Nine feet tigers eat lots of poultry

Nick Janz, the owner and founder of the Cottonwood Game farm at Grunthal, obtained two young Siberian tigers from that big, famous Edmonton Mall before Christmas.

"I had a lot of hesitation in getting them when they were first offered to me. They grow to be nine feet long and eat a lot of meat. But my poultry farm friends urged me to get them. The farmers lose poultry every day, either from heart attack or because they simply die. When they added

up all their losses I was convinced that I could feed four tigers if need be."

The result of all this urging was that Mr. Janz went to Edmonton and brought home the tigers, which are now growing rapidly and thriving on the poultry diet, feathers and all.

Firewood fraud in Sprague

A 21-year old Steinbach man admitted guilt to a charge of theft under \$200 Thursday in Steinbach judge's court. He was handed a fine of \$300.

On December 3 Leo J. Friesen, who works as a woodcutter at Sprague, took a load of firewood from the property of his employer with intent to sell. Friesen told court the load amounted to about three-quarters of a cord and he sold it to a woman in Steinbach for \$50.

He said usually a cord of wood fetches about \$180. The complainant, however, was not sure about the amount of wood stolen.

Judge Garfinkel said he would remain silent on the matter of restitution since the facts about the amount of wood taken and the value were not clear.
