Balfour Announces the Withdrawal the Irish Local Government Bill-What Parliament Proposes to Do Before Dissolution.

Eighty Houses Burned.

Paris, June 13.—Eighty houses have been destroyed by fire in the town of Dabez, near Briancon, Department of

Catastrophe Caused by Carelessness. VIENNA, June 13 .- A dispatch from Przibram says that a miner named Havelka has informed the authorities that the recent disastrous fire in the Birkenhead mine was caused by a miner named Kriz care-lessly dropping a burning wick when at work. Kriz, Havelka and two other wit-nesses have been arrested.

What Parliament Proposes to Do. LONDON, June 13 .- Mr. Balfour, in the House of Commons, said that the Govern ment would conclude the Irish Education and several other bills before Parliament was dissolved, but it would be impossible to proceed with the Irish Local Government Eil.

Mr. Thos. Sexton, McCarthyite member for West Belfast, declared that the Irish would stenuously oppose the Irish Education Bill at every stage. Devonshire's Nephew to Wed.

LONDON, June 13 .- Lieut. Victor Christian William Cavendish, nephew of the Duke of Devonshire, being the eldest son of Edward, the Duke's surviving brother, and therefore in the line of succession to the dukedom, will marry, on July 20, Evelyn Mary, the eldest daughter of the Marquis of Lansdowne. Young Cavendish was born in 1898 and his intended bride in 1870. The marriage will be a brilliant affair and it is expected that the Duke of Devoushire will bestow on the young couple a liberal in-come. The young man is a lieutenant in

the Derbyshire vecmanry cavalry.

Another intended marriage that is arousing interest in society is that of the Earl Lichfeld to Miss Cleveland, to take place

The Danger to Liberals. LONDON, June 13 .- The absorbing question in Liberal circles is whether the Irish Nationalists will go into the general elecvalualists will go into the general election in their present divided condition or
will conclude to unite. There is a feeling
among the Liberal leaders, which they do
not hesitate to express, that division in
the Irish ranks means defeat for the Liberal party in Great Britain. The appeal of
the Ulster Protestants is making a strong
impression mean the British Nonconformmpression upon the British Nonconform-sts, and it will be difficult to hold the Liberal party for Irish home rule, unless it is shown not only that an overwhelming majority of the Irish are for home rule, but also that home rule would mean something besides discord and strife. While the McCarthy, or majority faction of the Irish Nationalists, complains that the Parnellites are not willing to come to an understanding, the Parnellites answer that, so long as Timothy Healy continues to abuse both the living and the dead so long they would only be degrading themselves by submitting to his dictation.

Palace Cars for Emperors. eral party for Irish home rule, unless it is

Bubmitting to his dictation.

Palace Cars for Emperors.

London, June 13.—The reigning families of Europe continue to acquire special trains of magnificent luxury, in imitation of Queen Victoria. This week Emperor Franz Josef took his first trip on his new train of sight vestibuled and palatially-furnished carriages. In St. Petersburg the uphoisterers are making the final changes in the furniture of the Czar's special train. This consists of fourteen carriages. The saloon is divided into two rooms, and uphoistered in red silk. The dining-car is in carved cak. The Empress' bedroom is in turquoise blue silk, and the bed is slung hammockwise, in order to obviate shaking. The cramamentation is in mosaic of precious woods. It is very splendid, doubtless, but the German Emperorhas beaten his Russian brother in the matter of luxurious trains. The reception saloon, with its groups of tattary, does not appear in the catalogue of effects in the Czar's train.

Worshipers Killed.

MARID, June 13.—Terrible thunder storms prevailed in various parts of Spain yesterday, and heavy loss of life words.

Yesterday, and heavy loss of life and injury by lightning are reported. At Melias, in the Province of Orenz, At Melias, in the Province of Orenz, The parish church was crowded with worshipers attending mass when the storm burst. Suddenly a most terrific crash of thander following almost immediately a flash of lightning, blinding in its intensity, caused the worshipers to spring to their feet in fear. For two or three seconds after the flash it was immeasible to see anything, the transactions of the second seconds after the flash it was immeasible to see anything, the transactions of the second seconds after the flash it was immeasible to see anything. was impossible to see anything, the transition from sudden brightness to extrem drkness rendering the people practically blind. The utmost confusion prevailed. Finally when order was restored the con-gregation were horrlind to find that ten of their number had been struck by lightning and instantly killed, and 28 others had been seriously injured.

