

INTESTINAL PARALYSIS

"Fruit-a-lives" Quickly Relieved This Chronic Trouble

589 CARRINGTON STREET, MONTREAL.
"In my opinion, no other medicine is so curative for Constipation and Indigestion as 'Fruit-a-lives'."

I was a sufferer from these complaints for five years, and my sedentary occupation, music, brought about a kind of *Intestinal Paralysis*; with *nasty headaches*, belching gas, drowsiness after eating, and pain in the back.

I was induced to try 'Fruit-a-lives' and now for six months I have been entirely well". A. ROSENBERG.
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

MRS. LORNE DAWSON
Secretary-Treas.

TO SAFEGUARD FUTURE OF NEW BRUNSWICK'S FORESTS

In every part of Canada, timber lands are rising in value. Some farmers woodlots in Ontario have jumped several hundred per cent during the past five years. Public timber lands in Quebec have advanced from an average of \$111 a square mile to \$440 during twelve years. This condition is due to the growing exhaustion of the forests and a realization that the country will require wood materials on an increasing scale after the war in Ontario, of course, the scarcity of fuel is responsible for the popularity of woodlots.

New Brunswick possesses 7,500,000 acres of public owned timber lands, most of which is unfit for agriculture and therefore can give profits only if kept under timber crops.

None of the natural resources is so easily killed as a forest and for fifty years past, New Brunswick's forests have been running down hill because of fire and extravagant cutting.

It is now proposed to create a modern Forest Service through which the Provincial Government can make sure that the public forests are properly managed.

THAT NIGHT COUGH

Could anything be more trying or more exhausting? Peps will and it! The fine vapor breathed down the air passages when a Peps is dissolved in the mouth relieves the irritation, soothes the inflamed place and stops the cough.
Mr. John Dossent of Little Current, Ont., says: "I was troubled with an irritating cough that kept me awake at night. Nothing I took gave me relief until I used Peps. This wonderful breathable remedy, however, has entirely rid me of the cough."
For asthma, bronchitis, laryngitis, sore throat and colds use Peps. All dealers, 50c. box.

PEPS

SEED DISTRIBUTION

Farmers Requiring Seed Should Place Their Orders With Their County Councillors Immediately

Everyone requiring oats or barley should send in his order to their County Councillor immediately, thus eliminating the necessity of a canvasser. The Department of Agriculture will purchase seed through the Seed Purchasing Commission of Canada. Wheat will cost \$2.50 per bushel F O B Quebec; the freight is as follows: to Campbellton 9 cents per bushel, to Fredericton and Centerville 10 1/2 cents per bushel, to Newcastle and Chatham 9 1/2 cents per bushel. The cost of bags and handling charges at this end will be extra. Oat prices will be given out immediately they are available. The orders for New Brunswick must be placed by the Department with the Seed Purchasing Commission at an early date.

Assist the Councillors by sending your order too them immediately.

The Starting Point Of Consumption

Lies in Weak, Watery Blood—Dr. Williams' Pink Pills Make the Blood Rich, Red and Pure

Weak, watery blood is the starting point of consumption. When your blood is in this condition your whole health declines. Your face becomes pale or sallow, your appetite fails, your heart jumps and flutters at the least exertion or excitement. You are always weak and wretched and you lose interest in both work and amusement. This is the point from which you may easily step into the hopeless decline that leads to consumption and the grave. What is needed to bring back health, strength and energy is the new, rich red blood Dr. Williams' Pink Pills actually make. In all the world of medicine there is no other tonic and blood builder like them, and all who feel weak, run-down or easily tired should lose no time in giving these pills a fair trial. They have transformed thousands of weak, hopeless men and women, boys and girls into strong, robust people. In proof of these statements may be given the experience of Mrs. T. Brennan, Charlton, Ont., who says: "Not only myself but my friends think that had it not been for Dr. Williams' Pink Pills I would have filled a consumptive's grave. My condition was most serious; my blood seemed literally to have turned to water; I was as pale as a sheet and became utterly unable to do any housework or go about. I doctored steadily for a long time but was growing weaker, and finally the doctor held out but little hope for my recovery. It was thought that a trip might help me and I was taken to New Ontario. Those who saw me while on my way did not think I would reach my journey's end alive. After I reached my destination a friend strongly urged me to try Dr. Williams' Pink Pills, and as of course I was anxious to regain health I did so. The pills were the first medicine I had taken which seemed to help me at all, and it was not long until I felt they were doing me good. I continued their use gladly, and began to feel hungry and soon after was able to move about the house. Next I was able to go out of doors and to help in the housework, and from that time on my progress was rapid, and in the end I was enjoying better health than I had ever done before. There are many people who can testify to the absolute truth of these statements, and I feel I would not be doing justice to your wonderful medicine if I did not make these facts known."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ANOTHER HERO HOME
No 793675 Pte Elmer McLean, son of Mrs. Alice McLean, Strathadam, originally of the 132nd Battalion, has returned from overseas, permanently incapacitated for Military Service.

