THE FAMOUS Anker - Holth Cream Separator

Ten Reasons why you should own an Anker-Holth Cream Separator.

- 1—Because the bowl is absolutely self-balancing.
- 2—Because all bearings are self-oiling.
- 3—Because the discs do not have to be put in numerical order.
- 4—Because it is the easiest to clean.
- 5—Because a woman or child can run it.
- 6—Because all parts of the bowl are interchangeable.
- 7—Because it contains a less number of different parts than any other.
- 8—Because it can skim colder milk than any other.
- 9—Because it is self-draining. No danger of freezing.
- 10—Because the bowl is located above the oil chamber, therefore no possible chance of the oil mixing with milk.

"Ideal" Fence

Is Stronger Than The Strongest

The Weak Exist; But The Strong Live

Strength is what you want in a fence. You want a fence that will live; a fence that will last; a fence that possesses great strength in every wire.

To get strength you must get weight. The heaviest fence contains the most strength. Weigh "Ideal". Compare its weight with any other fence you can buy.

No small weak wires in "Ideal". From top to bottom it's all the same—all No. 9, all hard steel wire and every wire full of strength and properly galvanized to protect and preserve that strength.

Strong unruly animals can look through but not break through "Ideal". It's stronger than the strongest.

Why not buy the fence that possesses the greatest strength—that weighs the heaviest, that contains the most real genuine value. "Ideal" is the cheapest for you in the end.

Our "Ideal" representative, in your section, will gladly tell you more about this strong "Ideal" fence. If you do not know him drop us a card. Also ask for catalogue 121
