### All Horse-Collar Troubles Now Prevented or Quickly Cured

Every horse-owner who will now consider the practical in valuable time and horseflesh by using a set of HUMANE HORSE COLLARS to prevent all collar troubles, will certainly buy a set with his spring harness. Or get a set to cure your sore horses while they work. The success of the HUMANE HORSE COLLARS for the past three years proves this. Investigate.

### HUMANE HORSE COLLARS

It is a fact that only one set of HUMANE HORSE COLLARS on a farm will cure up and keep cured of collar troubles all your horses. Don't use "sweat pads" - it's cruel - especially in hot weather - injures your horses; and besides, the sweat pads cost you more than most collars before you get through. You don't need them with these collars. Every set comes complete with short tugs and ready to use - less trouble to put on and take off - and fit any horse perfectly all the time by simple adjustment. Built to last for years by expert workmen, and durable materials.

Don't think of buying your spring harness until you write or fully investigate THE HUMANE HORSE COLLARS. Get our book first.

T. D. Elliott, Bolton, Ont.

### WAVERLY CLYDESDALES AND HACKNEYS

My 1910 importation of Clydesdale stallions and fillies, and Hackney stallions and fillies, are now in my barns. One and two-year-old Clyde fillies of a character and quality never before excelled. My Hackney stud was never so strong in high-class animals. All are for sale and prices right. ROBT. BEITH, BOWMANVILLE, ONT.

### IMPORTED CLYDESDALES AND HACKNEYS

In my stables at Ingersoll, Ont., I have always on hand Clydesdale stallions and fillies, and Hackney stallions, personally selected in Scotland for their high-class type, quality and breeding. Let me know your wants.

W. E. BUTLER, INGERSOLL, ONT.

### IMPORTED CLYDESDALE FILLIES

I have still on hand six Clydesdale fillies. They are big, smooth fillies, exceptionally well bred, and their underpinning is the kind Canadians like. I have only one stallion left, a right good one. My prices are as low as any man's in the business. Phone connection.

GEORGE STEWART, HOWICK, QUEBEC.

ORMSBY GRANGE Duncan McEachran, F.R.C.V.S., LL.D., Etc., Proprietor. STOCK FARM. The June importation being immediately disposed of, to fill numerous ORNSTOWN, QUE. orders, a large consignment of yearling and two-year-old Clydesdales will arrive at the end of September. Special orders will be executed at minimum cost. Everything so far imported by us has given unqualified satisfaction as to quality and price.

### Imported Clydesdales

My new importation of Clydesdale stallions for 1910 have arrived. They were selected to comply with the Canadian standard, combining size, style, quality and faultless underpinning with Scotland's richest blood. They will be priced right, and on terms to suit. C. W. BARBER, GATINEAU PT., QUEBEC.

### SMITH & RICHARDSON

### QUESTIONS AND ANSWERS. Veterinary.

#### BLOODY MILK—LAMENESS AND UNTHRIFTINESS.

Cow is gradually failing. She milks fairly well, but gives chunks of clotted blood out of one teat. She is also lame, and, on examining her foot, I found a hole extending up to the heel, and discharging foul-smelling, muddy substance.

W. J. A.

Ans.—The unthriftiness is due to the pain she suffers in the quarter and foot. Bathe the quarter from which the blood comes often with cold water, and give 1 ounce tincture of iron in a pint of cold water, twice daily, until blood ceases to flow. If she becomes constipated, give a pint of raw linseed oil. It is quite possible the condition may recur, and, if so, it would be wise to dry her and fit her for the block. Keep in a clean place, pare the sole well away around the opening in the foot, syringe out well with a five-per-cent. solution of carbolic acid, three times daily, and after dressing apply a warm linseed-meal poultice. Feed well.

#### UMBILICAL HERNIA.

Yearling colt was castrated a month ago and did well. Now there is a lump the size of a hazelnut between the navel and sheath. It can be pushed back into the abdominal cavity, and causes no pain. I am not sure that the lump was not there before castration. I will keep a bandage on until I see the answer in "The Farmer's Advocate."

P. E. I.

Ans.—I think you will find, upon careful examination, that the tumor is at the umbilicus (navel opening), if not, there is an accidental opening through the walls of the abdomen. The fact that it can readily be returned, but reappears, establishes a rupture. Apply a truss. Your bandage, provided it keeps the tumor pressed into the cavity, will do. It is necessary to have a protuberance on the bandage to press against the tumor. If this does not effect a cure in six weeks, get your veterinarian to operate. He will apply either a clam or a ligature, no doubt.

#### Miscellaneous.

##### YELLOW TREFOIL.

I am sending you a weed for identification. I would also like to know a good way to kill it? "BERT," Ontario Co., Ont.

Ans.—The weed submitted is black medick (Medicago lupulina L.); it is also called yellow trefoil. It is considered a useful forage plant in Europe, being frequently sown with grass mixtures. The seed is common in clover seeds, and it should be treated as a weed since its matures earlier than the clovers and is hard and woody. It has little value outside of pastures, and is of doubtful use there. Short rotations, with thorough cultivation, such as a hoed crop gives, will eradicate it.

##### BLIND STAGGERS.

1. Have a horse that gave out while plowing; he plowed every day for a week, but one morning, after he had been worked for ten minutes or so, he began making a funny noise, as if he couldn't get his breath. I stopped him, and he staggered and fell. He got up again and seemed as good as ever, but he can't work; have tried him several times, and he does the same thing; he eats well, and is in fair, good condition. What is the cause, and can anything be done for him? 2. Is there a second-hand clothing store in London? T. W.

Ans.—1. This is, in all probability, blind staggers, or "stomach staggers," due to a congestion of the blood vessels of the brain, which is supposed to occur through nervous sympathy from stomach trouble. Draw six to eight quarts of blood from the jugular vein, and give a brisk purgative of 8 drams aloes and 2 drams ginger. Feed bran only until purgation commences. Feed lightly on only first-class foods; exercise regularly when purgation ceases.

2. Yes, but it does not advertise in "The Farmer's Advocate."
