The Evening Chit-Chat

By RUTH CAMERON

The lady diagonally across the street from us has been in rather a different health since her last summer's vacation—despite the fact that that vacation was two months w a spent at a beautiful mountain resort.

My neighbour's vacations up to last summer have always taken the form of a month spent at a boarding house or small hotel somewhere in the country, but last summer she thought she would spread the same money over two months by having a cottage.

She took a cottage just far enough from the town so that her friends could—and did—run down for the week's ends.

She had to leave her maid at home to look after the part of the family that could not be moved, so that meant she had her own work to do at the cottage.

Besides the family friends with their week-end visits, all of the four children had to have their respective friends visit them, of course. Only five days of the two months, my neighbour has since reckoned, was the menage entirely free from company of some sort. And not that if you count Great-aunt Susan, whom she carefully avoided inviting, because she is a good deal of care, owing to the fact that she is deaf and sometimes has fits.

but who cheerfully descended upon them for a month, assuring them that she was sure they wouldn't mind because she'd be glad to pay good board.

The lack of running water and of the gas range my friend depends upon so much at home added to the joys of the situation.

And so, as I said at the beginning, the lady diagonally across the street from us has been in rather poor health ever since her last summer's vacation, despite the fact that that vacation was about two months spent at a beautiful mountain resort.

I am tempted to stop here and leave the point to sink in without any assistance on my part, but I suppose that wouldn't be quite according to Hoyle.

Any woman who has the cares of a house through the rest of the year owes it to herself to take some kind of a vacation which will be a complete rest from the routine of housework.

And the mere removal of the scene of her activities to a summer cottage certainly doesn't give that kind of a vacation.

There aren't always all of the attendant circumstances I have described in my diagonal neighbor's case, but anyone who has had any experience along this line knows that a good many of them are mighty apt to be present.

A month or two spent in the country is a very desirable thing for all the family, but I think that month should have some separate vacation entirely free from all household cares.

Ruth Cameron

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and set it. He will work with energy and think clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

HOUSEHOLD NOTES.

When a tablecloth begins to look thin in the fold, cut an inch off one side and also off one end and re-hem end and side; this changes all the folds when the cloth is laundered.

In making custards or other food stuffs calling for scalded milk, remember that if the milk is in a double boiler it reaches the right temperature as soon as the water in the outer utensil boils.

After thoroughly washing white lace curtains, put them in a solution of one teaspoonful of chloride of lime to three quarts of warm water. Let the curtains stand in the solution for about an hour.

When cooking an old-fashioned boiled dinner place the spinach in a cheesecloth bag; then when the dinner is done it can be easily taken out and the other vegetables will not be covered with bits of green.

If the seats of cane chairs sag, turn them upside down, wash well with soapy water, soaking so as to thoroughly wet them, and on drying

they will stiffen to almost if not quite their normal condition.

If for any reason the red bricks in your fireplace become discolored or have white spots on them full of linseed oil giving them all they will absorb, and after a few applications the spots will disappear.

To clean a net waist, put it into a two-quart fruit jar filled with gasoline. Be sure that it is well screwed on. Let it stand over night. In the morning shake the can back and forth. The motion will clean the dirt out of the waist.

To prevent dresses and other articles from becoming yellow with age take a good-sized pillow case and blue it thoroughly, and place the dress in it. When you open the blue bag your dress will be as white as when you placed it in.

Punch holes in both ends of an empty baking powder can to keep scraps of soap in. This is handy for washing dishes, as the soap cannot come into direct contact with them, and in this manner every scrap of soap can be utilized.

To remove grease spots from wall paper take a piece of blotting paper and drop a few drops of benzine on it. Place the blotting paper on the grease spot and place a hot iron on the other side of the blotter, holding it there several minutes.

If apples to be used for salad have little flavour, sprinkle them after they are cut up with a goodly amount of lemon juice to which a few cloves have been added. At the end of half an hour add the mayonnaise. It will be a decided improvement.

