My hon, friend has made uestion, but there is a serious side. Georgetown, Ont., or other approv-ly as it can be done, and I, for one, named the foreman. I am not in led stone of equal quality, to the entire satisfaction of the chief archi-

When the tenders were received it was true that Second and Company ten iered for \$244,000 under the suggestion of using Berea standstone, a store extent in the Dominion of Canada. It is the stone of which the post ofwho has tendered is allowed to fice and the Bank of Montreal in the city of Ottawa are built. When it becan:e a question of whether we should accept the tenders of the Georgetown stone or of the Berein Minister of my department that we must, if we possibly could, use Canwith this Government, and that adian stone. But on a consideration If we had got one-quarter as good omebody must have been the low- of the question, it was shown that st tenderer, considering that he was there was a difference of \$28,000 in the cost of this stone. That was the ported so vigorously, he might have Georgetown stone. The first as simple and the only reason why the got up and criticized this question. He d may be merely an illustration to for the construction of the building knowledge of the facts. The Mini in the city of Brantford in preference ter of Public Works has made th

ablic. But this is a serious question. This is simply a recital of the facts in stone or other of equal quality. al or corporation would permit the Oxford may not be carried away town stone? The Minister ha enderer without giving every tender-true conditions of the letting of the cost \$28,000 more, if it had been built or the same opportunity. And as to the same opportunity. And as to contract and of the tender which has of Georgetown stone instead of the tender which has of Georgetown stone instead of the been referred to in respect of the stone selected. Another point was could be found in Canada a foreman construction of the post office in that the Georgetown quarries could capable of overseeing this work. Has Brantford. I say that the contract The come to this that we Canadians not considered to the contract of the contract of the cannot build battleships, but we cannot cut stone? I merely give these answers to the House as they were given to me. I asked the questions purely to get at the truth of the rumor in our section of the country, that these facts as they have been given by the department were the real facts in this case.

Brantford. I say that the contract was let in accordance with the recommendation of the chief architect of the Department of Public Works. The chief architect of that department is a man known, I think, to every hon member of this House; and I am sure that no hon member would say that I would be justified in paying \$28,000 more for Georgetown stone.

Brantford. I say that the contract was let in accordance with the recommendation of the chief architect of the Department is a man known, I think, to every hon member of this House; and I am sure that no hon member would say that I would be justified in paying \$28,000 more for Georgetown stone.
