ST. JOHN MAN HAD CLOSE CALL IN A DESPERATE SHOOTING AFFRAY ON TRAIN FOR BOSTON

Thomas F. Drummie, Clerk With Oak Hall, Had Face Grazed by Desperado's Bullet

Italian Passenger Shot Dead by Another Man—Conductor and Baggage Master Had Tried to Arrest Men for Burglary When They Drew Their Weapons and Held Up All Hands in the Car—All Obeyed But One, and He Was Killed—Murderers Escaped But Were Recaptured.

Exeter, N. H., Feb. 10.—Two burglars, who robbed a shoe factory in Dover at midnight, and who murdered an Italian laborer in the smoking car of the Sunnyside express train, bound from St. John (N. B.) for Boston, at Rockingham Junction early in the morning, were captured this afternoon after an exciting chase of fifteen miles through Rockingham county, in which deputy sheriffs, police and citizens participated. The officers and the burglars exchanged shots at several points while the man hunt was in progress, but no person was injured. The robbers escaped from the train hands at Rockingham Junction, after they had shot and killed Giuseppe Giampaolo, a passenger, who endeavored to leave the smoking car while the train hands were attempting to detain the burglars.

One of the men captured this afternoon is Joseph Gouin, a French-Canadian shoe worker, who has recently been living at Haverville (Mass.). Gouin is twenty-four years of age, and his companion, whose name is not known, is of about the same age. He is also supposed to be a French-Canadian.

Gouin, who formerly lived in Dover, and his companion arrived in this city yesterday afternoon on a train which came from Portsmouth. Several other workmen recognized the men, who were about the streets during the afternoon, but no one in Dover knew the name of Gouin's companion, although several employees of local shops, who formerly lived in Haverville, say that this man has been employed in shoe shops in the Massachusetts city. Both men were taken to the Rockingham county jail in Portsmouth tonight.

Late last night two men broke into the Luddy & Currier Company's shoe factory in Dover. After blowing open the safe they carried off about \$20 in money and several cases. The authorities hold the opinion that the burglar expected to carry a large amount of money, which the company intended to use for the payroll today.

The shoe firm, however, received several checks from its head office in Lynn yesterday, but these checks were not to be cashed until today. The Dover police, during the evening of the robbery, learned that two men had gone to the Boston & Maine railroad station at an hour before midnight, and they followed them to St. John, where they started after a man named Gouin. Both burglars, however, had already fled to the westward.

The Dover officers, when they saw that the men had escaped, immediately telegraphed to the railroad officer at Rockingham Junction, the next station at which the Sunnyside express stopped.

Burglars Hold Up Passengers.
When the train reached the junction, Conductor Reeves was immediately notified, and from a description telegraphed by the Dover officers he had no difficulty in recognizing what men were wanted. The conductor and Baggage Master Geo. T. Brackett, who also is a special police officer, went to the smoking car and informed the men that they would have to be detained until officers from Dover arrived. The men said they were willing to wait, and stood up, apparently for the purpose of pulling on their overcoats. The train hands were not looking for resistance, but within a few seconds both burglars had every person in the car covered by revolvers. The train hands were ordered to hold up their hands, and most of them did so, but an Italian named Giuseppe Giampaolo, of Boston, was on his way home from Sprague Mills (Me.), where he had been working, became alarmed and started to leave the car. Before he reached the door one of the robbers fired five shots, four of which took effect in the Italian's back and one in his head. Giampaolo died soon afterwards. His body was taken to undertaking rooms here.

Escaped to Woods.
As soon as Giampaolo fell, the burglars, with their pistols still drawn, edged their way to the car door and jumped from the train. One fell in the snow, but both men escaped and entered the woods near the station. The robbers went in the direction of Portsmouth, discarding their overcoats in their flight. It was just about 11 o'clock when the train, and within an hour deputy sheriffs from Stratford and Rockingham counties, a number of town officers from Exeter, Dover and other places, were in pursuit. The fugitives were easily tracked in the snow. They headed for the town of Stratham, crossing the New Market and Stratham bridge over the Exeter river.

EDUCATION MAIN THING

Local Government Should Apply Consolidated School System Through Province
Views of Hon. A. R. McClellan in Talk on Riverside School—Deplores Extensive Advertising of West as Making People in East Discontented.

Hon. A. R. McClellan, of Riverside, who is at the Royal, said to a Telegraph reporter that the consolidated school in Riverside is now in good running order. At a recent school meeting the rate for the current term was fixed at \$1.25 per \$100, but he says, a manual training department for the boys and a domestic science department for the girls. In the latter department girls from 12 years old are taught cooking, which does not interfere with their other classes and there are always from seven to twelve around the big range.

