

## WHY YOU SHOULD VISIT VICTORIA

**Because** It is unlike any other city in the West—it has a peculiar charm, and its quaint old English air and historical associations captivate the affections and invariably prompt recurrent visits.

**Because** It presents an enchanting panorama of changing beauty; rocky shore line and sandy bay, mountain heights and undulating plains, peaceful lakes and lagoons and rushing rivers.

**Because** Besides being the capital it is also the social center of the Province, and its substantial business blocks and the profusion of beautiful homes attest the wealth of its inhabitants.

"THE GORGE" AT LOW WATER

**Because** The magnificent Government Buildings, the Naval Station and Dry Dock, the Gorge, Beacon Hill Park, and many other beauty spots fascinate visitors.

**Because** Sports of all kinds may be indulged in to the heart's content, and there is an abundance of excellent fishing and hunting in close proximity to the city.
