

# No More Corns

No More Dangerous Parings

Nobody needs to suffer from corns since Blue-jay was invented. Millions apply this little plaster.

The pain stops instantly. Then the B & B wax gently loosens the corn. In 48 hours the whole corn comes out—root, callous and all. Blue-jay has done that for fifty million corns, without any soreness, any trouble, any delay or discomfort.

Common treatments mean just a brief relief. Blue-jay ends the corn.

Parings a corn just removes the top layer. The main part is left to grow. And in myriads of cases paring causes infection.

All those methods are wrong. Soon or late the corn must be removed. Why trifle and delay?

Blue-jay removes it in two days. In the meantime you forget it. Please prove this—for your own sake: It is the only right way to treat corns.

A in the picture is the soft B & B wax. It loosens the corn. B protects the corn, stopping the pain at once. C wraps around the toe. It is so made to be comfortable. D is rubber adhesive to fasten the plaster on.

## He Who Will Not Understand.

BY RUTH CAMERON.

There are many people in this world who are naturally and unavoidably stupid; there are equally many, if not more, who are deliberately stupid. That is the conclusion to which I have come after many experiences with people WHO WILL NOT UNDERSTAND.

Surely you have met such people. Everyone has. But perhaps you do not at once recognize the classification. Let me introduce you to one or two divisions of this species.

In the first place, there are the people who try not to understand what you say. These usually belong to your own family or to that inner circle of friendship in which it is allowable to be disagreeable. Only in his relationship with his family, or his dearest friends, does this specimen of the species exhibit his unwillingness to understand things. Outside of this he is sufficiently quick and intelligent, which proves of course that his stupidity is the deliberate and not the avoidable kind. If, in a moment of absent-mindedness or hurry, you say just the opposite from what you mean, this type of person always picks you up and makes you correct yourself. Or if you speak out suddenly, and rather blindly about some topic which you have been mulling over in your mind, he pretends not to have the slightest notion what you are talking

about. In both cases he could have known perfectly well what you meant if he had tried to know. But he didn't.

On the contrary, he tried not to. That is one example of the people who do not understand. Another division is that of the deliberately stupid folks who will not understand intentions. Perhaps a better description of this type is the people who are determined to misunderstand.

Suppose you and one of your friends have talked over the possibility of taking some little excursion together. No definite plans are made and the business is left in the air. It is as much her place as yours to take up the matter again. You are busy and do not refer to it. When you finally call your friend up you find that she is "hurt" because you not want to go. In the bottom of her mind she is "hurt" because you do but she is determined to misunderstand and consequently you must spend a lot of energy and time soothing her injured feelings.

Or perhaps you are in town for a very brief stop and simply cannot find time to call on your friend. She knows of your visit and although she ought to know just how busy you are, she insists on misunderstanding your reason for not coming to see her.

There is hardly time enough in life to fully understand each other when we try our best. There is no time to be wasted in deliberate misunderstanding.

Let's be sure that we do not belong to those WHO WILL NOT UNDERSTAND.

## How The Body Kills Germs.

Germs that get into the body are killed in two ways—by the white corpuscles of the blood, and by a germ-killing substance that is in the blood. Just what this substance is, we do not know. The blood of a healthy person always has some germ-killing substance in it to ward off the attack of disease. The fountain head of life is the stomach. A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished. To put the body in healthy condition, to feed the system on rich, red blood and throw out the poisons from the body, nothing in the past forty years has excelled Dr. Pierce's Golden Medical Discovery, a pure glyceric extract (without alcohol), of bloodroot, golden seal and Oregon grape, castor root, mandrake and queen's root with black cherry bark.

"My husband was a sufferer from stomach trouble and impure blood," writes Mrs. JAMES H. MARTIN, of Frankfort, Ky. "He had a sore on his face that would form a scab which would dry and drop in about a month, then another would immediately form. It continued this way for a long time. He tried every remedy that any one would suggest, but found no relief. He then tried Dr. Pierce's Golden Medical Discovery which completely cured him. He has stayed cured now for two years, and I recommend this valuable medicine for impurities of the blood."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

## Regina Cyclone Swept.

Many Lives Lost—Twenty Girls Were Killed in Telephone Office—Loss Estimated at Over \$1,000,000.