AERONAUT FELL INTO SEA.

Nice, France, April 23.—Six aeroplanists made successful flights over the sea from Nice to Cape Ferrat and returned to-day, a total distance of about 15 miles. Hubert Latham made the best time—16 minutes, 46 3/4 seconds. A seventh aeronaut, M. Riemsdick, started but fell with his machine into the water, from which he was rescued uninjured by a torpedo boat.

ECZEMA AND SALT RHEUM

Because of its tendency to become chronic and spread to other parts of the body, a hard fight is necessary to overcome eczema. When you begin the use of Dr. Boev's Gum Salve, you will find it necessary to use it until it has had an opportunity to cure you, and you will not be disappointed. Price per box, 25c. Sold by Druggists and Dealers or from

Water, Drains, and Other City Matters.

Editor Evening Telegram.

Dear Sir,—Reading over Mr. Coaker's appeal to the Municipality of St. John's, last night, I notice he is strong on the available water service of the city. I agree with him in this respect; but, then, what is the use of giving the consumers all its benefits when there is such a wanton waste going on with householders? I venture to say there is more water going to waste in this city than there is actually consumed. I have visited places in our midst, where there are two and three water taps continually on the run all the winter, and is still going on at present—notwithstanding that we have a Waste Water Inspector, to see if there is any defective pipes and taps. I doubt very much if all places are visited and looked after; the very fact of a person passing through our public streets and hearing the water rushing away continuously proves the contrary. Now, what is the use of spending a large portion of money for water service when the whole business is abused? I say, the Inspector should be more strict in insisting on regulations, or else the Council should provide the consumers with water-meters, or some other such means, so that the persons who use or waste more water than is necessary will have to pay according to what number of gallons they use. Until such means are adopted, the present system of waste will still go on. I cordially agree with him in the improvement of appraisements. For instance: if a poor man is fortunate enough, in this town, to be able to raise enough of money to build a shelter for himself and family to live in, and he happens to give it a lick of paint, you give his taxes. Another man may possess three or four tenement houses, and a couple of them are not occupied; through no fault of his, it is a dead letter on his hands, with no income from them—only expense—to keep them in repair. His case is not considered, and he has to pay the taxes all the same. Where, I say, is the encouragement to build houses? And still there is a class of people all the time shouting about no small tenement houses. There is another point in Mr. Coaker's appeal to the electorate that I am perfectly in accord with, and that is: concrete drains instead of the germ-collecting cobble stone. I can call them nothing else, as they are all laid with crevices, which are the means of collecting all sorts of obnoxious matter; whereas the concrete would be perfectly smooth and even and free from any obstructions in the way of flushing, with a very clean looking appearance. If Mr. Coaker should be elected (which I trust he will), I hope he will be assisted by other councillors in carrying his ideas into effect.

I remain, yours sincerely,

A CITIZEN.

St. John's, May, 4, 1910.

Twitching of the Nerves

Wonderful cure brought about by DR. A. W. CHASE'S NERVE FOOD.

It is only by watching the symptoms of nervous exhaustion and applying restorative treatment that you can ever hope to ward off locomotor ataxia and paralysis.

Mrs. E. J. Vanderburgh, of Eastern Welland Ave., St. Catharines, Ont., states:—"For twenty years I was badly afflicted with heart trouble, nervousness and cramps in the limbs, also twitching of the nerves and nervous headaches. I became weak, debilitated and emaciated. My condition was distressing and I was made worse through worry and loss of sleep."

"I tried a hundred remedies in vain. After having used half a dozen boxes of Dr. Chase's Nerve Food my old trouble had entirely vanished, and I was enjoying better health than I had since girlhood."

Such cases as this prove the wonderful efficiency of Dr. A. W. Chase's Nerve Food. It cures in Nature's way by enriching the blood and for this reason by enriching the blood and its benefits are lasting. 50 cts. a box, all dealers, or Edmondson, Bates & Co., Toronto.
