

OFFICIAL ORGAN. C. M. B. A.

C. M. B. A. This will be sent on receipt of price, \$1.50, by addressing T. P. FARVEY, 255 St. Martin Street Montreal; or THOMAS COPPEY, CATHOLIC RECORD OFFICE, LONDON.

I invite all to a calm discussion of the questions which are of vital importance to the C. M. B. A. in Canada.

Moved by John Gibson. Seconded by Joseph Dubrule. Whereas, The Supreme Council has ignored the petition of Grand Council of Canada, for beneficiary separation, and as said petition was presented for the protection of the members of Canada; it is therefore

Resolved, That separation from the United States be effected so that we can conform to the laws of our country; and it is further resolved, That the Rec. Secretary be requested to have these resolutions inserted in our official organ, the CATHOLIC RECORD of London, Ont.

TELEGRAPHIC NEWS.

IRELAND. At a meeting of the Irish National League, at Waterford, Mr. Power, M. P., in an address, said the Irish party now had power to defy the united influence of the Whigs and Tories, and was going in the right direction to secure home rule, which only disunion could prevent.

SCOTLAND. Skye Crofters held a meeting at Portree. Resolutions were adopted declaring the recent concessions offered by the landlords were inadequate.

ITALY. The snow fall in the Italian Alps is the heaviest within the memory of man. Terrible accounts arrive from the villages destroyed. It is calculated, so far as known, that 300 lives were lost. The troops displayed much heroism in effecting rescues.

FRANCE. The Paris Gazette declares the instructions sent by England to the Governors of British colonies in the East for the enforcement of the Foreign Enlistment Act constitute an act of hostility to France.

EGYPT. From information received to day from one of the attaches of the British War Office it is fair to assume that the Government expects quite lively times in Egypt during the present campaign against El Mahdi.

MONSIEUR JULIAN DENOT, Vicar General of Fort Wayne, Ind. is dead, and member of the Papal Household, is dead.

GREAT BATTLE.

DESPERATE ENCOUNTER ON THE EGYPTIAN PLAINS.

London, Jan. 21.—A battle recently occurred near Metemneh. Ten thousand rebels attacked the square in which the British forces were advancing several miles, but were compelled eventually to retreat.

DETAILS OF THE CONFLICT. Gen. Stewart had a heavy engagement with a portion of the Mahdi's forces near Abu Klea Wells, near Metemneh. The rebels had come from Barber, Metemneh and Omdurman. This last place was recently captured by the Mahdi, and thus men were released from there to fight Stewart.

A standing vote was requested by President F. C. MURDOCK; all members voting for it. Rec. Sec. Branch 16.

BRANTFORD NOTES.

The contract for pewing St. Basil's church has been awarded to the Bennett Furnishing Co., of London, at 50 cents per foot. It will require about 1200 feet. The work is to be finished by the middle of February, and then we will have one of the prettiest churches in this part of Ontario.

During the year 1884 the vital statistics of the Catholics of Brantford were as follows: Baptisms 69; marriages 11; deaths 23.

OBITUARIES.

MR. JAMES MONOGHAN. We regret to have to chronicle the death of James Monaghan, of Grimsby, He was a native of the county of Wexford, Ireland, and was 97 years of age.

EDWARD POWERS. Edward Powers, aged 10 years, a schoolman in the Grand Trunk yards, Windsor, was run over by a pony engine on Saturday morning and instantly killed.

TELEPHONE SUITS. The Minister of Agriculture has rendered his decision in the case of the Bell patent, the actions in Court will still go on, as the Bell Company are suing the Dominion Telephone Co., of Montreal, for infringing not only the Bell patent, but the Edison, Blake, Anders and Phelps patents on transmitters and receivers, and the Toronto Telephone Manufacturing Co. is being sued on one transmitter and three receiver patents.

actions of the buildings, except in history, have long disappeared, as well as the shops and stalls, and like the fabled things of the past. By legal reforms effected in 1875 the old courts were abolished, and instead of them is a blending of law and equity in the high court of justice in its different divisions.

THE TOWER OF LONDON. The Tower of London, once a fortress, a royal residence, a court of justice and a prison, is now a Government store house and armory, and an interesting show place for visitors. The most conspicuous part of the series of buildings enclosed by the moat is the White Tower, whose founder, tradition has it, was Julius Caesar. William the Conqueror was the authentic builder of the structure, which was subsequently improved by Henry III. Inside is the chapel of St. John, the most perfect specimen of Norman architecture in the kingdom.