Hon. Mr. McClellan deplored the fact that the west is so extensively advertised in this part of Canada. The natural result of such a policy is to make our people discontented with their lot. The idea of consolidated schools is a step in the right direction he thinks, and also thinks the government ought to be prepared to extend it all over the province. The cost of education in the back districts is a serious matter and the question is further complicated by the fact that it is hard to keep a body teacher as they leave the profession to be married.

The man rushed by me and out of the car. He made for the woods with his comrade, who left the car at the other end.

"When I went into the car I almost fell over the body of a man who had been shot. The man was almost dead and everyone was too scared to attend him. A bullet had struck him in the back of the head and came through his chin.

Francis Goes to Prison for 16 Years
Phelps Gets Five Year Sentence—These Are Men Captured Here by Sergt. Baxter and Policeman White.

Portland, Me., Feb. 10.—John Ashton, alias Minto St. Clair Francis, who escaped from the state farm at Bridgewater (Mass.) while serving a sentence of eighteen years for felonious assault upon a woman, was captured here by Sergt. Baxter and Policeman White. He was found guilty on three indictments in the United States District Court yesterday. He is charged with burglary, larceny and receiving stolen goods. He was sentenced to 16 years in prison.

Sanitarium Report Feb. 20.
The report in connection with the establishment of a sanitarium for consumptives will be submitted to the provincial government by the end of the month. It is expected that a large and representative delegation from the medical men of the province will be present in the interests of the undertaking. The hope is that the government will consent to make a grant towards the expenses of such an institution, and every effort has been made to embody in the report all the facts that could be gathered after making wide inquiry.

Painters for Eight-Hour Day
The journeymen painters of the city have notified the master painters that they will expect to work only eight hours a day, and receive \$2.25 for it. If, however, the bosses desire to keep the working day of nine hours, they will be paid \$2.50.

Recent Kings County Deaths.
Saxex, Feb. 9.—Philip McNamee, a well-to-do farmer, died at his home in Waterford, this morning, aged seventy-six years. A wife and large family survive.

ONE MAN HAS BEEN FORTY-EIGHT YEARS IN PROVINCIAL HOSPITAL

Seven Have Been Patients There More Than 40 Years.

DURING THE YEAR 686 WERE TREATED

Facts from the Report of Dr. J. V. Anglin, Superintendent—Statements Relative to Patients and to the Expenses of the Institution.

In the report of Dr. J. V. Anglin, superintendent of the Provincial Hospital for Nervous Diseases, for the year ended October 31, 1905, Dr. Anglin says: Beginning the year with 562 patients there were admitted 124, 17 less than in the year preceding, making a grand total of 686. There were removed 115 patients while 42 died. The year ended with 509 on the books, 500 in actual residence, 9 out on trial. The population has thus been reduced below what it was ten years ago, being 54 fewer than on November 1, 1904. In the past three years it has been lessened by nearly 100.

Dr. Anglin thinks this is about as low as the list can go. Dr. Anglin says the thinning out has made it possible to make the remaining patients more comfortable, although there are still more than three in proper room.

Of the 124 admitted during the year friends of 36 agreed to pay something, but for only 22 friends pay the full amount. For six the municipalities contribute \$1.25 each per week; 75 were men and 49 women; in the whole history of the institution there have been nearly 1,000 more men than women. Of the patients 38 were single, and on this point Dr. Anglin says: "No doubt the marriage tie, by the more even life it inculcates, prevents some from becoming insane, yet one dare not indiscriminately advise it for all those brains are their weak point."

In religion 44 were Roman Catholics, and 70 Protestants. Twenty-three were French Canadian. One-fifth of the admissions were from St. John. There were 33 readmissions.

Of those discharged, 67 were classed as recovered, 39 improved, and nine unimproved, the latter all men. Of those improved 38 had been insane less than three months, and 27 less than three months, showing the advantages of early treatment.

The discharges on trial during the year were 83, of whom 21 returned. The deaths during the year numbered 42 men and 27 women. Of those remaining in the hospital since 1886, four men and three women have been patients more than 40 years, 39 men and 33 women, have been sheltered there more than 30 years, 180 men and 125 women, and 50 of the 900 are likely to leave restored to health, though some may be so far relieved that their friends can do no more for them.

In referring to the treatment, Dr. Anglin dwells on the value of outdoor life, and says that the hope that he will ere long have more workshop accommodation.

The financial statement shows receipts of \$87,629.09. The sum of \$8,441.43 was received from paying patients, \$1,802.24 from outpatients, and \$2,300 from admission fees. The expenditure for the year was \$77,193.17, of which \$30,254.44 was salaries. The charges of the hospital for medicine, instruments, etc., cost \$1,456.41. A comparative statement of the aggregate expenditure in five years shows:

OBITUARY.

