June 27th.—The weather turned to shops on which much grass did grow in the stone foundations. This he tell me was the verification of the prophecy that the grass would one day grow on Water Street. Good discourse of many matters of the roads with Mr. Hitha who inld me, among other things, how he believes here should be a tax on all vehicles. Still great talk of an election in the autumn, but little news of any new parties. This day did begin the pubication in the news sheet of the submany put to shame by their names not being in the lists. In mighty trouble by day and night with a plague of bites of theeds, about my ace and limbs, which I did suffer most of them) sitting yesterday in he garden.

A TIP TO THE COUNCIL.

Editor Evening Telegram. Dear Sir,-For twenty years I have lived in the city of St. John's. Year after year I have hoped to see the streets made fit to inhabit. but year after year I have been disappointed and disgusted. A few years ago I thought my hope would be realized; the Council was beginning to use tarvia. Because the tarvia has not been used sufficiently, however, the treets are now as bad as ever, while the fine clay that the Council is putting on the streets to fill up the holes and ruts, serves only to create more mud in wet weather, and clouds of dust in fine weather. Children in the strets play at ball, quoits. marbles and other games. A puff of wind or motor car passing by envelopes hem in a cloud of dust, or cesspools in the form of stagnant puddles of water in drains and holes in the streets are formed; disease germs rise from cesspools, and in the dust ngulfing the children, and before ong some of these happy little ones re stricken with tubercular, or some ther form of consumption, or dread isease. The parents nurse the little ones patiently till death comes and the Council in reporting the mortality list would probably speak of it ou ever thought Messrs. Councillorshow much you are responsible for? Do you think that the height and depth and breadth and length of your esponsibility can be measured by the dollars and cents which you are to pend? What is your excuse? A few ruckmen assert that tarvia may ause their horses to slip." A lame xcuse truly! If tarvia makes the orses slip, then in the name of common sense, sprinkle sand or some finely crushed stone over the tarvia, it will soon sink in leaving a smooth, dust-free surface, and entirely free rom slipperyness. Recently I've seen orses falling on Prescott Street, Harvey's Arch. and Rothwell & Bowing's Lane. There is no tarvia on ither of these places. But suppose orses did slip on tarvia, which is most important, animal life or human life? The man who could not answer that question unhesitatingly in favor of human life and tarvia, ought to have his head cut open, his brain taken out, and the brains of a superan-
