afternoon. The subject of his lecture was "Drill and Its Aims, and the Functions and Dispositions of the Army Medical Corps on the Battlefield." He dealt especially with field ambulance duties under the conditions of modern warfare. The lecture was very instructive and was greatly appreciated by the members of the depot.

Lieut. Darratt has had a large and varied experience in the Imperial Army, especially during the Boer war. He is also the inventor of several successful appliances in connection with first aid sanitation.

NET SHIPPING IS LOSS ONLY

2-2 PER CENT

Capt. Curtis of American Steamer Columbian Denounces Act of Germans in Sinking Boat.

London, Nov. 15, 3.30 p. m.—Of the total British tonnage of steam merchant shipping of 1,000 tons and over at the beginning of the war the net loss to Sept. 30, 1916, was slightly over 2 1/2 per cent. Thomas J. MacNamara, financial secretary of the British admiralty, told a questioner today in the House of Commons. This, he said, includes losses from all causes whether war or marine risks.

Denounces Germans.

London, Nov. 15.—After receiving a report from Captain Curtis, of the steamer Columbian, which was recently sunk by a German submarine off the Spanish coast, Charles Mayer, the London manager of the Franco and Canada Steamship Company, owners of the Columbian, denounced the action of the Germans in destroying an American ship. "The Columbian," he said, had formerly been owned by the Hawaiian-American Company, but was taken over by his company, which had been organized since the war.

"All the shipping of our company, totalling nearly a quarter of a million tons, is owned in America and is under American registry," he said. "The majority of the ships are under charter to the Italian and French governments. The Columbian was bound for Genoa with about 9,000 tons of oats when she was torpedoed.

"Two-thirds of the Columbian's crew were American.

Huns Deny Story.

Amsterdam, Holland, Nov. 15, via London.—A telegram received today from Berlin contains a denial, on "competent authority," that the Greek steamer Angheliki was torpedoed by a German submarine.

The Angheliki was destroyed near Piraeus last month while on her way to Saloniki with 350 recruits for the Greek volunteer movement. Thirty persons were drowned.

Italians Meet Reverse.

Rome, via London, Nov. 15.—Italian troops were compelled to evacuate some of their more exposed trenches on the San Marco, east of Gorizia, in the mountainous region of Austria-Hungary attacks on an Italian salient at Two Pines House, says today's war office announcement. The statements read:

"Trentino front: There was artillery activity. Movements of the enemy in the region between the Adige and Asa valleys continue. Five determined attacks successfully were driven off, with heavy loss to the enemy. The Austrians then subjected our positions to a heavy bombardment with guns of all calibres, in consequence of which it was found advisable, during the afternoon, to evacuate some of our more exposed trenches. On the Carso we again retook our line by an advance at several points, taking some prisoners."

Troops in Retreat.

Bucharest, Nov. 15, via London (3.15 p. m.)—From the border of Western Moldavia to the Sianic and Otuz Valley, in Transylvania, the Austro-German forces are being pursued, according to an announcement made by the Roumanian war office today. In the Jiu Valley the Roumanians have been forced back to their second line trenches as the result of continued violent Teutonic attacks, the statement adds, and the Roumanians have been obliged also to yield some ground in the Alt Valley.

The text follows:

"From the valley of Putna to Predealu there has been no change.

400 GERMANS SURRENDER TO PARSON

With the British armies in France, Nov. 16, via London—A British chaplain, while searching the battle field of the Ancre for wounded hidden in the shell craters during the British advance, accompanied by a few soldiers, came upon an isolated trench containing nearly 400 Germans, who promptly surrendered. The chaplain ordered the men to file out upon the open ground, preparatory to passing them back with an escort, when the German, seeing the small size of the force to which he was surrendering, tried to rally his men and overpower it. He was about to kill the chaplain when a British infantryman shot him dead, whereupon the other Germans again held up their hands and shouted their eagerness to be made prisoners.
