THUS BRINGING THE STRESS ON THE STRONGEST POINT

Made by **TRIMONT MFG. CO.** 55 to 71 AMORY ST. **Roxbury, Mass.**

DO you realize how difficult it often is for your salesman to get an interview with the heads of manufacturing firms—with the men who buy? This paper is an ever-welcome salesman. Why not get the benefit of its influence?

SUPPOSE

N. W. H. Pb. Co.

YOU wish to know how to cut bevel gears, to calculate milling machine spirals or to make countershaft calculations, or to get information about tap drill sizes, the classification of files; change gear calculations; deep hole drilling; turning tapers; testing lathes, etc.; or any one of the numerous questions that a little information might be desired upon occasionally.

Why not have on hand the Book

"Modern Machine Shop Tools"

By W. H. Vandervoort, M.E.

THIS IS AN ENTIRELY NEW AND FULLY ILLUSTRATED WORK

of 555 pages and 673 illustrations, describing in every detail the construction, operation and manipulation of both Hand and Machine Tools; being a work of practical instruction in all classes of machine shop practice.
