### FIRE PROOF BUILDINGS

are rented far more quickly than others.

Besides the insurance premium is brought down to the lowest possible figure.

Metal ceilings and wall decorations render the interior of your building fire-proof.

They also add a beauty and attractiveness which wood and plaster fail to give.

# Queenston Cement

The demand for our cement in 1900 justified us in adding largely to the capacity of our cement works. The indications are that this year's business will be still greater. We start the new century with an equipment which for the manufacture of natural rock cement is not excelled in America.

We shall be glad to assist you in making plans for new farm buildings or for remodelling old ones. Our experience should be of value to you. It will pay you to investigate our system of ventilation.

Write us for prices or for estimate of cost of any kind of concrete work.