All Aboard for the North Pole! London, June 13.—An Athenian pr lessor of mathematics, named Damaskin, has invented an ice locomotive which, he pects, will carry him to the North Pole. has given an order for the construction He has given an order for the construction of a large locomotive after his pattern, and is now calling for volunteers to accompany him to the Arctic Ocean. The locomotive is to have an unique arrangement by which it lays and takes up the rails as it runs. Short thin spikes on the under side of the rails will make the latter temporarily fast in the ice. The locomotive will be operated by steam, and at the same time will throw out enough heat to keep the travelers from suffering from the cold. One cab, attached to the locomotive, is to carry the provisions for the exploring party. The

locomotive and cab will be conveyed in parts to Spitzbergen, Professor Damaskin says, will there be put together, and will then be run for the North Pole at the rate of 30 miles per hour. As Spitzbergen is about 600 miles from the North Pole, Professor Damaskin spreads to reach bid eden. fessor Damaskin expects to reach his desti-nation in twenty hours. He allows eight hours for his first observations and twenty nours for his first observations and twenty hours for returning, so that the whole trip, Spitzbergen and return, will be made in just two days. Professor Damaskin hopes to be ready to start on his journey late in September or early in October.

Royalty Scandalized.

Berlin, June 13.—Dispatches from Darmstadt announce that Prince Henry of

Hesse-Darmstadt has married in that city Fraulein Milena, a member of the Grand Ducal Opera company. The ceremony was performed before only a few witnesses. The announcement was a genuine and disagreeable surprise to court circles both here and in Darmstadt. Fraulein Milena is a beautiful young was the following the court of the country of the c here and in Darmstadt. Fraulein Milena is a beautiful young woman, who is celebrated for her acting of passionate parts. She is dark, of fine figure, and has a most remarkable head of way hair. She is said to be about 25 years of age. Her appearance in "Carmen" first attracted the Frince, who, despite his 52 years, is a familiar figure in the greenroom of the opera house. He paid her court, to the scandal of the ducal family, but she accepted with apparent reluctance his public attentions. Then he ceased showing himself nightly in a box, and confined his wisits to the greenroom. Fraulein Milena wisits to the greenroom. himself nightly in a box, and confined his visits to the greenroom. Fraulein Milena received enormous quantities of flowers annonymously, but it was generally understood that they came from the Prince. The Prince was frequently at Fraulein Milena's apartmants, yet, owing to his reputation, this fact elicited little comment. Rumors of his approaching marriage became current shortly before Queen Victoria's last visit to Darmstadt, and she is said to have exerted hersell to prevent the union,

last visit to Darmstadt, and she is said to have exerted herself to prevent the union, pointing out that the House of Hesse had been sufficiently disgraced already by the Grand Duke Ludwig's morganatic marriage, as well as by that of the Prince himself with Fraulein Wittich in 1878. Prince Henry was supposed to have promised to give up his proposed marriage, and for a short time after the Queen's visit his ardor apparently cooled. He was not seen at the actress' ooled. He was not seen at the actres apartments, and he ceased visiting her be-hind the scenes. Three weeks ago, how-ever, he returned to her and arranged for the marriage, which has now taken place Fell From a Balloon.

BERLIN, June 14.—A female parachutist, named Grossman, fell from a balloon here yesterday, a distance of 500 feet, and was instantly killed.

Four Hundred Deaths Daily. LONDON, June 14.—The mortality from cholera at Meshad, Persia, has reached 400

daily. Business is completely suspended. The Persian Government has ordered that a military cordon be placed around Teheran. The Russian Government is Teheran. The Russian Government it taking serious and expensive measures to prevent the entry of cholera in Russia and has persuaded the Ameer of Bokhara to cleanse his capital and put it in a sanitary condition. The sanitary operation nearly caused a native revolt and the Ameer had to threaten beheading as the penalty for non-compliance with the new regulations.

TWO MUCH OF A GOOD THING.
MINNEAPOLIS, Minn., June 13.—Orono
Point, Lake Minnetonka, was crossed by a
small cyclone, which formed on the surface
of the lake and swept across the peninsula
with terrible force. The residence of Geo. with terrible force. The residence of Geo. Brackett was wrecked, and all the fine trees surrounding the house, most of them 50 years' growth, were uprooted. After playing havee on that point the twister doubled on its course and went out across the lake, where it apparently disappeared.

BROILING IN BRANTFORD.

BRANTFORD, Ont., June 13.—The thermometer registered 98 degrees in the shade yesterday. A gentle breeze from the south moderated considerably the excessive heat.

CYCLONE IN MAINE.

