CATHOLIC RECORD. THE

C. M. B. A.

We congratulate Branch No. 26, Montreal on the very successful public meeting re-cently held, a report of which we publish in this issue. Branch 26 is the banner branch of the province of Quebec, and indeed we may also say that it is the banner branch in every movement having for object the spread of the association. The officers and members are men who have their hearts in their work. It would afford us very much pleasure to chronicle reparts which we publish this week. asure to chronicle reparts similar to that

Punctual Attendance at Meetings. It is of great importance that each member of the association should make it a practice to attend the branch meetings regularly Some may say that they are uninteresting that the preceedings are simply a matter of routine, and that the only real business is the little transaction with the financial secretary. True it is that oftentimes our meetings are exceedingly tame, but for this condition of affairs the absentees are more to blame than any one else. Empty chairs give officers and members a most uncomfortable feeling and many a time a subject of importance could be brought up and discusse were it not that it would be hardly worth while introducing such when a majority of the members of the branch are absent. We may take it for granted that if a fairly full attendance of the members of each branch is on hand at the meetings it will not be difficult to make them interesting. In all our branches there are to be found members gifted with much originality, and they can express themselves in such a manner as to render their thoughts worth storing away. An interchange of ideas on such occa-sions is always beneficial, and, besides average member who carries with him such a large stock of modesty as to render it a trying ordeal on his part to stand up and enunciate his views, gradually becomes weaned of his timidity, makes a beginning in the matter of speaking at some one of the meetings, and after a time develops into a really creditable speaker. Habit is a powerful lever on all our actions. When we become accustomed to regular attendance there seems to be an attraction in keeping it up; we find ourselves looking forward to meeting nights with pleasurable anticipations, and we feel, too, that we are all the better for having been present and for having had an opportunity of meeting and greeting and conversing with our fellow.

While we claim that punctual attendan at meetings is largely a matter of habit, we believe it to be also true that staying away from them is likewise a habit. What a grand society we would have, to be sure, were we to cultivate the former and avoid the latte

All important as it is that there should be : good attendance of the membership, it is even still more necessary that the officers one and all, should be present at every meet ing. When the hour for opening arrives i should scarcely ever happen that the president should be obliged to call upon members to fill vacant chairs of officers which others have been elected to fill and who for one reason or another remain away from the mee When the time for election arrives it is of the utmost importance to choose for officers men whose faces are familiar in the branch room. Indeed it is extremely bad taste on the part of any member to accept an office unless he feels that he is in a position to fulfil all the obligations belonging thereto.

By all means let us cultivate punctual at tendance and let us also render the meetings of such an interesting character that each member may be made to feel that it is both pleasant and profitable to be in attendance.

Public Meeting of Branch 26.

