McCall's New York Bazar Glove-Fitting Patterns.

WHAT THEY ARE.

They rank first in point of general excellence, and are undoubtedly the most accurate and reliable, being all drafted in accordance with the infallible rules of the famous **McCALL FRENCH SYSTEM**, and are positively guaranteed to fit every properly proportioned figure when the correct measure is taken. No defect in the fit is attempted to be covered up in **McCALL BAZAR PATTERNS** by a liberal allowance for seams. It will have been observed that seams are allowed for in nearly every other make of pattern. The result is that when the garment is cut and found to be too large, which is usually the case, the fault is generally laid, not to the imperfection of the pattern, but to the largeness of the seam allowed. The **McCALL PATTERNS** are cut exactly to fit. It is left with the dressmaker to allow for seams, and a moment's reflection will show the wisdom of this policy, for where the material is of firm texture it naturally follows that the seam may be very much narrower than is required for material of a flimsy nature.

WHERE TO BUY THEM.

Agents for these celebrated Patterns are to be found in nearly all the principal towns and villages in the Dominion. Many **DRY GOODS AND GENERAL STORES KEEP THEM, BESIDES FANCY GOODS DEALERS.** In may be that your own store-keeper has them, or the nearest Fancy Goods dealer may have them. Ask them for them and if they cannot supply you with them or know who keeps them, then send direct to the address given below for any style in this paper, or a **16 PAGE CATALOGUE** representing 600 small illustrations of the various styles, sent to any address on receipt of 2c. stamp, or **THE BAZAR DRESSMAKER**, a large 64 page Fashion Book illustrating in large cuts all of **McCALL'S BAZAR PATTERNS** on receipt of 25 cents. In remitting for either Patterns or Publications give name and address **PLAINLY WRITTEN**, so as to ensure immediate attention.