sets are kept free from fire and operated on a careful business-like basis. For this purpose, it is expected that legislation will be introduced at the coming session, giving the Government forests wide authority to reduce the timber waste and make details that New Brunswick gets the maximum benefits from the great resource placed in her charge.

TURKISH "JUSTICE"

Curious Case of a Man Who Was Guilty of Having a Daughter.

Dr. Clarke, a famous traveler of about a century ago, tells of the following remarkable case, which was tried at the Greek island of Cos: A young man desperately in love with a girl of Stanchio eagerly sought to marry her, but his proposals were rejected. In consequence of his disappointment he bought some poison and destroyed himself. The Turkish police instantly arrested the father of the young woman as the cause, by implication, of the man's death. Under the fifth species of homicide he became, therefore, punishable for this act of suicide.

When the case came before the magistrate it was urged literally by the accusers that "if the accused had not had a daughter the deceased would not have fallen in love; consequently he would not have been disappointed; consequently he would not have swallowed poison; consequently he would not have died." But he had a daughter, and the deceased had fallen in love, and had been disappointed, and had swallowed poison, and had died.

Upon all these accounts he was called upon to pay the price of the young man's life, and this, being fixed at the sum of 50 sesters, was accordingly exacted.

Another instance was related to Dr. Clarke, which occurred at the island of Samos, as a characteristic feature of Turkish justice—that is to say, a so-called application of a principle rigidly founded upon the fifth species of "homicide by implication." The Captain Pasha reasoned with the people of Samos on the propriety of their paying for a Turkish frigate which was wrecked upon their territory and the crew lost "because the accident would not have happened unless their island had been in the way."

FOUR TYPES OF MEN.

French Method of Picking Soldiers For Special Lines of Work.

"A good judge of human nature is born and not made," declared Dr. G. Stanley Hall, president of Clark university. "Baseball scouts are not able to tell how they pick men; neither can any employer tell how he picks his men."

Dr. Hall described the French system of dividing men into four general types and selecting them for particular positions in the army accordingly. He said: "First.—The digestive type. It is characteristic of the heavy jaw, broad abdominal region. Such men require more food, need it regularly, must be well fed. Such men are best on the defensive. They are hard to dislodge from the trenches."

"Second.—The respiratory type. Nostrils and ears are large; large, long chest; demand plenty of pure air; get restive under confinement. Such men are selected for work on high mountains. They are good in the charge, in making an attack. Such men exclusively are selected for the aviation corps."

"Third.—The muscular type. Head is square, limbs long and strong, body short. This type is good for the bayonet charge in the artillery service."

"Fourth.—The nervous type. Large head tapers down to a sharp jaw. Such men have power to draw upon their reserves. They can get their second wind. The really great are men of this type. Along with this type is closely associated a willingness to sacrifice self for the good of others."

"Children and animals are guided by the desire to gain pleasure and avoid pain. As they grow older they should learn to bear present pain for future pleasure."