CASTINE, Mc., June 13.—A cyclone struck West Brookaville this morning. The rear end of George Gray's store was moved six feet; bridge rails were twisted and bent over. One hundred and fifty thousand feet of lumber were blown away, and joists blowt through a window knocked Mrs. Gray senseless. Hail stones fell the size of robins' eggs.

FATAL STORM AT CHICAGO.

CHICAGO, June 13.—The city was visited this afternoon by one of the most severe atoms known here for years. It lasted only a short time, but during that time two persons are known to have been killed, five or six fatally injured, and much damage done to property. The great wigwam on the lake front in which the Democratic National Convention is to be held next week, was badly CYCLONE IN MAINE.

in which the Democratic National Convention is to be held next week, was badly wrecked. For three days intensely hot weather has prevailed in this city. About 3 o'clock this afternoon clouds began to gather, and half an hour later the darkness was so intense that electric and gas lights had to be called in use in the offices and stores down town. A few minutes later a tornado swept down upon the city from the northwest accompanied by terrific thunder and lightning and minutes inter a tornance swept down upon the city from the northwest accompanied by terrific thunder and lightning and torrents of hail and rain. In the west division of the city trees were broken, awnings torn off and windows shattered. Several buildings in course of crection were wholly or partially wrecked. A brick cottage was demolished and 2-year-old Emma Klima was killed instantly, the mother and another child being badly injured. In the district between Twenty-second and Thirty-third streets east of the river a great deal of minor damage was done. Telegraph, telephone and electric systems were completely demoralized for a time.

Down in the center of the business district the storm seemed most severe near

Down in the center of the business district the storm seemed most severe near the Board of Trade. The Home insurance building was struck by the furious gale, Three plate glass windows in the Union National Bank were blown in and shattered. President Odeil of the bank was struck by a large piece of glass and badly cut. Contractor Allen said this evening the damage to the wigwam will amount to fully \$5,000. The storm played havoe with the great piles of lumber in the district about Blue Island avenue and Twenty second street. For half an hear the air seemed full of flying boards and shingles. Three employes in one yard were hadly injured. Armour's "D" elevator at Morgan street and the river was struck by lightning and completely wrecked. Charles J. Roberts, at work in the holier room, was killed.

The third was large steam shorel, toppied over into the dictin, drag-shorel, toppied over into the dictin, drag-shorel, three can be diver into the district damage was done, but as far as could be agricultural implements. RAILWAY COLLISIONS IN ENGLAND

Five Persons Killed and Several Injured London, June 14.—Five persons were killed and eight injured by a collision that occurred early this morning at the Bishopagate branch of the Great Eastern Railway. There was some misunderstanding of signals or orders. Two workingmen's trains, which daily bring to their work thousands of people from the suburbs ran into each others. Hundreds of working girls were in the carriages, and of working girls were in the carriages, and the excitement naturally attendant upon accidents of this kind was added to by their wild shricking. Many of them went into hysterics, others fainted and were carried from the

tainted and were carried from the carriage in an unconscious condition.

The five dead were taken to the morgue, while ambulances carried the injured to the hospital.

The Scotch express on the Midland Railway ran into an engine at the Leeds

station to-day. Seven persons were seri-ously injured.

CREED AGAINST CREED.

Terrible Tale of Carnage from East

LONDON, June 14.—Further letters from the White Father's mission in Uganda, East Africa, repeat the charges made against the Protestant forces in that kingdom of mowing down the Catholics, including many women and children, with a deadly rain of shot from the mitrailleuse with which they were supplied. The letters also say that after the Catholic army had three times repelled the desperate attacks made on their ranks, the survivors were at length driven towards Victoria Nyanza. So hard pressed were the united forces length driven towards Victoria Nyanza. So hard pressed were the united forces of the Catholics that they were actually forced into the great lake, and from 500 to 600 of the people were drowned, like a herd of animals. Major Kenline saved the lives of Bishop Hirth and King Mwanga, who led the Catholics, by his timely arrival at the scene of carnage, and his display of the German flag.

Smashup on the C. P. R.
OTTAWA, June 13.—There was another smashup on the C. P. R. line last week. The accident happened at Jack Fish, about 100 miles east of Port Arthur. A heavy freight train was rounding a curve, when one of the cars, on which was a large steam shovel, toppled over into the ditch, dragging after it three other cars leaded with agricultural implements. Considerable may be a far as could be

pletely wrecked. Charles J. Roberts, at work in the boiler room, was killed.

Late this evening additional casualties were reported. Several men working on new building were badly hurt. The life awing station reports that three men seen look, get him to procure it for you.

CROPS IN ONTARIO.

The Agricultural Department's Bulletin.