Winnipeg, June 30.—Central Saskatchewan was struck by a terrific wind storm of cyclonic force this afternoon. The estimated killed is 20, but reports make the number from 50 to 200. The damage will be over a million.

Through Business Center. The terrific wind storm, accompanied by hail and rain, struck Regina from the north, at ten minutes to five yesterday afternoon, cutting through

uated, while beyond is a big residential district.

Although the full fury of the storm was most apparent in the central swath between Hamilton and Albert streets, a good deal of damage was done outside, particularly in the western railway yards.

Theblow was so sudden that at first indescribable confusion reigned, but soon order was restored and relief gangs organized. The city power works went out of commission and there is no light. Two fires broke out, but fortunately the brigades were able to get a stream of water playing.

The high wind veered eastward and was blowing furiously at Mossomin, two hundred miles west of Regina, last night, at eleven o'clock. Many lives must be lost on farms on the prairies north of Regina, as none of this class of buildings are made to stand cyclones.

### ELEVATORS DESTROYED.

The Canadian Pacific Railway round house with thirty locomotives was overturned and badly wrecked. The elevators along the Canadian Pacific Railway destroyed were those of the Western Canadian Flour Mills Co., Ogilvie Flour Mills Co., Winnipeg Elevator Co. and the Saskatchewan Farmers Elevator Co. Cook & Varnstone Elevator Co. on the Canadian Northern Line was also demolished.

### Twenty Girls Lost Lives.

In the destruction of the Main Telephone Exchange, 20 girls lost their lives and forty were injured. There were 75 girls in the building at the time when the rear and front of the structure fell in.

### LATEST.

Regina, July 1.—Death list will be confined to fifty. Injured, 200. Since daylight hundreds of rescuers have been busy in the ruins and have recovered fifteen bodies in addition to those recovered last night.

To clean an enameled bathtub, wipe it dry and then rub it with a cloth dipped in turpentine and salt. Afterward wash it with clean warm water, then wipe it dry and it will look like a new tub.

Never let dishwater dry in the towel. They should be washed after each using, and once a day a bit of washing soda may be added to the water. Rinsing in cold rather than hot water keeps towels whiter.

Before using the inner dish of the new casserole put it in a pan filled with cold water, set it on back of stove and bring to boil, boiling five minutes. This tempers the earthenware and makes cracks less common.

Pressing heavy cloth should be done on a board without any soft cloth beneath. The pressing should be done on the right side of the goods principally, having, of course, a cloth laid between to prevent marks of the iron.

For children from 1 to 3 years milk should be the basis of their diet always, except in the very rare cases where milk cannot be taken. Give one quart daily, without dilution, unless the milk is very rich; have it warm and never iced.

When moving into another house have all the floors of that house washed with ammonia water, and fill all corners of shelves, edges of drawers, cracks and crannies with powdered borax, and you will not be troubled with beetles.

Egg-stains on table linen should be soaked in cold water before the tablecloth, or whatever the article may be, is sent to the laundry. The stains are easily soaked out in cold water, but putting them in hot water will "set" them, making them almost permanent.

Never go in for cheap fish towels if you dislike dingy effects. Linen ones keep much whiter than cotton, as the latter turn gray from constant use, however carefully handled.

To remove ink from carpets without injuring the carpet, make a paste of butter-milk and starch and cover the spot with it. Leave it on three days, then rinse off and let dry. If the spot

# SALVIA

THE DANDRUFF-PERFUMED HAIR TONIC.

Creates a Magnificent Head of Fluffy, Luxuriant Hair—Men and Women of Culture use Salvia, the Latest Paris Hair Dressing and Tonic—it will Make Your Hair Grow on Your Money Back.

SALVIA—the Pride of Paris Hair Dressing and Tonic—at once goes to the roots of the hair and turns harsh characterless hair into beautiful wavy hair, full of character and life—hair that changes the whole appearance.

SALVIA destroys the dandruff and will positively make hair grow. SALVIA is not a sticky sulphur preparation, but a pleasant, non-sticky and daintily perfumed. Ladies of taste and refinement wouldn't think of using any other. All actresses in every country now use SALVIA continually.

We claim and absolutely guarantee that SALVIA will create a new growth of hair. If your hair is getting thin, commence using SALVIA at once. It will soon stop your hair from falling out and make the hair grow.

