CANADIANS' VICTORY NOTABLE ONE, SAYS BORDEN

PREMIER BORDEN, MEWBURN AND BALLANTYNE ARE BACK

Reach Atlantic Port After Uneventful Voyage—
Canadians Welcomed Opportunity To Fight
Side By Side With Americans, Says Sir Robert
—"Canada Fights With No Selfish Purpose"—
"It Is Duty of Allied Nations To Purge Ger-
many of Her Madness."

An Atlantic Port, Aug. 23.—Sir Robert L. Borden, premier of Canada, arrived here today, after an extended trip abroad, during which he attended the imperial war conference and visited the battlefield. He was in excellent health and enjoyed an uneventful voyage. Included in his party were General Hon. C. S. Mewburn, minister of militia and defence for Canada, and Col. the Hon. C. C. Ballantyne, minister of naval service for Canada. They were met here by Hon. J. D. Reid, minister of railways.

To the Canadian Press, Sir Robert Borden made the following statement:

"I was on the other side of the Atlantic just ten weeks, and I return with the conviction that never was the spirit of the Allied nations more steadfast or more resolute than at present.

"The greater portion of my time was spent in England where I arrived just after the Germans had conducted a successful offensive, first against the British and then against the French during the spring. The effect of that success has been completely dissipated by the recent defeat of the Austrians in Italy and of the Germans in France."

The American Forces.
In referring to the arrival of the large American forces overseas, Sir Robert said there was most effective and harmonious co-operation between the armies of the United States and Great Britain, as well as the navies. "The Canadian army welcome the opportunity to fight side by side with their kinsmen of this commonwealth," said the premier. "The citizen soldiers of both countries are essentially of the same type, and the Germans have already found them equally formidable. During the German offensive in the early spring months, the Canadian divisions were not engaged; but during recent weeks they have won as conspicuous a victory as ever in the war. Driving forward on a considerable front, they hurled back the German fourteen miles and captured nearly 10,000 prisoners and more than 150 cannon. Their casualties numbered considerably less than their prisoners. And they held all the ground which they captured."

German Savagery.
"The men from both countries have learned to realize most vividly the savage malignity of Germany's purpose and methods. They are determined that this war shall be fought to a finish, and that there shall be no repetition of its horrors. The devil by whom German militarists are possessed must be cast out; the spell with which they have bound the German people must be broken. Until then Germany cannot become regenerated. It may be a hard lesson, but the German people must learn it.
"As the mastery of the air passes more and more completely to the Allies, the German people will more and more realize through war carried to their own territories, the martyrdom to which they relentlessly subjected other nations. It may be a hard lesson, but they cannot be saved from themselves unless they are compelled to learn it. It is equally the duty of the Allied nations to purge Germany of her madness by unsparring use of economic pressure until she has given convincing manifestation of sanity and a clean spirit. Let no selfish purpose or divergence of interest impede united action to this end. An assassin state must be barred from the society of decent commonwealths until they are convinced of its sincere repentance.
"Canada fights with no aggressive or selfish purpose, but to secure the peace of the world, to safeguard liberty and to maintain public right. She is thoroughly conscious that vast responsibilities will rest upon the Allied nations and especially upon the British and the American commonwealths when conditions of peace come to be determined. I firmly believe that the future peace of the

PEACE FORMULA FOR AUSTRIANS

National Conference Demands
That Central Powers Offer
General Peace.

Berne, Aug. 16.—(Correspondence of The Associated Press.)—Details received here of the recent national conference at Vienna of the German Social-Austro-German domination of Russia and Roumania, and a new and liberalized peace formula was presented. This is one of the powerful organizations of Austria, and the national conference was attended by representatives of all branches of industry from lower and upper Austria and from the alpine regions and the south. The resolutions recite:

"The national congress of the German social democratic party of Austria protests against the Brest-Litovsk and the Bucharest treaties as contrary to the principle of peace of understanding without annexation and contributions. (Ten lines suppressed by censor.)

