

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

Unless there is daily action of the bowels, noxious poisons are absorbed, causing headache, biliousness, nausea, dyspepsia, and that prevent the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetables.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of Ayer's Hair Vigor, Ayer's Ointment, Ayer's Cherry Pectoral.

WELL KNOWN IN JARVIS, ONT.
Haldimand County Councillor tells how Psychine cured his Lung Troubles

"I contracted a series of colds from the changing weather," says Mr. Bryce Allen, a well-known resident of Jarvis, Ont., and a member of Haldimand County Council for his district, "and gradually my lungs became affected. I tried medicine and doctors prescribed for me, but got no relief. With lungs and stomach diseased, nervous, weak and wasted, I began to use Psychine. With two months' treatment I regained my health. To-day I am as sound as a bell, and give all the credit to Psychine."

DISTRICT NEWS

HARD ISLAND

A Friend's funeral or rather memorial service was held on Sunday at the home of Justus Robeson as a last tribute of respect to the memory of the late Joseph Robeson, the account of whose demise at the Eastern hospital on Tuesday last was given in last week's issue of the Reporter. The remains were placed in the Athens vault, awaiting burial at the cemetery there. The occasion was well responded to by the attendance of relatives and friends of the immediate vicinity. A Divine solemnity appeared to pervade the mind of those gathered, and a goodly number of prayers and exhortations were offered, and we trust the departed one has gained the rest which he earnestly sought previous to the mental affliction which in a measure secluded the close of his life, thus verifying the truthfulness of these lines of an unknown author:

How vain is all beneath the skies,
How transient every earthly bliss,
How slender all the fondest ties
That bind us to a world like this!
The evening cloud, the morning dew,
The withering grass, the fading flower,
Of earthly hopes are emblems true,
The glory of the passing hour.

But the earth's fairest blossoms die,
And all beneath the skies is vain,
There is a land whose confines lie
Beyond the reach of care and pain.
Then let the hopes of joys to come
Dispel our cares, and chase our fears;
If God be ours, we're travelling home,
Though, passing through a vale of tears.

A Beautiful Display

The millinery opening at Mrs. Rose's is of unusual interest this Spring. We feel it deserves special notice. The models and matrons of Athens and district should find it easy to select from Mrs. Rose's the hat which is to adorn them this season. To describe in detail all the beautiful varieties of the milliner's art now in vogue would be impossible here, but we must mention a few of the best examples. There is a splendid line of fancy platted straw braid hats in all the newest shapes. The trimming of flowers and ribbon, though simple, is most effective. Especially striking are those in red, of a deep rich color, and the "sailors" which are large, beautifully shaped and tastefully trimmed with ribbon and chiffon. Very noticeable, too, are the picture hats in chiffon and lace, trimmed with feathers. They are most attractive looking in plain white or black. For young girls, there are several beautiful fancy straws, trimmed most tastefully with ribbon. The shapes are refreshingly new. There would be no difficulty in suiting girls from 13 to 17 with any of them. The most striking point about the millinery to be worn this season is its simplicity. Mrs. Rose's opening shows how effective this simplicity is, when combined with taste.

WINNIPEG'S PALATIAL HOTEL

The C. P. R.'s Huge Hostelry at Winnipeg—Opens in June.

Perhaps nothing is more indicative of the marvelous growth of North Western Canada than the modern City of Winnipeg, the Fort Garry of other days transformed into the Chicago of Canada. What the Canadian Pacific Railway has done in effecting the change is matter of history, and, as a crowning act, the company has erected in the great Western metropolis a building which represents an expenditure of \$1,500,000. This new palatial Hotel is the largest and finest of the Company's system, and on a scale of magnificence absolutely without parallel in the Dominion. In the matter of artistic decoration, in the sumptuousness of its upholstery and cabinet work, it is in the same class as the palace hotels of Europe and the United States. Located next to the Company's new station the hotel is built on one of the finest sites in Winnipeg and in point of architecture is the noblest structure in that city of miscellaneous growth. Some idea of the palatial building is obtained in considering the outlay, but in beauty of interior decoration nothing has been omitted to make the hotel worthy of the name it is to bear. Precious woods, marbles and mosaics have been used in a liberal way, and the large Dining Room, Breakfast Room, Grill Room and Cafe are sumptuous in their appearance and reflect the highest credit on the artistic ability of those entrusted with the work. The 300 rooms are furnished in accordance with

up-to-date requirements, long distance telephones one of them. The hotel is fire proof and in the several systems employed, the latest scientific methods are adopted, in the Vacuum Air Plant, Thermostat System of heating, Refrigerating Plant, etc. The opening of this noble structure in the latter end of May or beginning of June will mark an epoch in the development of Canada's progress and serve as an assurance of a bright future.

In connection with the Company's Hotel System it is to be noted that a vast sum is being expended on the improvements and enlargements now in progress or about to be carried out.

There is a photo of this magnificent new building on display at the C. P. R. City office, Brockville.

The world is full of people who are in constant misery from the racking pains of rheumatism, neuralgia, lumbago and kindred diseases. They would give any money to get relief, but having tried various remedies and been disappointed they have become discouraged and sceptical of all remedies. Does this describe your case? If it does, let us tell you that there is a cure for your trouble, a remedy that will not disappoint you. It is Tuck's Rheumatic Bone Oil. It never disappoints. As its name implies it goes straight to the bone, or joint, the seat of the disease, scatters the poisonous acid, relaxes the stiffened joints, allays the inflammation and effects a sure and speedy cure. It gives comfort wherever there was misery, a fact for which we have hundreds of letters from those who have been sufferers. This oil is for internal and external use and while it is a great and never failing remedy for rheumatism, lame back, etc., it is also good for other kinds of inflammation such as croup, bronchitis and quinsy. It is the most remarkable remedy of the age and should be in every home. Sold by all medicine dealers at 50c a bottle or sent by mail prepaid by The Tuck Bone Oil Co., Limited, Smith's Falls. Money refunded if not satisfied.

Look Around For Good Clothing

When Adam put on his first fig-leaf, the men's clothing business was born.

The first ready made garment was a fig-leaf. Probably Adam wasn't satisfied with the first leaf and thought he'd try again. By and by, he found one that suited him in cut, material, fit and quality. Adam was shrewd—he looked around. And now, sir, if you are not fully satisfied with the clothing you are wearing, suppose you look around; suppose you try the gate-way to the better appearance of men—the Semi-Ready.

Your Easter Suit Is Here

ONLY DOUBTERS SUFFER
OXYDONOR compels the body to absorb quantities of oxygen from the air, thus making disease impossible. Disease is forced out by the regenerating, vitalizing power of oxygen. Oxydonor causes the body to be cured and re-invigorated just as sunlight and pure air revives the drooping plant and makes it grow. It conveys to the sufferer the element that makes all life possible. For years Oxydonor has been the life guard of more than a million persons.