SALVIA is compounded by expert chemists who have made the hair and its diseases a life-long study.

If your druggist doesn't happen to have SALVIA in stock, insist on his getting it for you; don't allow him to sell you "something just as good," because there isn't anything "just as good" as SALVIA. All wholesale druggists in Canada sell SALVIA, and your druggist, if he is up to date, keeps it. Refuse substitutes.

Is not the porch the most attractive part of the summer home? The most complete porches, including rockers, easy chairs, couches, writing tables and flower stands, come in rattan, prairie grass, willow, rustic cedar, Pocono cottage and various other kinds of wood.

To keep feather dusters in good condition cut the foot off an old stocking and push the duster, handle end first, into the leg, letting the feather end remain in it when not in use. The duster takes up less room, looks neater and keeps cleaner when hung away in such casing.

To do away with the fullness in shirtwaist below the belt, which you buy ready made, cut across just below where the fullness is stitched, rip out any tucks just to fit the space where it was taken from. Sew it in and you will be pleased with the result.

## Wells Was Knocked Out.

New York, June 28.—Al Palzer knocked out Bombadier Wells, the heavyweight champion of England, in the third round in Madison Square Gardens to-night.

It was a rapid and exciting fight from the start, but Palzer's weight told on the Englishman. Palzer, who had been knocked down by the Britisher in the opening round, sent Wells to the floor toward the end of the second session. In the third round Palzer led a light left to the face and a right hook to the head. Wells swung right to the face and they exchanged lefts on the head. Palzer planted two right upper cuts on the chest and under the chin, and Wells put a straight left to the face. Palzer then upper cut with his right and sent Wells down. When he got up at the count of nine Wells sent a right upper cut and soaked his left to the face. Palzer with a right upper cut out of a clinch sent Wells down again for another count of nine. Wells was very weak when he gained his feet and Palzer rushed him, landing a heavy right under the heart. Wells crumpled up and sank to the floor without another blow and was lying helpless in the middle of the ring when his seconds threw up the sponge and dragged him to his corner. The time of the third round was 2:44.

Palzer weighed at the ringside, turning the scale at 233½ pounds, and Wells weighed forty pounds, less, 183½.

### HOW FLYNN WILL FIGHT.

Las Vegas, N. M., June 26.—Con-

trary to the predictions of sporting writers and some of his trainers, Jim Flynn, the Pueblo fireman, to-day declared that in his battle here July 4 with Jack Johnson he will not use rushing tactics.

Flynn said he would fight a cautious battle and would make the champion come to him. This time he asserted, he would let Johnson do the rushing because Flynn had rushed Johnson in a battle several years ago and was knocked out.

Las Vegas is rapidly becoming a tented city for the accommodation of the crowds expected here for the fight. The National Guard Armoury the Opera House and Commercial Club rooms have been fitted up as dormitories.

### Sensational Rescue.

Niagara Falls, Ont., June 29.—Geo. Farley, a lineman, fell from the top of a forty foot pole at the Canadian approach to the lower bridge last night, and was saved from death in the raging whirlpool rapids 150 feet below by Dr. W. H. Wixon, an American physician, and several others, the rescue being among the most sensational in Niagara's annals.

Hundreds witnessed the rescue and cheered as a human chain, with Wixon on the end, dropped down from the bank and brought the injured man up. Farley was so badly injured that he was taken to the General Hospital, where it was said his condition is very serious.

Farley was so near the edge that when Nixon went down with the human chain it was with difficulty that the man was removed without hurling him into the torrent below.

CHURCH POINT, July 31, '08. Blacking & Mercantile Co., Ltd., Amherst, N.Y.

Dear Sirs, Nearly one year ago I had my first order of Mathieu's Syrup from you. It was not known in this country, and I gave samples to several families whom I knew would use it. After a few weeks I began to have a call for it, and trade has increased wonderfully since. I have not the least doubt but that it will soon be the best selling remedy for coughs, colds, etc., on the market. If my story here sales are good and our people ask for it. Several stores in this county now keep in stock and report sales increasing. I have bought from you since August 10th, 1907, 4 dozen and have only three dozen on hand at this date, and which I am holding for retail trade in my store. Yours truly, LOUIS A. McANSON.