"The congress therefore demands that, before the ratification of these peace treaties, they be laid before the parliament for examination and amendment."

"The national congress demands that the governments of the Central Powers offer general peace to the governments of the Entente on the following basis:

"1.—Establishment of a league of peoples of all countries, which will carry out general disarmament and settle all disputes between peoples by courts of arbitration.
"2.—Abandonment of all annexation and contributions, not only in the west and south, but also in the east and southeast. (Not only as to Belgium, France, Serbia and Italy, but also as to Russia and Roumania.)
"3.—The border states separated from Russia shall be given full right of self-determination. (Half column suppressed by censor.)

Even in the mutilated form that the resolutions came across the frontier they indicate the strong opposition of this powerful industrial element and an urgent wish for peace.
Another resolution after describing the general state of excitement among the working classes, countries, and to provoke a general strike at present, but to get ready for the decisive fight ahead between capital and labor, which it calls "the great fight."
The governments severely criticized for the food regulations, the resolutions declaring that "the upper classes have never been subjected to equality in economic sacrifice. They have escaped the privations of the war partly by exceptional regulations working in their favor, partly by circumventing the law, and partly by clandestine purchase on food supplies, thus leaving the poor class to bear the burden."

AN AGE OF WEAK NERVES

"No heart for anything" is the cry of thousands of men and women who might be made well by the new, red blood Dr. Williams' Pink Pills actually taken.

Miserable day and night is the lot of hosts of men and women who are today the victims of weak nerves. Their pale, drawn faces and dejected attitude tell a sad tale, for nervous weakness means being tortured by morbid thoughts and unaccountable fits of depression. These sufferers are painfully sensitive and easily agitated by some chance remark. Sleeplessness robs them of energy and strength; their eyes are sunken, their limbs tremble, appetite is poor and memory often fails. This nervous exhaustion is one of the most serious evils affecting men and women of today. The only way to bring back sound, vigorous health is to feed the starved nerves which are clamoring for new, rich, red blood. This new, good blood can be had through the use of Dr. Williams' Pink Pills, which fact accounts for the thousands of cures of nervous diseases brought about by this powerful blood builder and nerve restorer. Through the fair use of this medicine thousands of dependent people have been made bright, active and strong.
Dr. Williams' Pink Pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

An Atlantic Port, Aug. 22.—Seven members of the crew of the United States patrol boat Montauk were lost when the craft was driven ashore by a northeast gale on Cumberland Island on Wednesday morning. The Montauk is a complete loss.

COTTON MARKET AGAIN ERRATIC

New York, Aug. 22.—The market has continued nervous and erratic. The opening was lower despite the better cables than due and favorable war news. The south is reported to have offered moderately for forward account. The decline reflected the reactionary sentiment in evidence yesterday based on the increasing movement and theory of a weakened technical position. Liverpool bought freely at the decline, absorbing the offerings and precipitating a covering movement, which, coming on a market bare of contracts resulted in a sharp upturn.

To The Man Who Is Paying \$35. To \$50. For Ready-Made Clothes

YOU will admit that you would rather have a custom-tailored garment, carefully made to your exact measurements, out of a pattern of your own selection—in other words, an individual garment.

You are right—but when you think that you cannot get high grade custom tailoring and imported fabrics at a price that is considerably less than you are paying for ready-made clothes, you are all wrong. It is a known fact that most custom tailoring as well as ready-made clothes have advanced in price, but our standard prices remain the same as last year.

We are making to measure garments of fabrics that we cannot replace for less than two or three times their cost. This is only one of the several ways in which we have managed to keep down our price, Ready-made clothing and the average custom tailor's prices are not exhorbitant under present conditions. It simply happens that our prices have been kept down by our inside mill connections, and by shrewd management, our prices are unusually low. To you this means a chance to save money or to have made-to-measure garments that are made to fit your personality.