Fall Wheat in a Very Promising Con-

But Bright, Warm Weather is Wanted-Barley Prospects Slim-Corn Back-ward-Bees in Bad Shape-The Fruit Outlook Encouraging.

TORONTO, June 13 .- The Ontario Depart ment of Agriculture has issued a bulietin of crops of the Province gathered from re-ports of 600 correspondents up to the date of June 1. A summary of the reports show as follows:

as follows:

FALL WHEAT.

The fall wheat crop is still in a very promising condition, Very little has been plowed up, and the only unfavorable conditions are noted in connection with latesown grain and that put in upon low-lying, undrained lands. On the whole, present conditions point to a first-class crop of fall wheat, warm weather, however, being very desirable and necessary, as a very rapid growth of straw has taken place, and the continuance of wet weather would cause great loss from drowning out and from lodging. An extra good crop may be expected should bright weather continue.

SPRING WHEAT.

Of spring wheat the Lake Eric counties report much damage from rain in the west, with improvement in cendition as we come east. The condition of this section at present is only fair. While the spring wheat can on the whole be considered in hardly as good condition as the fall wheat, the present prospects are up to the averthe present prospects are up to the average, but its success is now dependent upon continued warm weather.

The barley acreage is still decreasing.
The present condition over the Province is fair but backward, with the prospect of a very much decreased total yield unless the weather soon becomes and continues more favorable.

On the whole the condition of cats is better than that of barley, and should the weather be favorable for the next few weeks a more than average crop may be expected.

Very few report rye as being sown at all.
Most reports indicate the probability of a small crop. The reports as to peas are necessarily in-complete, as owing to the lateness of the season sowing was still in progress in many

CORN. All over the Province, but more particularly in the corn-growing counties of the Lake Eric group, the repeated rains of May greatly hindered corn planting, but there is no reason to doubt the usual acre-

there is no reason to doubt the usual acreage will be given to corn.

BEANS.

The planting of beans, as in the case of corn, has been delayed. Some correspondents venture the opinion that the area grown this season will not be as large as usual.

During the past few weeks the hay crop has made wenderful progress owing to the continued rain. A heavy yield is assured. The appearance of timothy was perhaps never better.

never better.

BEES AND HONEY.

The reports regarding the apiary are far from encouraging. In addition to losses by starvation, chilled brood and dysentery were not uncommon. Foul brood is reported only in a few localities, but the death of queens appears to have been more frequent than usual. The reported losses during the winter and spring vary from 3 up to 78 per cent.; the average may be placed at 25 per cent.

FRUITS.

Vegetation appears to be about a week backward. With but few exceptions the accounts regarding apples were most favorable. BEES AND HONEY.

tario counties were more or less injured by the winter.
Plums and cherries are still assailed by

rums and coeries are still assailed by their enemy—the black knot. In Eastern Ontario the interest in orcharding ap-pears to be developing. The fruit crop is on the whole encouraging.

There is little that is special to note in the condition of farm labor. Regarding the quality and supply of labor opinions differ. While the greater number of those reporting consider that the right class of hands are available, a strong minority state that good farm laborers are scarce. Outlook in Western Ontario.

Outlook in Western Ontario.

Bothwell—Both fall and spring crops in this vicinity are looking well and promise a heavy yield. Little damage done except a small area overflowed by the Thames.

Dutton—Crops on the whole look tolerably well. Fall wheat extremely heavy. Meadows have not looked so well for years, but the spring crop is almost a total failure. The fruit crop promises to be abundant.

Elgin—Fall wheat and rye good; apring wheat fair; oats and peas good crops, but on undrained and low lands considerably damaged; meadows and pasture are extra good.

Exeter-Fall wheat and hay never looked better. Spring wheat, oats and barley good. Fruits of every kind prospect good;

better. Spring wheat, cats and barley good. Fruits of every kind prospect good; root crop prospects good.

Ingersoil—Crops are looking remarkably well with a very few exceptions. Fall wheat fields promise very large crops. Spring crops are looking particularly well, excepting peas. Hay and fodder crops promise a very large yield.

Mount Brydges—Crops in general are only about two-thirds as good we we expected, peas a total failure. Much damage by floods.

Petrolea—Crops of all kinds promise well except in some low lands.

Sarnia—Recent heavy rains occasioned the farmers considerable anxiety, but owing to the complete system of drainage and the cool weather succeeding the wet spell the agricultural prospects in this district are most encouraging.

Wallaceburg—Fall wheat and hay on high land promises an average yield. The spring grain is late and short. Floods destroyed everything on all the low land. Fruit of all kinds promises an average crop, except cherries and peaches.