Hard to Hear Airplane at Sea.
While it is widely known that an airplane can be heard for some distance off on land, on water the lapping of the waves and the whistling of the wind through the rigging and superstructure of a vessel make it almost impossible to hear the power plant of an approaching seaplane until it is almost overhead; hence the submarine plying the surface has slight warning of an impending seaplane attack until it is often too late to escape.

Heart and Lungs.
The action of the heart, lungs and digestive system is involuntary, for the reason that it is indispensable to life and must be carried on under all circumstances. If a man had to think of his heart or had to remember that he must breathe or that his food must digest he would have no time to do anything else, and if by chance he should forget to keep his heart going or his lungs in operation he would fall dead on the spot.

The Most Accurate Frontier.
"As an instance of the jealousy existing in the relations between Norway and Sweden it may be noted that the boundary line between the two countries is the most minutely exact in Europe. In every parish touched by the line there is deposited an elaborate plan which is renewed every ten years, the whole of the work of surveying, etc., being carefully repeated each time."

Local Pride.
"What is the name of this street?"
"This is Broadway," replied the proud citizen of Dubuque.
"Ah! Named in honor of the famous thoroughfare, I presume?"
"Why, sir, this is the famous thoroughfare!"

Save Their Breath.
Alice—I wouldn't marry a lawyer. He would always be arguing with me. Marie—Nonsense! Lawyers don't argue unless there's a fee in sight.—Boston Transcript.

AMERICAN OPINION

The "Wall Street Journal" publishes a leading editorial on what is described as a "farscape in Western Canada over the agitation for government ownership of all the railways, including the Canadian Pacific."

"Not all of the co-operative socialists, advocates of state socialism and proponents of what is called communalism, from all the farmers, mercantile and lumber associations combined, could transfer the Canadian Pacific Railroad to the Government, even were the Government itself willing," the editorial insists. "They could eat it up, but they could not hold it a single instant, as it is known to-day and at its value to them to-day, after they got it. . . . Canadians need not go one step beyond their own border to decide whether a government-owned road can maintain its most valuable asset. It is just because it cannot be done that part of the prairie press has for some months past wished to make up the deficits of the government-owned roads by expropriating the Canadian Pacific's current profits. The idea is a chimera. There would be no profits to divide up."

"Less than one-sixth of the company's stock is owned by Canadians; less than one-seventh of the shareholders are Canadians. Canadians are both honorable and capable in business matters. Certainly they would not disturb that one security which has contributed most to the country's growth, and has by its stability and merits lifted Canadian investments to a position of great repute and strength in the financial markets of the world, without at least consulting these shareholders."

"If they did, no one would suffer more than the great farming classes of the west whose exports would no longer receive price stimulation from a growing foreign investment market which constantly rectifies the inequalities of adverse Canadian trade balances. Western Canada's deadliest enemy has been the ghost of single tax. It has successfully withstood that temptation to reaction and decay. On grounds of both good faith and expediency, it will not 'Transcontinentalize' the Canadian Pacific."

ROSS-JESSAMIN

A quiet wedding took place at St. David's Presbyterian Manse, St. John, on Wednesday evening, January 30th, when Miss Mary A. Jessamin, R. N., of New York, daughter of Mr. and Mrs. Alexander Jessamin, of Douglastown, was united in marriage to Mr. A. T. Ross, son of Alexander T. Ross, of Chatham. The ceremony was performed by the Rev. J. A. MacKegan. The bride is a graduate of New York Polytechnic Hospital, and the groom has been for some years connected with Chatham Commercial. They were assisted by Miss Evelyn Cameron, cousin of the bride, student nurse at St. John's General Hospital, and Gordon Archibald of No 1 Depot Batt., who was until recently associated with the groom on the Commercial staff. Mr. and Mrs. Ross will reside in Chatham.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver, and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhea, fall of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without gripping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

BEAVER FLOUR

is because the flour is always the same. It is milled from *blended wheat*, Ontario fall wheat, strengthened with western spring wheat. Being blended in exact proportions, Beaver Flour is always the same in strength and quality; and always gives the same results, no matter what or when you bake.

It will be a change for the better when you change from western wheat flour to Beaver Flour, milled from blended wheat.
