OUR OWN MANUFACTURE.

79 King St. East, Toronto.

The Eagle Steam Washer

IS THE
BEST
WASHING
MACHINE
ON
EARTH.

NO HOME IS COMPLETE WITHOUT THE
EAGLE STEAM WASHER.

MESSRS. FERRIS & Co.,

DEAR SIRS,—About two years ago I was in Philadelphia, and while there I bought one of your Steam Washers, and brought it home to my wife. She has been using it ever since, and is well pleased with it. It does all you claim for it, and every family should have one, for the saving on clothes every few months would more than pay for the machine.

FACTS FOR THE

PEOPLE.

Dr. McCully, Medical Director of the Medical and Surgical Association of Canada, at the approach of the New Year thanks the People of Toronto and the Dominion for the generous confidence reposed in him as Medical Director. By that confidence and support we have been enabled to add new material to our Laboratory, and our Surgical and Orthopedical apparatus, all of which has vastly increased our ability to meet and cope with disease and deformity. This year we have treated over one thousand patients, and of that vast array of cases we have not as yet to record two per cent. of deaths, while we are able to say that fifty per cent. have either been cured or are in the course of recovery, and forty per cent. more have so improved under treatment as to be able to enjoy a reasonable amount of health and strength. Be it remembered that this grand record is made up of an army of other doctors' failures, many of whom are men of the highest reputation in Ontario and Toronto as well.

We cured, they failed, we saved lives under them, these people were rapidly sinking into a premature grave.

This work has so rapidly increased, and the volume of business has become so great that our present rooms are too small. Therefore the proprietors of the Association has purchased a beautiful suit of rooms on the south-east corner of Jarvis and Gerrard, next door north of our present premises. Into this place on May 1st we will move our business, and with our increased room, new appliances and material will be added to every department, so that we shall have the most perfectly equipped office in Canada. Additions to the medical staff will then be made OF TRAINED MEN FROM THE EUROPEAN COLLEGES, so as to meet the ever increasing work which called this institution into existence.

During the year nearly gone by we have felt in honor bound to expose the gross ignorance that obtains in the medical profession of this Dominion. In the interests of human life we have denounced their shortcomings with the hope that thereby they would be forced to pay more attention to their work, more attention to the diagnoses of disease, and exercise greater care in prescribing. In our possession are prescriptions that were written by professors of Colleges in this city, that if not intercepted by the watchful druggist, must have produced sudden and violent death, and again we conjure the medical profession to remember they are in their work either saving or destroying life. That we have made some medical men utter terrible oaths, that we have driven the lance of truth deep into the quivering consciences of others we do not doubt, but no blow has been dealt in malice, no thrust has been made from envy, and all has been done in the interests of the poor sufferer, vainly casting about for hope, health and a prolongation of life. Will the professor who was in attendance at 44 Camden Street kindly state his justification for the absurd treatment he adopted in that case. We commence the new year with some important cases. Address

DR. McCULLY,
