guan Canal-U. S. to Control-England's Generosity. Washington, Feb. 5. — All interna-tional obstacles to the complete and exclusive control by this country of any ship canal which may be cut across the Central American isthmus have been finally removed by the con-clusion of a convention with Great have been finally removed by the con-clusion of a convention with Great Britain explicitly abrogating the so-called Clayton-Bulwer treaty. This agreement, signed by Secretary Hay on the part of the United States, and by Lord Pauncefote on the part of Great Britain, will be sent to the Senate within the next few days. Besides distinctly annulling the Clay-ton-Bulwer compact for joint con-trol of any canal which might be cut across the isthmus and vesting in the United States an exclusive, un-challenged right to build and manage such a waterway, the convention just approved commits both signatory approved commits both signatory powers to a declaration guaranteeins the canal's neutrality, and pledges the United States to refrain from forthe canal's neutrality, and pledges the United States to refrain from for-tifying its approaches and entrances, or otherwise restricting open access to it on the part of the world's commerce. The other great maritime nations are to be asked to join in this general guarantee of the canal's freedom and neutality, and the pro-jected cut across Pawama or Nicara-gua is to be put on much the same basis in international politics as is the Sucz cut between the Red Sea and the Mediterranean. The warships of all nations are to be permitted to pass through the new canal in time of peace and war, and no military advantages are to accrue to any power through the scizure or control of the canal's gateways. In all other respects, however, the isthmian short cut is to be as completely un-der American control as the Suez Canal is now, under British der American control as the Suez Canal is now under British.

FRENCHMEN HATE ENGLAND. Reason Why Sir Edmond Monson Wer Away from Paris,

Paris, Feb. 6. — As a result of onquiries made in the proper quar-ters, it is learned that the stories of The Echo de Paris that the British ambassador to France, Sir Edmund J. Monson, and the British ambassa-due to Italy. Sie biblin curvie, core for the state of the second se tails, or that Sir Edmund has gone to Rome to support Sir Philip in re-presentations to Italy, regarding the landing of Italian troops in Africa, are quite unfounded. What is true is that Sir Edmund Monson has gone to the Italian Riv-eria, not because he is unwell or re-quires a rest, but because he finds his position very unpleasant at the his position very unpleasant at the present moment, owing to the strong feeling against Great Britain in the press and society, which perforce is reflected to some extent in the at-titude of the French Government. A diplomatic official said: "The French Government is un-doubtedly favorable to Great Britain.

Winnipeg by Judge's Decision. Winnipeg, Feb. 6. — The Winnipeg bye-election recount is over, and A. W. Puttee, the Labor candidate, will go to Ottawa.