The Glenora hall was well filled last even-ing, the occasion being the first of the series of social meetings inaugurated by Branch 26 of the C. M. B. A. The regular meeting of the branch was also held and was con-vened at 7:30 oclock, President Reynolds occupying the chair. Considerable business was brought before the meeting and was promptly transacted, after which the session was declared closed and the doors were thrown open and the friends and visitors were admitted and heartily welcomed by the was brought before the meeting and was promptly transacted, after which the session was declared closed and the doors were thrown open and the friends and visitors were admitted and heartily welcomed by the efficers of the branch. Amongst those pres-ent were the Rev. Martin Callachan, Spirit and Adviser of the branch : Rev. Father O'Meara, pastor of St. Gabriel's, and the spresentatives of the various city branches. The proceedings were opened by an address by the president Mr. Reynolds, who ex-tended a heartly welcome to all present, and explained the object of the meeting, which was chiefly to extend the usefulness of the association. After the address Mr. Frank Feron sang 'Come Back to Erin,'' and was heartly applauded. Master Shae fol lowed with a volim solo, rendered in a most admirable manner. Brother Wm. P. Doyle gave a recitation was howed with a concertina solo, and had to respond to an encore. Grand Doputy Fim was then introduced and delivered a short address on the history of the C. M. B. In its ranks today as active mem-bers are to be found the names of His Grace Archbishop Walsh, of Toronto; His Grace Archbishop O'Brien, of Halifax; His Lordship Bishop Dowling, of Hamilton; His Crace Archbishop O'Brien, of Halifax; His Lordship Bishop Dowling, of Hamilton; K. Hyacinthe; and His Lordship Bishop Demard, of Valleytield. With such men in our ranks, directing our spiritual welfare, it is not surprising that our association is rapidly increasing in membership and spreading its branches. We have branches of our association today in every province of this great Domin-ion extending from Prince Edward Island in the east, westward to the Pacific coast, so that in the near future, instead of a membership of ten thousand, it can safely be predicted that we will have a mem-bership of twenty thousand. In 1892 a change took place in the laws of Ontario which necessitated the Canada Grand Coun-cil to petition the Supreme Council of the United States for financial separation, which was granted by the supreme body at its ses-sion held in Montreal, in 1892, which proved very advantageous to Canada finan -cially, our assessments being five less in the year than when we were con-cande with the United States, and our very advantageous to Canada finan-cially, our assessments being five less in the year than when we were con-nected with the United States, and our security much more satisfactory. SEPARATE SCHOOLS.

To the Editor of the Hamilton Times :

SEPARATE SCHOOLS. To the Editor of the Hamilton Times : Sir, — As the Separate school question is again being brought prominently before the pien now going on in the Outario Legislature in reference to Mr. Commee's bill to give the ballot to Separate school supporters against their will, it may not be foreign to the sub-ject to bring up another matter which is of far more vital importance to the Roman Catholes of this Province than either the ballot question or the other questions in reference to Mr. Province to show that the Mowat Administration has overridden the British North America Act of 1857, and has taken from Roman Catholics their rights tues of Canada, 1863, every Roman Catho-lier schools. By 20 letoria, chapter 5, section 14 of the Statutes of Canada, 1863, every Roman Catho-lier schools of the Institutes in posed for the support of Common schools, and Common school libraries or for the purchase of land or up of buildings for Common schools. In the year 1863, there were in this Province no such educational institutes known as "Collegiate Institutes" or "High schools,' and they are the creation of the Mowat Gov-ernment, brought into existence in the year 1873 by the Act of the Ontario Legislature of 37 Victoria, chapter 27, entitled "An Act respecting High schools and Collegiate In-stitutes," As High schools and Collegiate In-

stitutes," " Man schools and collegiate Institutes As High schools and Collegiate Institutes swere only established in 1874, it goes without saying that in the year 1863 Roman Catholic Separate school supporters could not be taxed therefor. The Collegiate Institute and High School Act has been from time to time amended, and we find that by the Revised Statues of Ontario, 1887, Chapter 226, section 34, it is provide that in the case of cities separated from the county for municipal pur-poses it shall be the duty of the Municpal Council to provide such sums as may be re-quired for the maintenance and accommoda. too of the High school, subject to the pro-visions of the said Act. In this city of Hamilton, I am informed, a Collegiate Insti-tute was established twenty years ago, and to provide for the maintenance thereof a rate of half a mill on the dollar has been levied on Public and Separate school supporters alike. The total assessment yearly of the support ers of Separate school supporters of this city contribute towards the support of the Colleg-iate Institute, or if that sum was the average for the past twenty years it would show that during that period Separate school support-ers have paid \$17,500 towards the mainten-ance of that institution. I am advised that for years past there has not been a solitary Roman Catholic child of a Separate school supporter attending that institution, for the reason that in the Separate schools of this is dona in the Collegiate Institute. Now, Mr. Editor, has not the Mowat Gov-ernment infringed on the rights guaranteed to Separate school supporters by the British North America Act of 1807, by making them contribute to the support of High schools, another name for Common schools, by his iegislation of 1814; and what guarantee have Roman Catholics that he will not further in-teriere with their rights?
