Uses 27 Buicks

At the present time we are operating 27 Buick Cars. Some of these were purchased in 1918 and have been rendering dependable and satisfactory service.
We purchased five of the new 1924 cars with four-wheel brakes and I have driven them personally. The performance is good. In fact there is a feeling of safety that does not exist with two-wheel brakes.
The body design is a great improvement over previous models, but the most important feature is the four-wheel brakes.
SAMUEL L. KING, JR., General Manager,
Equitable Auto Company, Pittsburg, Pa.
When Better Automobiles are Built, Buick will Build them.