Rev. Henry Beecher Ward.

Dorchester, N. B., Feb. 9.—(Special)—The death occurred on Feb. 7 at Rockport (N. B.) of Rev. Henry Beecher Ward, a Methodist minister, at the residence of his parents, Mr. and Mrs. Rufus Ward. Rev. Mr. Ward arrived home from the far west on Christmas day very much shattered in health, he having been the victim of tuberculosis for two or three years past. He was about thirty years of age and was a minister in full standing in the Winnipeg conference.

CHLOROXYNE

THE ORIGINAL AND ONLY GENUINE

Colds, Coughs, Asthma, Bronchitis

is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

is the best remedy known for **Coughs, Colds, Consumption, Bronchitis, Asthma.**

acts like a charm in **Diarrhoea, and is the only specific in Cholera, and Dysentery.**

effectually cuts short all attacks of **Epilepsy, Hysteria, Palpitation and Spasms.**

is the only palliative in **Neuralgia, Rheumatism, Gout, Cancer, Toothache, Migraine, &c.**

Always ask for "Dr. J. Collis Browne's Chloroxyne" and beware of spurious compounds or imitations. The genuine bears the words "Dr. J. Collis Browne's Chloroxyne" on the Government stamp of each bottle.

Sold in Bales. Prices in England 1/4, 2/9, and 4/6 Each.

Overwhelming Medical Testimony accompanies each bottle.

Sole Manufacturers - J. T. DAVEN-ORST, Limited, LONDON

Wholesale Agents - LYMAN BROS. & CO., - Toronto Ltd.

DR. J. COLLIS BROWNE'S CHLOROXYNE

There were fourteen marriages and eleven births registered here last week. Six of the babies were boys.

Dr. E. N. Davis has purchased the houses in Elliott row known as the Barton house, from W. H. Trueman, for about \$3,000.

Dr. Benson Ambrose Colloc, a second cousin of Rev. A. B. Colloc, of Brussels street Baptist church, has just been appointed resident physician and sanitarian at the Johns Hopkins University, Baltimore. Dr. Llewellyn Barker, who succeeded Dr. Osler at the same institution, is also a Canadian.

A barn, belonging to Martin Wilkins, Marsh bridge, was wrecked on Saturday. A couple of cars and a lumber wagon being shunted by engine No. 189 along the I. C. R. yard, a car left the rails, owing to the ice and crust, and tore away the front end of the barn, which stood on Marsh street. There was no further damage.

After the 25th inst., the C. P. R. engineers declare the Cantliver bridge will be strong enough to hold the heaviest type of engine, for the most of the work on the bridge has been completed. Only the riveting remains to be done, and this will be finished within a fortnight. Sunday repairs were made to the bridge leading to the I. C. R. wharf.

The resignation of Rev. G. O. Gates, D. D., pastor of German street United Baptist church, was announced to the members of the church Sunday morning. Dr. Gates received a unanimous call last week to the pastorate of the Westmount Baptist church, Montreal, and he will leave St. John in the early spring.

The following residents in the maritime provinces were registered at the high commissioner's office in London during the week ended Jan. 30: Senator and Mrs. Donville, Mrs. F. Brock and Miss A. L., and John D. Brock, Rollistay, Me.; J. A. Webster, Halifax; Mrs. Fanny R. C. Phipps, Amherst; Mrs. D. W. Douglas, Amherst; and Robert and Mrs. C. A. Yorkmouth.

A visitor to the city the early part of this week was John P. Palmer, who left St. John twenty-eight years ago and has come back to renew old acquaintances here. Mr. Palmer operated the first rotary mill ever built at Marble Cove. He was burned out, since which he has traveled extensively in the west. He is now a contracting engineer in Boston. After visiting friends at Palmer's Point he will return to Boston.

Judging from the vital statistics since the new year commenced suicide does not exist to any great extent in this city. In the six weeks just ended there have been 120 babies born. The sexes were pretty evenly represented, there being sixty-five boys and seventy-four girls. During the same period there were forty marriages and eighty-one deaths. During the last three weeks there were eighty-seven births, twenty-one marriages and forty-nine deaths.

DR. FREDERICK GOODWIN.

Amherst, N. S., Feb. 11.—(Special)—The father of the late Mrs. Goodwin, the late Frederick Goodwin, M. D., of Bayfield (N. B.), who has been suffering from Bright's disease, came to the home of his father some weeks ago to be near special treatment, but the disease had too great a hold on him and he has been gradually sinking, in fact, his death has been looked for daily during the last week.
